CORAM : BHARATI DANGRE &
ASHISH S. CHAVAN, JJ

DATE : 16th SEPTEMBER 2025

ORAL ORDER : *(Per Bharati Dangre, J.)*

1. In continuation of the order dated 09.09.2025, passed in Misc. Civil Application taken out by respondent no.9, seeking disposal of the PIL Writ Petition on the ground that it has been rendered infructuous as the petition revolved around the project for the sub-station being constructed in Sangod Village and this proposal having been abandoned, the petitioner/the applicant had even surrendered land to the Government and the sub-station is being constructed on some other site.

In the wake of the request to dispose of the PIL proceedings, Ms Alvares has tendered an affidavit filed by the petitioner and she would fairly submit that the petitioner has no objection in disposing of the petition as she agrees that the same has been rendered infructuous. The affidavit is taken on record. She would only like to invite our attention to the statement made in the application, where the applicant has categorically stated thus:

> *"5. In lieu of the same, Sy No.21/1 and other forest lands as stated in para 15 of the application, namely Sy Nos.22/1 and 24/1-A, have been handed over to the Forest Dept together with an amount of Rs.22,44,80,268 as compensatory afforestation cost together with Net Prevent Value estimation for all areas in Goa*

Reason:

affected by the HTL line including the Sangod plot. The department has commenced work to reforest the Sangod plot.

6. In view of the above facts, and the return of Sy No.21/1 of Sangod village to its forestry status, the petitioner is satisfied with the outcome of these proceedings and the PIL may therefore be disposed of accordingly."

2. Even as per the applicant, for the purpose of undertaking construction of the sub-station, the technical clearance was granted by the TCP department and even the construction licence was issued but since now the project has been abandoned, the PIL petition, according to us, must come to an end.

In the wake of the aforesaid, Misc. Civil Application No.2283/2025(F) is allowed and the PIL Writ Petition is disposed of as infructuous.

ASHISH S. CHAVAN, J. **BHARATI DANGRE, J.**

against respondent no.2 as in view of this statement respondent no.2, in any event, cannot deal with any of the part of the property in any manner whatsoever henceforth.

6. This leaves for consideration the rights of the third parties namely Respondent nos. 12 to 47, who have been impleaded by virtue of this order. The property is one. Prima facie, atleast therefore, the rights and restrictions applicable to the part of the property sold by respondent no.2 to the third parties would be similar to those in respect of that part of the property sold to respondent no.1. The Government of India, as noted earlier, is re-considering the entire matter which involves the question as to whether the land is a private forest land and whether cutting of hill slopes contrary to the limits prescribed by law is involved. It is for this reason and for the reasons which we will now mention that we are inclined to pass certain interim orders even against Respondent nos. 12 to 47, despite their not being before us today.

7. Mr. Nadkarni, the learned Senior Counsel, appearing on behalf of Respondent no.6, Mormugao Planning and Development Authority, stated that in respect of six plots, permission for construction has been granted. The statement tendered by Mr. Nadkarni is taken on record and marked X-1. The plot owners at serial nos. 1 and 3 to 6, have commenced construction. The plot owner at serial no. 2 has completed the construction.

8. It is pointed out that the owner at serial no.2, namely Mrs. Filomeno Fernandes and Ors., are mundkars. In the circumstances, no reliefs can be granted against them. It is not necessary to implead them either. In fact, no reliefs have been sought against them.

IN
PUBLIC INTEREST LITIGATION WP NO.13 OF 2021

GOA TAMNAR TRANSMISSION PROJECT LTD ... APPLICANT

Versus

THE GOA FOUNDATION, THR. ITS SECRETARY, DR CLAUDE ALVARES ... RESPONDENT

Mr Shivan Desai and Ms Tahira Menezes, Advocates for the applicant.
Ms Malisa Simone, Advocate for the original petitioner.
Ms Maria Correia, Additional Government Advocate for respondent Nos.1 to 3 and 5 to 7.

CORAM:- BHARATI DANGRE &
ASHISH S. CHAVAN, JJ.

DATED :- 9th September, 2025

P.C.:

Misc. Civil Application No.2283 of 2025 (F) taken out by respondent No.9 seek disposal of the writ petition on the ground that it has been rendered infructuous as the petition revolved around the project for the substation being constructed at Sangod Village and this proposal has been abandoned and even the land is surrendered to the Government and the substation has now been constructed at some other site.

(*a*) trees which have been planted and grown, and are not of spontaneous growth, and

(*b*) are in areas which were not forests earlier, but were cleared for any reason.

2. The State Government, within four weeks from today, is to constitute a committee for identifying all "forests".

3. Those tribals who are part of the social forestry programme in respect of patta lands, other than forests, may continue to grow and cut according to the Government Scheme provided that they grow and cut trees in accordance with the law applicable.

4. Insofar as the plantations (tea, coffee, cardamom etc.) are concerned, it is directed as under:

(*a*) The felling of shade trees in these plantations will be —

(*i*) limited to trees which have been planted, and not those which have grown spontaneously;

(*ii*) limited to the species identified in the TANTEA Report;

(*iii*) in accordance with the recommendations of (including to the extent recommended by) TANTEA; and

(*iv*) under the supervision of the statutory committee constituted by the State Government.

(*b*) Insofar as the fuel trees planted by the plantations for fuel wood outside the forest area are concerned, the State Government is directed to obtain within four weeks, a report from TANTEA as was done in the case of shade trees, and the further action for felling them will be as per that report. Meanwhile, Eucalyptus and Wattle trees in such area may be felled by them for their own use as permitted by the statutory committee.

(*c*) The State Government is directed to ascertain and identify those areas of the plantation which are a "forest" and are not in active use as a plantation. No felling of any trees is however to be permitted in these areas, and sub-paras (*b*) and (*c*) above will not apply to such areas.

(*d*) There will be no further expansion of the plantations in a manner so as to involve encroachment upon (by way of clearing or otherwise) of "forests".

5. As far as the trees already cut, prior to the interim orders of this Court dated December 11, 1995 are concerned, the same may be permitted to be removed provided they were not so felled for Janmam land. The State Government would verify these trees and mark them suitably to ensure that this order is duly complied with. For the present, this is being permitted as a one-time measure.

6. Insofar as felling of any trees in Janmam lands is concerned (whether in plantations or otherwise), the ban on felling will operate subject to any order made in the Civil Appeals Nos. 367 to 375 of 1977

The learned counsel for the original petitioner - Goa Foundation seek some time as according to her, the petition cannot be said to have been rendered infructuous.

We expect her to make submission on the next date of hearing on this aspect.

List the application on 16.09.2025, on the supplementary board.

ASHISH S. CHAVAN, J. **BHARATI DANGRE, J.**

Signed by: AMRUT NAGESH TARI
Designation: Personal Assistant
Date: 10/09/2025 10:39:20

include certification that the timber has come from State Forest Corporation sources; and

(*b*) be undertaken by either the Corporation itself, the Jammu and Kashmir Forest Department or the receiving agency.

7. The State of Jammu and Kashmir will file, preferably within one month from today, a detailed affidavit specifying the quantity of timber held by private persons purchased from State Forest Corporation Depots for transport outside the State (other than for consumption by the DGS & D, Railways and Defence). Further directions in this regard may be considered after the affidavit is filed.

8. No saw mills, veneer or plywood mill would be permitted to operate in this State at a distance of less than 8 kms from the boundary of any demarcated forest areas. Any existing mill falling in this belt should be relocated forthwith.

III. FOR THE STATE OF HIMACHAL PRADESH AND THE HILL REGIONS OF THE STATES OF UTTAR PRADESH AND WEST BENGAL

1. There will be no felling of trees permitted in any forest, public or private. This ban will not affect felling in any private plantation comprising of trees planted in any area which is not a "forest"; and which has not been converted from an earlier "forest". This ban will not apply to permits granted to the right-holders for their bona fide personal use in Himachal Pradesh.

2. In a "forest", the State Government may either departmentally or through the State Forest Corporation remove fallen trees or fell and remove diseased or dry standing timber from areas other than those notified under Section 18 or Section 35 of the Wild Life Protection Act, 1972 or any other Act banning such felling or removal of trees.

3. For this purpose, the State Government is to constitute an Expert Committee comprising a representative from MOEF, a representative of the State Government, two private experts of eminence and the MD of the State Forest Corporation (as Member Secretary), who will fix the qualitative and quantitative norms for the felling of fallen trees and diseased and standing timber. The State shall ensure that the trees so felled and removed are in accordance with these norms.

4. Felling of trees in any forest or any clearance of forest land in execution of projects shall be in strict conformity with the Forest Conservation Act, 1980 and any other laws applying thereto. Moreover, any trees so felled, and the disposal of such trees shall be done exclusively by the State Forest Corporation and no private agency is to be involved in any aspect thereof.

IV. FOR THE STATE OF TAMIL NADU

1. There will be a complete ban on felling of trees in all "forest areas". This will however not apply to:

Advocate for the respondents no.1, 2, 3, 5, 6 and 7, Mr. B. Thaly, learned counsel for respondent no.7 and Mr. A. D. Bhobe, learned counsel for respondent no.9.

2. According to us, arguable issues are raised and hence we issue Rule in this petition.

3. Insofar as the issue or interim relief is concerned, on behalf of the respondent no.9 affidavit is filed in which it is admitted that presently there is no conversion sanad issued in their favour. The affidavit also proceeds to state that no construction or development activity will be undertaken until such conversion sanad is obtained from the Authorities. Therefore, for the present, there is no subsisting apprehension of the respondent no.9 proceeding with the construction or development activity at the site. At this stage, it is not necessary to make any further orders on the petitioner's prayer for interim relief.

4. Mr. Bhobe, learned counsel for respondent no.9 further states that no sooner the conversion sanad is obtained, copy of the same will be immediately furnished to the learned counsel for the petitioner. At that stage, it will be open to the petitioner to either take out a fresh application seeking interim reliefs or to press for the interim reliefs sought for in this petition.

which is signed by the Deputy Captain of Ports. This report again refers to the measures carried out by the Captain of Ports Department, particularly in relation to random patrolling at various locations at river Mandovi and river Chapora. Extracts from the report dated 16th January, 2020, read as follows :

> *" As per the direction of the High Court to undertake regular and random patrolling during the day and night and ensure the stoppage of illegal sand mining. The Department staff carried out random patrolling at various location sin River Mandovi and River Chapora.*
>
> *1. Today morning, Department vessel is on patrol in river Zuari, departed from Panaji at 6.00 am.*
>
> *2. On 15.01.2020 from 08.00 pm to 11:45, patrolling through Departmental vessel M.V. Shravani at Old Goa, Akhada, Pilgao and Amona. No activities were noticed.*
>
> *3. On 13.01.2020 from 08.30 pm to 110.45 pm, patrolling through Departmental vessel M.V. Shravani at Old Goa, Vessel was kept standby. No activities were noticed.*
>
> *4. On 10.01.2020 from 04.00 to 10.00 am, patrolling through Departmental vessel M.V. Shravani from Panjim to Kothambi. No illegal activities were noticed in the morning hours. However at Volvoi, more than 15 Canoes were noticed taken out of water and kept on the land near the bank.*
> *At Maina, three canoes were taken out of water and kept on the land.*
> *At Amona, five canoes were seen on the land near the bank.*
> *At Khandola, two canoes were seen on the land near the*

5. Learned counsel appearing of behalf of the respondents waive service on Rule. In case any parties wish to file any further pleadings in this matter, they are granted liberty to do so by exchanging the pleadings. The pleadings to be completed within a period of 3 months from today.

6. Once the pleadings are complete, liberty to apply for a fixed date for disposal of this petition.

THE GOA FOUNDATION **...Petitioner**

v/s.

THE STATE OF GOA & ORS **...Respondents**

AFFIDAVIT OF THE ORIGINAL PETITIONER

I, Dr. Claude Alvares, Secretary of the Original Petitioner organization, solemnly state and affirm as under:

1. This PIL was filed in October 2020, because Sy No 21/1 of Sangod village, a large area of approx 10 ha. was a forested plot, located in forested area and the same was permitted to be clear-felled in order to set up a sub-station for a proposed High Tension Line (HTL).

2. The Petitioner challenged the exemption granted by the Forest Dept under the Trees Act, with the approval of the Chief Secretary, which enabled the felling of nearly 3,000 forest species on the said plot. The clear felling of the plot was also in violation of a Supreme Court order dated 04.02.2015 which prohibited the conversion of any land of 1 ha and above, having natural tree cover and canopy density of > 10%. Despite there being no conversion sanad, a Technical Clearance from the TCP department and a Construction License for erection of the sub-station were issued. These permissions, together with the tree felling permissions, were also challenged.

3. The violation of the SC order led the petitioner to file contempt proceedings against the project proponent [*Applicant in this M.C.A., original Resp. No. 9*] in the Supreme Court, which proceedings are still pending. The Applicant's statement in para 6 of the application that it has planted 9385 trees in lieu of the 2670 it felled is seriously disputed, as a site visit conducted by the petitioner has revealed that few of the trees have survived. The Hon'ble Supreme Court has been apprised of the same.

4. The construction of the High Tension Line through virgin territory in the Bhagwan Mahavir Wildlife Sanctuary was disallowed by the Hon'ble Supreme Court in 2022 which directed that the existing HTL corridor through the sanctuary be used instead for the HTL. Hence the sub-station had to be shifted out of Sangod and a new location was found in Dharbandora. The relevant order of the S.C. in this regard dt. 07.04.2022 is enclosed hereto as **Annexure A-1.**

NOTARY

5. In lieu of the same, Sy No 21/1 and other forest lands as stated in para 15 of the application, namely Sy Nos 22/1 and 24/1-A, have been handed over to the Forest Dept together with an amount of Rs. 22,44,80,268 as compensatory afforestation cost together with Net Prevent Value estimation for all areas in Goa affected by the HTL line including the Sangod plot. The department has commenced work to reforest the Sangod plot.

6. In view of the above facts, and the return of Sy No 21/1 of Sangod village to its forestry status, the petitioner is satisfied with the outcome of these proceedings and the PIL may therefore be disposed of accordingly.

7. I state that the contents of paragraphs 1 (p) - 6 (p) are based partly upon my personal knowledge and official documents/records which I believe to be correct, and partly are my submissions made on legal advice which I believe to be true. No part of it is false and nothing material has been concealed therefrom, and the annexure enclosed is a true and correct copy of its respective original.

Solemnly affirmed at Mapusa, Goa,
this the 15th day of September 2025.

UPON hearing the counsel the Court made the following

O R D E R

Goa Tamnar Transmission Project Limited (for short "GTTPL") is a transmission licensee selected through a tariff based competitive bidding (TBCB)

process to establish a Transmission system for "Additional 400 Kv feed to the State of Goa and Additional System for power evacuation from generation projects pooled at Raigarh (Tamnar) Pool on Build, Own, Operate and Maintain (Boom) basis"(Project).

One of the key transmission elements forming part of the Project is the loop-in loop-out (LILO) of one circuit of the Narendra (Existing) - Narendra (New) 400 Kv D/C quad line at Xeldem (NN Line). The NN Line passes through the States of Karnataka and Goa.

The Project connects the southern region (Sangod/Xeldem) with the Northern Goa region (Mapusa) through the NN Line.

By report No.6 of 2021, Central Empowered Committee has made certain observations and recommendations relating to the Goa Tamnar Transmission project for laying of electric lines under the transmission scheme. CEC was of the opinion that the project proposed by the GTTP would be detrimental to the fragile ecosystem of the Western Ghats.

CEC has examined the permission granted by the Standing Committee of National Board for wildlife granting approval for the Project. CEC was of the view that instead of clearing canopy of virgin forest cover along 10.50 km long corridor with 46 m ROW in

Goa State, the proposed 400 Kv line should be drawn along the existing 220 Kv corridor line in Goa State after establishing 400 Kv corridor connectivity between Mapusa and Sangod and 220 Kv line between Sangod and Xeldem. According to CEC, this course of action would ensure adequate supply of power to southern Goa region 100 MW of power now being received from ramagundam through 220 Kv line is temporarily disrupted during the construction phase of 400 Kv line between Narendra and Sangod.

CEC further recommended that the project proposal in respect of Karnataka part should also be suitably amended so as to make use of 110/220 Kv line corridor which will ensure that the commitment given by Power Grid and CEA to the Karnataka Government that no further transmission line shall be laid in the area is not violated. The modification that has been proposed by the CEC would be in the interest of forest and wildlife in the ecologically fragile and biodiversity in these parts. Finally, CEC recommended that direction should be given to the Ministry of Power, Government of India, Goa State Electricity Department and GTTPL to redraw and modify the alignment of additional 400 Kv line corridor between Narendra (existing) - Sangad (new) in the State of Goa and Karnataka in the light of the observations and recommendations made in Report 6 of 2021.

I.A.Nos.9110 of 2022 and 9113 of 2022:

These Interlocutory applications have been filed by GTTPL seeking appropriate orders regarding the recommendations made CEC in Report No. 6 of 2021 by requiring realignment of the loop-in loop-out (LILO) of one circuit of the Narendra (Existing) – Narendra (New) 400 Kv D/c quad line at Xeldem (NN Line) including whether they are binding and must be implemented by the Applicant.

In the alternative, GTTPL also said that the original route envisaged for the loop-in loop-out (LILO) of one circuit of the Narendra (Existing) – Narendra (New) 400 Kv D/c quad line at Xeldem (NN Line) without any realignment as recommended in the Central Empowered Committee's Report No.6 of 2021 dated 23.04.2021.

Mr.C.U.Singh, learned senior counsel appearing for the GTTPL submitted that there would be no objection for compliance of the recommendations made by CEC in its report No.6 of 2021.

Mr.Prashant Bhushan, learned counsel appearing for the Goa Foundation also submitted that there can be no objection for the implementation of the recommendations made by the CEC in respect of realignment of the transmission line.

After examining the report No.6 and hearing the learned counsel for the parties, we approve the recommendations made by CEC in Report No.6 and direct suitable steps to be taken in accordance with the recommendations made therein. Consequent to the acceptance of the report submitted by CEC, the recommendation made by National Board for wildlife dated 07.04.2020 is set aside.

Ms. Srishti Agnihotri, learned counsel appearing for the Goa Foundation vehemently submitted that hearing of this matter should not have a bearing on the contempt petition filed by Goa Foundation in respect of felling of trees by GTTPL for constructing a sub station. It is made clear that the said contempt petition and the applications filed by GTTPL shall be decided on their own merits.

I.As and Pending application(s), if any, shall stand disposed of accordingly.

IA NO. 107884/2021 and IA NOS. 30853 AND 30858/2022.

List on 21.04.2022 at 3.00 p.m. as part-heard.

Additional documents, if any, be filed in the meanwhile.

...RESPONDENTS

APPLICATION FOR APPROPRIATE ORDERS

MAY IT PLEASE YOUR HONOUR

1. Applicant was awarded the transmission project for laying additional 400kv feed to Goa and additional

system for power evacuation from generation projects pooled at Raigarh (Tamnar pool)(transmission Project). The transmission project will pass through 7 districts of states i.e Goa, Karnataka and Chhattisgarh benefitting lives of over 1.2 crores of population.

2. One of the lands acquired by the Applicant to the knowledge of the State Government for substation was a land of 1,03,050 sq. mts situated at Sangod bearing Sy. No. 21/1 of village Sangod (***hereinafter referred to as the said land***).

3. The above Petition arises out of the said original proposed plan of the Applicant for setting up of a substation in the said land. In respect of the said land, the Applicant herein had applied for conversion sanad under Section 32 of Goa Land Revenue Code to enable it to erect a substation at the said land.

4. As a part of the procedure for processing the application for conversion sanad, the file was processed for NOC from Forest Department and Town & Country Planning Department (hereinafter referred to as the TCP Department).

5. In the interregnum, Applicant applied for tree cutting permission to fell 2670 trees before the Forest Department in terms of Goa, Daman & Diu preservation of Tree Felling Act. Since tree cutting involved an area of more than 20 ha, considering the nature of the land and the project which was in public interest, the exemption was granted under Section 31 of the Trees Act by the concerned Forest Department.

6. Vide letter dated 25/04/2019, the Forest Department granted permission to the applicant to fell trees and in terms of the said permission, Applicant had felled the trees and had further planted 9385 trees which were more than those directed to be planted. The

same is evidenced by the compliance letter dated 06/10/2020 filed in the forest department.

7. For the purpose of undertaking construction of the substation, Applicant was granted Technical Clearance dated 18/10/2019 by the TCP department and Construction License dated 05/10/2020 by the Village Panchayat of Mollem.

8. By the above Petition, the Petitioner challenged the approval granted to the Applicant under section 31 of the trees act, tree cutting permission dated 25/04/2019, Technical Clearance dated 18/10/2019 by the TCP department and Construction License dated 05/10/2020.

9. The fundamental premise of the challenge was the interim order dated 04/02/2015 passed by the Apex Court in Civil Appeal prohibiting the State Government from issuing NOC in respect of lands

NOTARY
MR. HEMANT PATIL
PALGHAR DIST. PALGHAR
MAHARASHTRA
EXPIRE ON
02-02-2023

having an area of 1 ha and canopy density of more than 1%.

10. It bears mentioning Writ Petition No. 495 of 2010 was filed by Goa Foundation before the Hon'ble High Court challenging the criteria adopted for demarcation and identification of private forest. In the said petition, Goa Foundation had alleged that the criteria of Canopy density of 40% should be reduced to 10% based on the Judgment of the Supreme Court and a fresh demarcation should be done. The said petition was admitted and the Hon'ble High Court had accepted the statement made by the Government that pending disposal of petition, no NOCs for conversion of an area of 5 hectare and having a tree canopy density of more than 10% shall be granted. By Order dated 17/10/2013, the Hon'ble High Court of Bombay at Goa transferred the said W. P. No. 495/2010 to the National Green Tribunal (WZ) at Pune. The said petition was registered as Application No. 14 & 16(THC) of 2013 (WZ). The said

application was heard and disposed of by NGT vide Judgment and Order dated 30/07/2014. In the said Judgment, the Tribunal has held that change in criteria for identification of forest i.e. from 40% canopy density to 10% canopy density is not mandated.

11. Aggrieved by the said Judgment and Order, Goa Foundation filed a Civil Appeal Nos. 12234-35 of 2018 in before the Supreme Court wherein The Hon'ble Supreme Court passed an interim order restraining Forest Department from granting NOCs for conversion of an area of 1 hectare and having a tree canopy density of 0.1.

12. The said appeal was directed to be registered as an IA in the Godavarman SLP. Considering the [illegible] of the issue involved the Applicant herein filed an IA in the said matter seeking appropriate orders to proceed with the works. The above issue about the

10

criteria of private forest has been finally decided in Judgment dated 24/01/2024 passed in Writ Petition (Civil) No. 202 of 1995 with Civil Appeal Nos. 12234-35 of 2018 wherein the abovementioned criteria as adopted by the Goa Government is accepted by the Hon'ble Supreme Court. And therefore, the prohibition for development does not survive. Annexed hereto and marked as **"Annexure A-1"** is a copy of the Judgment dated 24/01/2024 passed in Writ Petition (Civil) No. 202 of 1995 with Civil Appeal Nos. 12234-35 of 2018.

13. In the interregnum, applicant herein, explored the option of an alternate location for a substation and identified a land at Dharbandora to construct GIS substation and surrendered the said land to the State Government for afforestation.

14. The Dharbandora substation is constructed with cutting edge GIS technology and is the first GIS

substation at 400kv capacity at Goa. The said substation is commissioned and charged in the month of November, 2024.

15. Further, the State of Goa has also submitted a report pursuant to the CONMT.PET.(C) No. 938/2021 in C.A. No. 12234-12235/2018 (XVII) (IA No. 115589/2024 concurring to the fact that Goa Tamnar Transmission Project Limited has handed over Survey No. 21/1, 22/1 and 24/1-A of Sanood Village of Dharbandora Taluka for Compensatory Afforestation to the Goa Forest Department. Further, an amount of Rs. 22,44,80,268/- has also been deposited with the Goa Forest Department for carrying out Compensatory Afforestation. It is further stated that the Goa Forest Department had commenced the afforestation measures from the month of June, 2024 by planting saplings of good endurance, consisting of twenty different forestry species suitable to the site conditions, details

GOVT. OF INDIA

thereof have also been given and the CAMPA Executive Committee of the concerned states are required to monitor the afforestation activities under Section 19 of the Compensatory Afforestation Act, 2016 and thus the objections are duly filed before the Hon'ble Supreme Court for the same and the matter was last listed on 04.12.2024 and to be listed.

16. In light of above, the controversy raised in the above Petition does not survive. The above Petition is rendered infructuous. As stated earlier, the above Petition was in respect of the project for the substation being constructed at Sangod which proposal has been abandoned by the Applicant.

PRAYERS

It is therefore humbly prayed that this Hon'ble Court be:

a) Pleased to pass appropriate orders disposing of the said petition as infructuous.

JUDGEMENT

Aravind Kumar, J.

1. The present civil appeals arise out of common order dated 30.07.2014 passed by the National Green Tribunal (Western Zone) Bench, Pune[1] in Application No.14 (THC) of 2013 (WZ) and

Signature Not Verified
Digitally signed by Rajni Mukhi

Reason:

[1] Hereinafter to be read as "NGT".

17

Application No.16 (THC) of 2013 (WZ) filed by the appellant, whereunder the NGT has disposed of both the applications on the ground that the issue of determination of criteria for the identification of 'forest' forms part of the proceedings in *TN Godavarman Case*[2] which is presently seized by this Court and hence, granted liberty to the appellant to approach this Court for the remedy. Therefore, the appellant has filed the present civil appeals under Section 22 of the National Green Tribunal Act, 2010,[3] seeking the modification of such criteria.

2. We have heard the arguments of Mr. Sanjay Parikh, Senior Advocate for the Appellant assisted by Ms. Srishti Agnihotri, Ld. Advocate, Mr. Nalin Kohli, Ld. Advocate for State of Goa assisted by Mr. Sanjay Upadhyay, Ld. Advocate, Ms. Suhashini Sen, Ld. Advocate for Union of India and Mr. Mukul Rohatgi, Ld. Senior Advocate for impleading applicant, perused the case-papers.

FACTUAL MATRIX IN BRIEF

3. The challenge in the present appeals revolves around the criteria issued by the Respondent(s) i.e., the State of Goa and Others

[2] In Re: TN Godavarman Thirumulpad (Writ Petition No.202 of 1995).
[3] Hereinafter to be referred as "NGT Act, 2010".

for the identification of 'forests' in the State, hence, it is important to trace the history of adoption of these criteria which are under challenge before us. Accordingly, in the subsequent paragraphs we have traced the brief history of these criteria.

4. Pursuant to the Judgement of the High Court of Bombay in ***Shivanand Salgaocar v. Tree Officer & Ors.***[4] declaring the application of the Forest (Conservation) Act, 1980[5] to all lands, whether government or privately owned, the Conservator of Forests, State of Goa, in 1991 set out the guidelines for identifying '*forest*' in private properties. Vide letter dated 04.10.1991 the attention of the Ministry of Environment and Forest (MoEF) was sought on the said guidelines with a request to issue suitable guidelines to implement the FCA 1980 on the basis of the aforesaid decision of the Bombay High Court. The guidelines were as follows:

> *"Criteria for application of Forest (Conservation) Act, 1980 to private forests.*
>
> *i) Extent of area: Long term viability of a piece of forest land is an important consideration. Obviously, very small patches of forest cannot be viable in the long run from conservation Point of view. Therefore, a minimum extent of area will have to be determined to which the Forest (Cons.) Act, 1980 would be applicable in private and revenue areas not recorded as 'forest'. I propose that this area should be at least 5 hectares. It is not worthy that the*

[4] Writ Petition No.162 of 1987.

[5] Hereinafter to be read as "FCA 1980".

19

Forest (Cons.) Act, 1980 and guidelines made there under do not prescribe any such minimum area for application of the Act.

ii) *Proximity and/or contiguity: The proximity of the private forests concerned to a larger forest area and / or its contiguity with the later area should also be an important aspect to consider while examining such areas.*

iii) *Composition of crop: It is important to prescribe minimum standards in terms of crop composition in order to distinguish forest species from horticultural species. This is particularly relevant in State like Goa where occurrence of large number of cashew, jackfruit and coconut trees in private areas is a common feature. We may perhaps prescribe that at least 75 of the crop should comprise of forest species.*

iv) *Crown density: It would not be meaningful to apply the Forest (Cons.) Act, 1980 to degraded and open areas under private ownership. Therefore, a minimum crown density of 40% may be adopted as a standard assessing the applicability of the Act in such private and revenue areas which are not recorded as 'forests' in the land records." [Emphasis supplied]*

5. By an order dated 12.12.1996 in ***T.N. Godavarman Thirumulpad v. Union of India***[6], this Court explained that the word "forest" for the purpose of Section 2(i) of the FCA 1980 must be understood according to its dictionary meaning, and would cover *"all statutorily recognised forests, whether designated as reserved, protected or otherwise"*. This Court further explained that the term "forest land", occurring in Section 2 would include not only "forest" as understood in the dictionary sense, but also *"any area recorded as forest in the Government record irrespective of the ownership"*.

[6] (1997) 2 SCC 267.

6. Further, this Court vide order dated 12.12.1996 in *TN Godavarman Case* (*supra*) directed all the States to constitute an expert committee for the following tasks:

> *"(i) Identify areas which are "forests", irrespective of whether they are so notified, recognised or classified under any law, and irrespective of the ownership of the land of such forest;*
>
> *(ii) identify areas which were earlier forests but stand degraded, denuded or cleared; and*
>
> *(iii) identify areas covered by plantation trees belonging to the Government and those belonging to private persons."*

7. The Government of Goa, to implement the said order, constituted the *Sawant* Committee in 1997[7] which identified a total of 46.89 sq. kms as private forest. Thereafter the *Karapurkar* Committee was constituted in 2000[8] to identify the remaining areas. Since the *Karapurkar* Committee suggested a revisit to exclude some of the forest areas already identified by the Sawant Committee, the present appellant herein, Goa Foundation, filed Writ Petition (Civil) No.181 of 2001[9] before this court challenging the appointment of the *Karapurkar* Committee. Meanwhile, the *Karapurkar* Committee submitted its final report and identified 20.18 sq. kms of private forests. Both the Committees for identification of an area as private forest followed the

[7] Under the Chairmanship of Shri SM Sawant on 24.01.1997.
[8] Under the Chairmanship of Dr. H. Karapurkar on 04.09.2000.
[9] Goa foundation v. State Government of Goa.

21

same criteria as was formulated by the Forest Department of Goa in 1991. However, the task of both the Committees was incomplete as some areas were left unidentified. This Court vide order dated 10.02.2006 disposed of the W.P. (C) No.181 of 2001 in following terms:-

> *".....bulk of private forests in the State of Goa still remains to be identified and the same is being sacrificed in collusion with developers and vested interest persons and no action has been taken by the State Government to set up a fresh committee that will bring a finality to the order dated 12.12.1996 passed in WP Civil No. 202/1995. In substance, the prayer in the application is for appointment of another committee or for consideration of the issue by the Central Empowered Committee to identify the private forests. These issues, we are afraid, do not arise out of the writ petition which has become infructuous on Karapurkar Committee and Sawant Committee having submitted their reports. In case, the petitioner has any further relief to seek, it may, in accordance with law, file a fresh substantive petition before an appropriate forum which would be considered on its own merits".*

8. As a result of the order dated 10.02.2006, the present appellant i.e., Goa Foundation, filed Writ Petition No.334 of 2006 for directions to the State Government of Goa to complete the process of identification of forest and to identify the degraded forest lands in accordance with this Court's order dated 12.12.1996.

9. The State Government appointed two new Committees[10] to identify the remaining areas of private forests in North and South Goa

[10] The North Goa District Committee headed by K.G. Sharma and the South Goa District Committee headed by P.V. Sawant on 03.02.2010.

districts that had not been identified by the previous Committee(s). The criteria used by these Committees to identify private forest were same as adopted earlier.

10. Further, the Appellant filed another Writ Petition being W.P. No.495 of 2010 before the High Court of Bombay, seeking the quashing of criteria pertaining to the canopy density which should not be less than 0.4. It was the Appellant's case that the non-consideration of forest areas having canopy density of 0.1-0.4 (10-40%) was contrary to the criteria allegedly accepted by this Court in the order dated 28.03.2008[11]. Hence, appellant claimed that category of open forest or degraded forest having canopy density of 10-40% were totally omitted from the identification process. Subsequently the petition was amended and the criteria of minimum 5 (five) Hectare was also challenged in view of the affidavit filed by the Forest Survey of India[12] wherein the forest cover was defined as being *"all lands more than 1 ha in area, with tree canopy density of more than 10% irrespective of ownership and legal status"*. Meanwhile, by a notification dated 27.11.2012, the

[11] TN Godavarman Thirumulpad v. Union of India & Ors. (2008) 7 SCC 126.
[12] Hereinafter to be read as "FSI"

23

State of Goa again constituted two Committees[13] to identify the balance areas of private forests that had not been covered by the previous Committees. The criteria for identification of forest lands were same as followed earlier.

11. The Bombay High Court vide order dated 17.10.2013 transferred both the Writ Petitions[14] to the NGT which were renumbered as Application No.14 (THC) of 2013[15] and Application No.16 (THC) of 2013[16]. The NGT by the impugned order has set aside both the applications and hence the appellant is before this Court.

12. It is pertinent to mention that this Court vide order dated 04.02.2015, converted the Civil Appeal No.37942 of 2014 filed by Goa Foundation in IA No. 3845 of 2015 in WP No. 202 of 1995 and passed the following directions:

> *"In the meanwhile, we direct that the respondents herein will not issue any 'No Objection Certificate' for the conversion of any plot that has natural vegetation with tree canopy density in excess of 0.1 and an area above one hectare."*

---

[13] The North Goa Forest Division Committee headed by V.T. Thomas and the South Goa Forest Division Committee headed by Francisco Araujo.
[14] W.P. No. 495 of 2010 & W.P. No. 334 of 2006.
[15] Writ Petition No. 495 of 2010.
[16] Writ Petition No. 334 of 2006.

13. It is pertinent to note that the present appeal originally came to be filed on 19.11.2014 as Civil Appeal No.37942 of 2014 assailing the final judgment dated 30.07.2014 passed by NGT. Thereafter, this Court vide Order dated 04.02.2015 converted the Civil Appeal No.37942 of 2014 filed by present appellant to I.A. No.3845 of 2015 in the proceedings before this Court in W.P. No.202 of 1995 (*T.N. Godavarman case).* Vide order dated 04.02.2015, this Court issued a direction to State of Goa to not issue any 'No Objection Certificate' for conversion of any plot that has natural vegetation with tree canopy density in excess of 0.1 and an area above one hectare. Subsequent to Order dated 04.02.2015 of this Court, Respondent No.1 (i.e., State of Goa) filed I.A. No.40261 of 2017 for modification and clarification of Order dated 04.02.2015 of this Court. Thereafter, on 25.10.2018, this Court vide order dated 25.10.2018 passed in W.P. No.202 of 1995 directed to restore I.A. No.3485 filed by present appellant to its original status of a civil appeal and further it directed that I.A. No.40261 of 2017 filed by Respondent No.1 will be heard along with the said civil appeal. Accordingly, I.A. No.3845 in W.P. No.202 of 1995 came to be re-numbered as Civil Appeal No.12234-12235 of 2018, which are the present civil appeals for adjudication before us. In the present civil

25

appeals, I.A. No.116495 of 2022, came to be filed by Confederation of Real Estate Developer's Association of India (hereinafter referred to as "CREDAI"), seeking permission to be impleaded as party respondent, along with the said I.A., CREDAI has also filed I.A. No.116496 of 2022, wherein the impleading party sought vacation of Order dated 04.02.2015. Accordingly, the respondents in the present civil appeals along with the impleading party (i.e., CREDAI) are seeking to challenge the reliefs prayed for by the present appellant and have also sought vacation of the *ex-parte* interim order dated 04.02.2015 passed by this Court in W.P. No.202 of 1995.

DISCUSSION PERTAINING TO IMPUGNED JUDGEMENT DATED 30.07.2014 PASSED BY NGT:

14. It was the contention of the appellant before the NGT that the subject applications raised the issue of identification and demarcation of private forests in the State of Goa as a result of this Court's order dated 12.12.1996 in ***TN Godavarman Case*** (*supra)* as per which the State Governments were required to identify and demarcate the forest area and degraded forest areas.

15. The appellant stated before NGT that there was no basis for criteria No.(iii) in the guidelines of 1991, which related to canopy density, as there are several forest areas, which are presently degraded and having canopy density of less than 0.4 but which were originally dense or medium dense forests and which must, accordingly, be identified as forests. It was also submitted that such lands cannot be unilaterally diverted to non-forestry purpose except with the prior approval under the FCA 1980. It was submitted that if criteria No.(iii) was accepted there would be no compliance with the directions given in terms of reference No.2 of the order dated 12.12.1996.

16. To back its contentions, the appellant relied upon this Court's order dated 28.03.2008[17] wherein this court while deciding the matters relating to Net Present Value (NPV) and compensatory afforestation costs accepted the report submitted by the Central Empowered Committee (CEC) titled "*Supplementary Report of CEC in IA No.826 & IA No.566 regarding calculation of Net Present Value (NPV) payable on Loss of Forest Lands of Different Types in non-forest purpose*". This Court had accepted the CEC's recommendations on certain economic values, proposed for Calculating the NPV and costs

[17] Order in Writ Petition No.202 of 1995

27

for Compensatory Afforestation (CA), involved in diversion of dense, moderate dense and open forest.

17. The appellant further relied upon the FSI Report, according to which, forest vegetation in the country falls specifically in three mutually inclusive canopy density classes:

i. Very Dense Forest (with crown density) 0.7 to 1.

ii. Moderate dense Forest (with crown density) 0.4 to 0.7.

iii. Open forest (with crown density) 0.1 to 0.4.

18. It was, therefore, argued by the appellant before NGT that for the purpose of implementation of the FCA 1980, all the authorities including this Court, have clearly accepted that the areas of natural vegetation, having tree canopy density varying anywhere between 0.1 to 0.4, are to be considered as forest for the purpose of applicability of FCA 1980 and thereafter determination of NPV and CA. This aspect of enlarging the scope of criteria No.3 will be an essential step, as the report of the FSI, 2009 showed that the category of open forest (crown density of 0.1 to 0.4) is almost the same in extent, as both the categories of very dense forest and moderate dense forests are put together.

19. With regard to criteria No.(ii), which requires Minimum 5 Ha, the appellant had argued that the said criteria is defeating the purpose and mandate of FCA 1980 and the order of this Court dated 12.12.1996.

20. It was submitted before the tribunal that the FSI in its affidavit dated 23rd March 2011, submitted that it defines 'forest cover' as being all lands, more than 1 ha area, with a tree canopy density of more than 10% irrespective of ownership and legal status. Such lands may not necessarily be recorded as forest areas. Therefore, the appellant sought the following reliefs in the Application No.14 (THC) of 2013:

> *"For an order quashing the criteria nos. 2 & 3 of the Forest guidelines/criteria and the order of the Respondent No. 1, if any, approving the same".*

21. In the application No.16 (THC) of 2013, the appellant submitted that in ***TN Godavarman's*** case *(supra),* this Court had issued various directions, vide its order dated 12.12.1996. It was the grievance of the appellant that the *Sawant* and *Karapurakar* Committees had not identified the areas, which were earlier forests but now stand degraded, denuded or cleared as per the directions of this Court. The appellant submitted that these Committees have not dealt with this issue or even formulated suitable criteria or framework for notifying such degraded

29

forest areas and therefore, the appellant prayed for following relief(s) in Application No.16 (THC) of 2013:

> • *For an order directing the Govt of Goa to complete the process of identification of private forest in the State, within a time bound period in terms of Apex Court's order dated 12.12.1996 and report compliance;*
>
> • *For an order directing the Govt. of Goa to complete the process of notifying the degraded forest within the State i.e., the areas which were earlier forest but stand degraded, denuded or cleared, in terms of Apex Court's order dated 12.12.1996 and report compliance.*

22. The Forest Department, Government of Goa, Respondent No.4, submitted that in the case of ***Shivananda Salgaonkar (supra)***, the High Court of Bombay, Goa Bench, in the judgement delivered on 27th November 1990 held that *"since the term 'forest' is not defined in the Forest (Conservation) Act, the term has to be taken as per the dictionary meaning"*. Pursuant to this judgement, the forest department framed guidelines in 1991, for identifying the forest in private properties. These guidelines were submitted to the Ministry of Environment and Forest (MoEF), Government of India on 04.10.1991 for their response.

23. The Forest Department further submitted that pursuant to the orders of this Court, dated 12.12.1996, the State Govt. had appointed

Sawant Committee for the purpose of identification of forest lands in the State of Goa on 24th January 1997, which submitted its report on 8th December 1999. The Committee was given task to identify areas which are 'forest' irrespective of whether they are so notified, recognized or classified under any law and irrespective of ownership of land of such forest and to identify areas which were earlier forests but stand degraded, denuded or cleared.

24. Since no cut off was given for the tasks, Committee decided 1980 year in which the Forest Act was promulgated, to be the benchmark for Government forest lands. Subsequently, another Expert Committee was appointed on 4th September, 2000 for further identification of private forest, which also submitted its report on 16.02.2002.

25. The respondent further submitted that the *Sawant* Committee has already obtained data on clearings and diversion made on Government forest lands for various purposes from 1980 and identified that total 13.078 Ha of forest Land has been diverted for various purposes. It was claimed that the Expert Committees have already considered all aspects of the Apex Court direction dated 12.12.1996.

31

26. The respondent further submitted that the State had already defined the forest identification criteria based on the scientific basis considering various aspects as a policy decision and also, these two Expert Committees are functioning effectively and the work of identification of private forest area, is being carried out expeditiously and considering the above, the respondent had opposed both the applications.

27. The MoEF, Respondent No.2 stated that pursuant to the judgement in ***Lafarge Umiam Mining Pvt. Ltd. Vs. Union of India and ors.***[18], it was directed to prepare a comprehensive policy for inspection, verification and monitoring and overall procedure related to grant of Forest Clearance (FC) and Identification of Forest in consolidation with States and the process will likely take some more time and only after finalization of such comprehensive policy, the Ministry will be in position to put forth its stand as regards criteria, which is to be applied for identification of forests and further pleaded for sufficient time to place the stand of Ministry before the Tribunal.

[18] (2011) 7 SCALE 242

28. The Forest Survey of India, Respondent No.3 submitted before the NGT that FSI has mandated to conduct survey and assessment of the Forest resources in the country. It was submitted that India's States of Forest Report is published by the Respondent No.3 and in the said report forest cover is defined being of lands more than 1 Ha in area, with tree canopy density of more than 10% irrespective of ownership and legal status. Such lands may not necessarily be recorded as forest areas. It also includes the orchards, bamboo and palm.

29. **Issues framed by NGT:**

- *Whether the Tribunal has jurisdiction to consider and alter or newly fix the forest identification criteria?*
- *Whether the forest identification criteria set out by the Govt of Goa, needs modification, as prayed in the applications?*
- *Whether the Tribunal can issue directions for expediting forest identification and demarcation process, as prayed in the application?*
- *Whether the applications are barred by limitation?*

33

FINDINGS OF NGT IN THE IMPUGNED JUDGEMENT:

30. Having referred to the earlier pronouncements of this Court the Tribunal observed in paragraph 38 of the impugned order that all the States have formed Expert Committees for identification of forest and have submitted progress reports to this Court by evolving their own methodology for forest identification criteria. As such it was of the view that it would not be in the domain of the tribunal to render opinion with regard to the method of identification to be adopted for fixing the criteria for determining private forest to be adopted by State of Goa and answered point No.1 formulated by it in the negative.

31. In so far as the timeline to be fixed for expediting forest identification and its demarcation process is concerned, the tribunal took note of the fact that out of 256 square kilometres forest area, the work has been completed in respect of 67 square kilometres by the two Committees and as such called upon the Chief Secretary of Goa to call for a meeting of all the concerned and work out time bound action plan for early completion of forest identification and its demarcation within next six (6) weeks and submit a time bound program to the tribunal within 8 weeks thereof. All other reliefs sought for in the application of

the appellant came to be denied. Hence the appellant has approached this Court by way of the present civil appeal.

CONTENTIONS ON BEHALF OF THE APPELLANT IN THE PRESENT APPEAL:

32. It is the contention of learned counsel appearing for the appellant that the tribunal erred in not passing an order on merits on the premise that the issue is seisin before this Court. It is further contended that WP No.495 of 2010 was filed challenging the criteria of minimum 40 per cent canopy density for identification as forest land. In the teeth of the order of this Court dated 28.03.2008 passed in batch of IA's filed in WP No.202 of 1995 ***(T.N. Godavarman)*** in which the petition was amended and the minimum 5 (five) hectares area was also challenged in view of FSI's affidavit which stated that minimum 1 (one) hectare of area and minimum 10 per cent canopy or the criteria adopted by FSI for identifying the forest cover in India and this writ petition was transferred to the tribunal. Hence, it is contended that identification of private forests on the basis of criteria accepted by FSI and by this Court in the order of 2008 passed for determining NPV also to be adopted and followed for identification of forest, which would be in the interest of

35

protection of environment and also a step for implementing the order dated 12.12.1996 passed by this Court as it has remained unmet by the State of Goa.

33. By referring to the three interim orders, namely 17.12.2006 and 26.03.2012 passed by the High Court and the order dated 04.02.2015 passed by this Court, it is contended that authorities have been injuncted from issuing conversion Sanad for any private properties with tree cover in excess of 0.1 all having natural vegetation and tree canopy density in excess of 0.1 and area above 1 (one) hectare which would clearly indicate that in order to protect the environment this relief was essential and so as to prevent any further degradation of the forest by its destruction.

34. It is also contended that to meet the mandate of the order dated 12.12.1996 the identification and demarcation of private forest area on the basis of 1 (one) hectare and 10 percent (0.1) canopy density is an exercise which must be carried out for meeting the said criteria which would be over and above the identification of forest area done on the criteria that is 75 per cent forest species, 40 per cent canopy density and 5 (five) hectare of area, as the objective is to ensure restoration (and not

diversion) of such forest area to their original status. Hence, contending if such identification is done on the basis of this criteria, it would sub-serve the interest of conservation and protection of environment and in a given case the Central/State Government can grant 'prior permission' within the provisions of FCA 1980 if it considers that such diversion is necessary in public interest and it would be in consonance with the principle of sustainable development. In this background the objection of the State of Goa to the criteria of the FSI to identify the open forest that is 0.1 canopy density and the area above 1 (one) hectare would not stand to reason. Elaborating the submissions, he would contend that the ISFR has identified 552 square kilometres on the basis of criteria fixed by it and if the said criteria is not adopted it would reduce the open forest area in the State of Goa to an extent of 552 square kilometre. Hence, he prays for the petition being allowed.

35. As mentioned in the submissions of the Appellant in the preceding paragraphs, to summarise, the Appellant herein prays for revisiting the criteria for identification of private forest/deemed forest on private lands in the State of Goa, by using the parameters used by FSI, that is based on 0.1 density forest in an area of 1 (one) ha.

37

CONTENTIONS ON BEHALF OF RESPONDENT NO.(S) 1,4,5,6,7 & 8 ALONG WITH CONTENTIONS OF THE IMPLEADING PARTY I.E., CREDAI.

36. The respondents have sought the modification and vacation of the above-mentioned order in the IA No.40261 of 2017 filed by them, and further have made submissions and raised various grounds for the dismissal of the present Civil Appeal Nos.12234-12235 of 2018. The respondents have urged that the Stay Order dated 04.02.2015 of this Court, has continued to operate for over eight years, which is impacting several developmental works in the State of Goa. In addition to this, by way of their Counter Affidavit, and numerous submissions made during the hearing of the present appeals, the Senior Counsel has raised several grounds for the dismissal of the present appeals and for vacation of the Order dated 04.02.2015.

37. Respondent No(s). 1,4,5,6,7 and 8, along with the impleading party i.e., CREDAI, have sought the vacation of the *ex parte* interim order dated 04.02.2015 passed by this Court in the present appeal, and they have also opposed the grant of relief sought by the Appellant in its appeal. In furtherance of this, the learned Senior Counsel for Respondent No.(s) 1,4,5,6,7 and 8 along with the learned Senior

Counsel for the impleading party, i.e., CREDAI have raised various grounds and made elaborate submissions for the dismissal of the present appeals, which have been recorded by us in the subsequent paragraphs.

38. The respondent(s) contended that the criteria for identification of forest has attained finality and cannot be challenged on the principles of *res judicata*. It was submitted that the criteria for identification of forest on private land was determined in 1991 pursuant to the Judgement of the Bombay High Court dated 27.11.1990 in ***Shivanand Salgaonkar case*** *(supra)*.

39. It was further submitted that the criteria for identification of forests, which forms the basis of the reports filed by the *Sawant, Karapurkar* and *Sharma* Reports, were first proposed by the Forest Department of the State of Goa, in 1991. The Forest Department had proposed a crown density of 40% and a minimum area of 5 (five) Ha since it was not viable in the long run for the forest department to conserve small patches of forest land, as is evident from the letter dated 04.10.1991, and from the Affidavit filed by the State of Goa before this Court on 21.08.2012.

39

40. The counsel for the respondents contended that the aforesaid criteria formulated in 1991 was adopted by the State of Goa (*Sawant* and *Karapurkar* Committees) pursuant to the order dated 12.12.1996 passed by this Court in ***T.N. Godavarman*** *(supra),* however, despite being aware of the same, the Appellant did not challenge it. The respondents further contend that the State of Goa, on 08.12.1997 issued a public notice, which delineated the following criteria for the purpose of classifying "Forest":

i. 75% of the tress composition should be forestry species.

ii. The area should be contiguous to the Govt. Forest and if in isolation, the minimum area should be 5 ha.

iii. Canopy density should not be less than 0.4.

41. The learned counsel for the respondents contended that the public notice dated 08.12.1997, has also not been challenged by the present appellants Further, the Appellant had an opportunity to challenge the same before this Court in ***Goa Foundation Case (supra)***[19], wherein it had raised grievances about the *Karapurkar* Committee report, however, it did not do so, and the said proceedings

[19] Writ Petition No. 181 of 2001.

were thereafter disposed of as being infructuous on account of the filing of the *Karapurkar* report, by an order dated 10.02.2006.

42. Further, the counsel for the respondents have contended that Civil Appeal is *ex facie* barred by *res judicata* inasmuch as the very party that has preferred the same had sought to revisit the criteria twice before and failed. The respondents have pointed out to us that the Appellant preferred a Writ Petition before the High Court of Bombay at Goa disputing the criteria so adopted, and its application to a housing project. In an appeal preferred against the same, this Court in ***Tata Housing Development Corporation v. Goa Foundation (2003) 11 SCC 714*** strongly disapproved any departure from such criteria and adoption of a new criteria.

43. The learned counsel has submitted that this Court in ***Tata Housing (supra)***, after examining the reports of the *Sawant* Committee, recorded the genesis of the criteria, and also took note of its facets. Further, the learned counsel has laid emphasis on paragraph 13 of the judgement in ***Tata Housing (supra)***, wherein this Court disapproved the approach of the High Court in accepting a new criterion, in what it termed as giving a "complete go-by" to the existing criteria.

41

Accordingly, the counsel for the respondents contends that in sum and substance the pre-existing criteria received the imprimatur of this Court in ***Tata Housing (supra)***, hence, the principle of *Res Judicata* would apply and the present challenge to the criteria for identification of Forest deserves to be dismissed on this ground alone. The relevant paragraph 13 has been extracted below:

> *"13. From a bare perusal of the Third Interim Report, it would appear that the three criteria laid down in the Second Interim Report of the Sawant Committee have been given a complete go-by and in relation to the appellants' plot altogether different criteria have been adopted. The course adopted by the Committee in taking into consideration different criteria while examining an individual case of the appellants' plot was wholly unwarranted, especially when the Committee in its Report has not assigned any reason for making the deviation."*

44. The learned counsel for the respondent further contended that another judgment i.e., ***Nisarga v. Asst. Conservator of Forests*** *OA No.19 (THC) of 2013*, was concealed by the Appellant. The learned counsel submitted that the Appellant herein, approached the NGT arguing that the minimum canopy density to be adopted as a criterion ought to be 0.1 (i.e. 10%). It was submitted that the basis of this argument was identical to that advanced in this appeal, inasmuch as the Indian State of Forests Report, 2009 (ISFR) was relied upon to suggest that the said report had classified lands with canopy density between

10% to 40% as open forests. In other words, it was urged by the Appellant that even such lands were forest nonetheless. The NGT rejected this argument based on the judgment of this Court in ***Tata Housing (supra)***. The learned Counsel emphasized on the point that, the Appellant herein chose not to appeal the said judgment before this Court, and has allowed the same to attain finality. The counsel for the respondents submitted that Appellant cannot now be allowed to reagitate the very same issue on the very same basis before this Court.

45. The counsel for the respondent accordingly submitted that, criteria adopted by the State of Goa ought not to be interfered with; and the order dated 04.02.2015 passed by this Court directing a restraint on the grant of conversion *sanads* in the State of Goa ought to be vacated since the criterion for the identification of forest in the State of Goa has become final and binding, its variation having been rejected in ***Tata Housing (Supra)*** and ***Nisarg (Supra)*** by this Court and the NGT respectively.

46. The counsel for the respondent has submitted that the sheet anchor of the instant appeal is the formula adopted by this Court for the computation of NPV in ***T.N. Godavarman Thirumalpad v. Union of***

43

India[20], and in turn the reliance by this Court on the report of Ms. *Kanchan Chopra*, which in turn relies on the Indian State of Forests Report, 2008 (ISFR) issued by the FSI. It is submitted that ISFR has classified canopy density into 3 kinds, namely, very dense, moderately dense, and open. Furthermore, this Court while fixing the NPV rates has fixed them per Hectare, basis which the Appellant contends that even 1 (one) Ha of land can be a forest. It is submitted that the Appellant sought to change the criteria for a private forest in Goa to a minimum area of 1 (one) Ha, and also a minimum canopy density of 0.1 which was the least denominator employed by the ISFR in classifying an open forest for the purposes of fixing NPV rates. The counsel for the respondents urged and emphasized that this argument of the Appellant is misconceived as it fails to take into account that the private forest criteria not only in Goa but throughout the country is distinct from that for government lands. Importantly, government land of even 1 (one) Ha can be a forest, and accordingly can attract the imposition of NPV. Moreover, this Court in ***T.N. Godavarman Thirumalpad (87) v. Union of India***[21] observed that the criteria for NPV must be worked out on economic principles and hence it is submitted that this can have no

[20] (2008) 7 SCC 126.
[21] (2006) 1 SCC 1.

nexus with identification. Furthermore, the NPV imposition also encompasses government forests which could even be of 1 (one) Hectare. Hence, it is understandable that the NPV criteria is per Hectare i.e., it conceives of NPV being imposed even for government forests of 1 (one) Ha.

47. The counsel for the respondent further contends that this Court has never directed the adoption of NPV norms as those for identification of private forests. To suggest that the NPV norms be today adopted as the criteria for private forests would be nullifying the exercise conducted by the State of Goa in terms of the express order of this Court dated 12.12.96. Above all, the order of this Court, in directing each State to constitute its own Expert Committee expressly accepted that there can be no uniform criteria for such identification across the country. Lastly, in this regard, the counsel for the respondents contended that no State in the country has adopted the NPV norms for classification of land as private forests, and if the Appellant's plea is accepted it would create dual legal regimes, namely, one in Goa and one in rest of the country.

45

48. The respondents further contends that if the criteria are implemented, this would also roughly mean that if there are 10 to 20 planted trees in an area of 10,000 sq. metres, it will be a 'deemed forest' and prior approval from the Central Government under the FC Act would be required. The respondent also drew our attention to the case of Re: Constitution of *Park-Anand Arya v. Noida*[22] wherein the 3-Judge bench of this Court had stated that if such criteria is agreed, then most of Delhi would be forest.

49. The learned counsel on behalf of the respondent(s) submits that there are enough safeguards in the State of Goa for protection of trees. The Goa Daman and Diu Preservation of Trees Act, 1984 is strictly enforced in this regard. The respondent further submits that the Ministry of Environment, Forest & Climate Change Guidelines as well as the Scheduled Tribe and Other Traditional Forest Dwellers (Recognition of Forest Rights) Act, 2006 have been clear and unambiguous where it has exempted the application of FCA 1980 on areas which are less than 1 (one) ha and where not more than 75 trees have to be cut vide letter

[22] (2011) 1 SCC 744 Para 30.

dated 03.01.2005 of Ministry of Environment and Forest and also Section 3(2) of the Forest Rights Act, 2006.

50. The learned counsel for the respondent(s) submits that the parameters used by FSI is to map the forest cover and the tree cover in India. This is distinguished from the Forest area and forest land which has been dealt with by this court in the *Godavarman case (supra)* in detail since 12.12.1996. The counsel drew our attention to the definition of 'Forest Cover' given by the FSI based on the "Minimum Mappable Area" available with FSI from Satellite Data. At present, the Minimum Mappable Area available to FSI for forest cover assessment is 1 (one) hectare since 2001 based on the resolution of satellite data. Prior to 2001, the Minimum Mappable Area for forest cover was 25 hectares from India State of Forest Report 1989 to India State of Forest Report 1999 and the same was 400 ha in 1987. The India State of Forest Report, 2017 which clearly shows that the FSI is describing the term 'forest cover' in all its India State of Forest Reports based on the "Minimum Mappable Area" available to them through Satellite Data only based on the technological status and not on any other parameters. Thus, description of the forest cover by FSI was based on the availability of high resolution of Satellite data which has advanced/improved over

47

period of time. Thus, in future, due to technical advancement, FSI might be able to map minimum forest area even less than 1 (one) hectare. However, the States cannot keep on changing the criteria for identification of deemed forests based on such parameters which have been set for an entirely different purpose. Therefore, respondent(s) submit that there is no-co-relation between the parameters set by FSI for identifying deemed forest based on Minimum mappable area and identification of the said area by respective states under the FCA 1980, in view of the Judgment dated 12.12.1996 in ***TN Godavarman case (supra)***, of this Court.

51. Further, the learned counsel for the respondents submits that if the 0.1 density argument is acceded by this Court, then every 10,000 sq. metres plot which has 10 to 20 trees would have to be determined as a forest and a cumbersome prior clearance would be required on every private land. They also submit that the State of Goa is placed uniquely in the Geographical ecosystem whereas per FSI, the total area under forest cover is about 60.2% under Forest Cover and another 8% as tree cover. This is almost three times the national average and twice the national goal. Thus, in addition to the 68% forest and tress cover, there are areas under the Coastal Regulation Zone Notification; areas under

Ecologically Sensitive Area; areas under riverine and other wetlands; areas of no development where gradient is 25%. In other words, no, or very minimal area would be available for any future development. Hence, they submit the approach of the appellant would amount to punishing those people who have diligently planted trees on the private land for increasing the green cover of Goa.

52. The counsel for the respondent(s) also drew our attention to Part II of the ***Lafarge Judgement*** *(supra)* relating to Guidelines to be followed in future cases dealing with disputes regarding what constitutes a forest, wherein it is stated that if the project proponent makes a claim regarding the status of the land being non-forest and if there is any doubt then the site shall be inspected by the State Forest Department along with the regional office of Ministry of Environment & Forest to ascertain the status of forest, based on which the certificate in this regard would be issued. In all such cases, it would be desirable for the representative of the State Forest Department to assist the Expert Appraisal Committee. In view of the above, if there is any doubt on the criteria for identification of forests, it is the State Forest Department and the Regional Office of Ministry of Environment, Forest & Climate Change, which would be the deciding authority.

49

53. The counsel on behalf of the respondent(s) lastly submits that the criteria for identifying the forests and the process therein by different States is under an Order of this Court dated 12.12.1996 in the *TN Godavarman case (supra)*. This Court mandated that the State Government to evolve the criteria as per their local situation and considering the fact that Forest, being a concurrent subject, needs to be determined as such by the State Government for applicability of the FCA 1980.

54. In the light of the above submissions, learned counsel for the respondent(s) pray for dismissal of the appeals.

DISCUSSION AND ANALYSIS:

55. Having heard learned advocates appearing for the parties, we are of the considered view that the following points would arise for our consideration:

1. Whether the impugned order of the tribunal requires to be affirmed or reversed?

2. Whether any further directions requires to be issued in the facts and circumstances? And if so, what directions or orders?

3. What order?

RE: POINT NO.1

56. At the outset, it requires to be noticed that the High Court of Judicature at Bombay in Writ Petition No.162 of 1987, disposed of on 27.11.1990, had taken note of the guidelines issued for division of forest area for non-forest purposes under the FCA 1980 and pursuant to the same the State of Goa proposed certain criteria for identifying forest and the consequent application of the FCA 1980 to private forest. The then existing criteria are as follows: -

i. 75% of the tree composition should be forestry species.

ii. The area should be contiguous to the government forest and if in isolation the minimum area should be 5 (five) hectares;

iii. The canopy density on the plot should not be less than 0.4.

51

Subsequently, this Court in *T.N. Godavarman Case (supra)*[23] vide order dated 12.12.1996 directed the State Governments to constitute within 1 (one) month an Expert Committee to: -

i. Identify the areas which are "forest", irrespective of whether they are so notified, recognized or classified under any law and irrespective of ownership of the land of such forest;

ii. Identify areas which were earlier forests but stand degraded, denuded or cleared and;

iii. Identify areas covered by plantation trees belonging to private persons.

57. Pursuant to the same the Government of Goa constituted *Sawant* Committee with terms of reference as indicated in Para 5 of ***TN Godavarman case*** *(supra)* by order dated 12.12.1996, the said Committee adopted the criteria (referred to herein above as then existing) which was also based upon the ***Shivanand Salgaocar's case*** *(supra)*. The criteria so determined was published in public notice dated

[23] (1997) 2 SCC 267

08.02.1997 and this was not challenged by anyone including the appellant herein.

58. It would be apt and appropriate to note at this juncture that in the matter of ***Tata Housing*** *(supra)* this Court had an occasion to consider the said criteria and to examine as to whether the report of the *Sawant* Committee is to be accepted or otherwise and the question so formulated in that regard reads as under: -

> *"11. Thus, the question which falls for consideration of this Court is whether the High Court was justified in accepting the Third Interim Report of the Sawant Committee and allowing the writ application on the basis thereof. For deciding this question, it would be necessary to refer to the Second Interim Report of the Sawant Committee in which it has laid down three criteria for classifying any land as "forest". Relevant portions of the said Report run thus:*
> *"After the formation of the Committee, it was first decided to get the forest cover through NRSA, Hyderabad but seeing the time involved and nature of interpretation, it was decided to carry out the exercise through physical verification by the departmental staff only. Nature of interpretation means the satellite data gives the natural green cover which includes most of the plantation/seasonal crops such as cashew, coconut, areca nut etc. For the purpose of classifying 'forest' such growth cannot be considered. The Committee has taken the stand that for considering any area as forest:*
> *(i) 75% of its composition should be forestry species.*
> *(ii) The area should be contiguous to government forest and if in isolation the minimum area should be 5 hectares.*
> *(iii) The canopy density should not be less than 0.4.*
> *The above criteria which was in existence with the Forest Department, Government of Goa has been approved by the Government of Goa.*
>
> ***
>
> *Based on the satellite imageries, toposheets, the areas outside the government forests have been marked on the map and the forest officials have done the physical verification of such areas applying the above criteria.*
>
> ***

53

The Committee has procured the maps of 1978 from the Town and Country Planning Department which have been prepared based on the aerial photographs of 1960 and toposheets of 1960. In these maps natural green cover has been shown but again it does not either speak about the density or the species composition.... This natural green cover (pvt.) outside the government forests being very high compared to the figure likely to be arrived at by the Committee finally under the classification of private forests, it is obvious as this private green cover includes all types of vegetation and of all density class including cashew crop which may not be fitted into the criteria taken for identification of private forests."

59. After having examined the records of the Sawant Committee, this Court in ***Tata Housing*** *(supra)* observed that the three criteria prescribed in the 2nd Report was just and proper and in conclusion it has been held: -

"12. From a bare perusal of the aforesaid passages from the Second Interim Report of the Sawant Committee it would appear that the Committee had categorically laid down three criteria for identifying a land to be forest and it had rejected the Satellite Imagery and Toposheets of 1960 and Nature Green Cover Maps as the relevant criteria for classifying any land to be forest. In the Third Interim Report of the Sawant Committee in which it was reported that the appellants' plot was a forest, curiously enough, the three criteria referred to above, which were earlier followed by the Committee for holding a land to be a forest land, were abandoned. Instead, the Third Interim Report laid down principally the following criteria:
(i) Satellite Imagery and Toposheets of 1960.
(ii) Report of the Sub-Committee for maintaining Nature Reserve Green Belt around cities, particularly with reference to the map prepared for nature reserve on hill slopes.
(iii) Enumeration of the plants in a 50-metre-wide belt adjoining the boundaries of the appellants' plot on three sides i.e. the north, east and west, but excluding the south side which had a huge public structure admeasuring 1000 sq metres."

18. This being the position, we are of the view that the Third Interim Report of the Sawant Committee, having been based upon

the criteria which were rejected by it in its previous report, cannot be accepted as there was no ground for making a departure therefrom while submitting the Report in relation to the appellants' plot. The Committee was not justified in holding the appellants' plot to be a forest land on the basis of an altogether different criteria for which there is no reasonable nexus, especially when none of the three criteria laid down in the Second Interim Report has been adhered to. Thus the High Court was not justified in accepting the Third Interim Report of the Sawant Committee and concluding on the basis thereof that the appellants' plot was a forest."

60. These aspects were well within the knowledge of the petitioner/appellant herein inasmuch as they were parties to the proceedings in ***Tata Housing*** *(supra)*. Therefore, they cannot feign ignorance about the reports of the Expert Committees. Also, the appellant, asserting a public cause, cannot be considered unaware of the criteria proposed by the Committee. These criteria as recommended by the Committee were published in the public notice dated 08.02.1997 and have been a subject of agitation by the appellant/petitioner across various forums. Hence, the appellant/petitioner having not raised its little finger to the criteria as prescribed and published in the public notice dated 08.02.1997 is estopped from raising the said issue at this stage. On this short ground itself the appeal has to fail and appellant has to be non-suited. However, in the teeth of contentions having raised with the merits of the case, we do not propose to nip this litigation at the bud but propose to examine the claim on its merits so as to avoid

55

any repetitive litigation in future and ensuring finality in such matters with the object of putting an end to the litigation that has arisen in this regard.

61. The appellants have also made valiant attempts to buttress their arguments with regard to the criteria to be adopted for determination of an area to be declared as forest by relying upon the pronouncement of this Court in ***T.N. Godavarman Thirumulpad Vs. Union of India***[24] by its order dated 26.09.2005 whereunder the concept of NPV was verified to determine economic loss caused on account of deforestation. Hence, we deem it proper to extract the relevant paragraph of the said order and it reads as under: -

> *"49. Regarding the parameters for valuation of loss of forest, we may only note as to what is stated by the Ministry of Environment and Forests, Government in its handbook laying down guidelines and clarifications up to June 2004 while considering the grant of approval under Section 2 of the FC Act. Dealing with environmental losses (soil erosion, effect on hydrological cycle, wildlife habitat, microclimate upsetting of ecological balance), the guidelines provide that though technical judgment would be primarily applied in determining the losses, as a thumb rule, the environmental value of one hectare of fully stocked forest (density 1.0) would be taken as Rs 126.74 lakhs to accrue over a period of 50 years. The value will reduce with density, for example, if density is 0.4, the value will work out at Rs 50.696 lakhs. So, if a project which requires deforestation of 1 hectare of forest of density 0.4 gives monetary returns worth over Rs 50.696 lakhs over a period of 50 years, may be considered to give a positive cost-benefit ratio. The figure of assumed environmental value will change if there is an increase in the bank rate; the change will be*

[24] (2006) 1 SCC Page 1.

proportional to percentage increase in the bank rate. Ms Kanchan Chopra, while conducting a case study of Keoladeo National Park in respect of economic valuation of biodiversity at the Institute of Economic Growth, Delhi as a part of the Capacity 21 Project sponsored by UNDP and MoEF, Government of India examined the question as to what kind of values are to be taken into consideration. As per the study, different components of biodiversity system possess different kinds of value : (1) a commodity value (as for instance the value of grass in a park), (2) an amenity value (the recreation value of the park), and/or (3) a moral value (the right of the flora and fauna of the park to exist). It is recognised that it is difficult to value an ecosystem, since it possesses a large number of characteristics, more than just market-oriented ones. It also leads to the need to carry out a biodiversity valuation both in terms of its market linkages and the existence value outside the market as considered relevant by a set of pre-identified stakeholders. It is, however, evident that while working out the biodiversity valuation, it is not trees and the leaves but is much more. Various techniques for valuing biodiversity that have been developed to assess the value of living resources and habitats rich in such resources have been considered by the author for her case study while considering the aspect of value, their nature and stakeholders' interest. Insofar as the value of ecology function in which the stakeholders or scientists, tourists, village residents, non-users, the nature of value is — regulation of water, nutrient cycle, flood control. These instances have been noted to highlight the importance of the biodiversity valuation to protect the environments. The conclusions and the policy recommendations of the author are:

"Biodiversity valuation has important implications for decision-making with respect to alternative uses of land, water and biological resources. Since all value does not get reflected in markets, its valuation also raises methodological problems regarding the kinds of value that are being captured by the particular technique being used. Simultaneously, in the context of a developing country, it is important to evolve methods of management that enable self-financing mechanisms of conservation. This implies that biodiversity value for which a market exists must be taken note of, while simultaneously making sure that the natural capital inherent in biodiversity-rich areas is preserved and values which are crucial for some stakeholders but cannot be expressed in the market are reflected in societal decision-making.

A focus on both the above aspects is necessary. It is important to take note of the nature of market demand for aspects of biodiversity that stakeholders, such as tourists, express a revealed preference for by way of paying a price for it. Simultaneously, it is important to examine the extent to which a convergence or divergence exists between value perceptions of this and other categories of stakeholders. It is in this spirit that two alternative

57

methodologies are used here to arrive at an economic valuation of biodiversity in Keoladeo National Park. The travel-cost methodology captures the market-linked values of tourism and recreation. It throws up the following policy implications:
1. Keeping in mind the location of the park and the consequent joint product nature of its services, cost incurred locally is a better index of the price paid by tourists. It is found that demand for tourism services is fairly insensitive to price. A redistribution of the benefits and costs of the park through an increase in entry fee would not affect the demand for its services.
2. Cross-substitution between different categories of stakeholders can improve the financial management of the wetland. A part of the proceeds can go to the local management. Also, high-income tourists, scientists and even non-users with a stake in preservation can pay for or compensate low-income stakeholders for possible loss in welfare due to limits on extraction and use.
3. However, the limit to such a policy is determined by the number of visitors and their possible impact on the health of the wetland. Such a constraint did not appear to be operational in the context of the present park.
Identification and ranking of values of different aspects of biodiversity resources as perceived and expressed by different categories of stakeholders namely scientists, tourists, local villagers and non-users is an important object in the process of valuation. In the KNP study, a fair degree of congruence in respect of ecological function value and livelihood value is discovered to exist in the perceptions of diverse groups. Stakeholders as diverse as scientists, tourists, local villagers and non-users give high rankings to these uses."

It has been so held hereunder that a Committee is to be constituted to formulate base on which NPV could be calculated. It has been further held that the NPV has to be worked out on economic principles.

62. Pursuant to the afore-stated directions by this Court, the Committee so constituted had examined the recommendations of the Central Empowered Committee which was accepted and the NPV rate was fixed for a period of three years. The said Committee classified

forest into three types, namely, (i) very dense; (ii) moderately dense and; (iii) open, which was based on the maps prepared by NRSC, Hyderabad. It would be pertinent to note that the appellant is attempting to import the figure of 1 (one) hectare in place of 5 (five) hectares (as indicated in the prescribed criteria by State of Goa) solely on the ground that the NPV cost therein was determined by this Court on per hectare basis. It is relevant to observe that the analogies employed to calculate the forest coverage area, which the appellant is attempting to introduce, may be incongruent and unrelated to the identification or demarcation of forest area. This process necessitates the application of a distinct yardstick. The process of identification has been gone into by the experts as reflected from the *Sawant* Committee report and accepted by this Court in ***Tata Housing*** *(supra)*. Hence, it would not be apt and appropriate for us to sit in the arm chair of the experts and to substitute our opinion or that of the appellants in contrary distinction to the opinion expressed by the experts and as such we refrain from doing so. As a consequence of the same the contention raised by the appellants cannot be accepted and it deserves to be rejected and accordingly, it stands rejected.

59

63. In fact, the process of physical demarcation of such forests in the State of Goa seems to have attained finality by virtue of the reports. The Final Report prepared by *Deep Shikha* Committee as also known as Private Forest Review Report identified 46.11 sq. km. of area as private forest which has been accepted by the Tribunal in OA No.479 of 2018 vide Order dated 18.08.2020 and the appeal filed by the State of Goa against the said order in Civil Appeal No.01 of 2021 which has been dismissed by this Court by order dated 01.02.2021. In other words, the issue relating to identification and demarcation of private forests in the State of Goa has attained finality on three criteria as indicated herein *supra* pertaining to forest tree composition, contiguous forest land and minimum area should be 5 (five) hectares and canopy density should not be less than 0.4. In the teeth of the afore-stated facts and the orders passed by the Tribunals as affirmed by this Court, the State of Goa has issued a gazette notification on 22.09.2022 notifying 46.11 sq. km. as private forest.

64. It is also curious to note that on the one hand the appellant has been challenging the criteria adopted by *Sawant* and the *Karapurkar* Committees for identification of private forest land in the State of Goa

before this Court and simultaneously has relied upon the said criteria adopted by these Committees before the Tribunal in this regard. The order of the tribunal dated 21.01.2015 rendered in OA No.22 of 2013 (Western Bench) title as *'Goa Foundation Vs. Union of India and Others'* can be looked up.

65. At the cost of the repetition, it requires to be noticed that appellant is seeking a change in the criteria being followed by State of Goa for identification and demarcation of forest under private ownership or private forest by contending that State should follow the same criteria for identification of forest land as is being used by FSI, Dehradun for describing "forest cover" i.e., all lands more than one hectare area with 10% irrespective of land use, ownership and legal status. This exercise is being carried out by FSI, primarily for assessment of forest and tree cover and monitoring the period change based on satellite remote sensing to:

i. Prepare State of Forest report on State-wise Forest cover biennially, providing assessment of latest forest cover in the country and monitoring changes therein;

61

ii. Conduct inventory in forest and non-forest areas and develop database on forest tree resources and prepare thematic maps;

iii. Support State/UT Forest Departments in forest resources survey, mapping and inventory.

In fact, para 1.3 of the report published by FSI in 2017, the distinction in the term 'Forest Cover' and 'Forest Area' has been stated as under:

> *"The term "Forest Cover" as used in Indian State of Forest Report refers to all lands more than one hectare in area with a tree canopy of more than 10%, irrespective of land use, ownership and legal status. It may include even orchards, bamboo, palm etc and is assessed through remote sensing. On the other hand, the term 'Recorded Forest Area' or 'Forest Area" refers to all the geographical areas recorded as 'Forests' in government records. Recorded forest area mainly consists of Reserved Forests (RF) and Protected Forests (PF), which have been notified under the provisions of Indian Forest Act, 1927 or its counterpart State Acts. Beside RFs and PFs, the recorded forest area may also include all such areas, which have been recorded as forests in the revenue records or have been constituted so under any state Act or local laws.*
>
> *Recorded Forest area may have blank areas with tree density less than 10 % such as degraded lands, wetlands, rivers, riverbeds, creeks in mangroves, snow covered areas, glaciers and other snow covered .areas, alpine pastures, cold deserts, grasslands etc. As per the definition of forest cover, such areas are excluded from the assessment of the forest cover. On the other hand, there are areas outside the recorded forests with tree patches of one hectare and more with canopy density above 10%. For example plantations on the private community lands, road, rail and canal sides, rubber, tea and coffee plantations etc. Such areas also constitute forest cover and are li included in the forest cover assessment. "*

66. Upon examining the FSI Report, a clear distinction emerges between 'Forest Cover' and 'Recorded Forest Area.' 'Forest Cover' encompasses all lands exceeding 1 (one) hectare in size with a tree canopy exceeding 10%, regardless of land use, ownership, and legal status. This category may encompass various features like orchards, bamboo groves, palm plantations, etc., and is evaluated through remote sensing techniques. Conversely, the term 'Recorded Forest Area' or 'Forest Area' refers to all geographic areas officially designated as 'Forests' in government records. Recorded forest areas primarily include Reserved Forests (RF) and Protected Forests (PF), which are notified under the provisions of the Indian Forest Act, 1927, or equivalent State Acts. In addition to RFs and PFs, the recorded forest area may also cover regions recorded as forests in revenue records or established as such under any State Act or local laws.

67. The State of Goa is one of the smallest States in the country having geographical area of 3,702 sq. km. As per the India State of Forest Report, 2017 published by FSI, the forest cover of Goa is 2,229 sq. km. which is 60.21% of the total geographical area of the State. It is three times higher than the National Forest Cover which is 21.54%.

63

If the tree cover of the State is included which is 323 sq. km. the total forest and tree cover of Goa works out to be 2,552 sq. km. which is 68.94% of the geographical area of the State. As rightly pointed out by Mr. Kohli, learned Senior Counsel appearing for the State of Goa the change of existing criteria in determining the deemed forest would have a negative impact on the conservation measures being undertaken hitherto and the reasons enumerated in paragraph 15 could support the said contentions. It reads as thus: -

> *(i) All open forest area (10% to 40 % canopy density} under private ownership shall be identified as deemed forest in the state of Goa, whereas most of this open forest area is habitation area having trees planted traditionally by the people around. their houses for meeting their daily needs of food, fruits, firewood, small timber, agriculture implement etc.*
>
> *(ii) If a person wants to plant 10 trees preferred by him like Mango, Tamarind, teak, jackfruit, chickoo, kathal, etc in his own land of one hectare for the above mentioned needs it will cross the threshold of 0.1 canopy density and be declared as private forests.*
>
> *(iii) It will be a huge disincentive for the small land owners, whose lands will fall under private forest and they will be compelled to seek approval under FCA, 1980 from the Central Government for every parcel of land which may discourage the people of Goa to plant, protect and conserve trees on their lands. Such land owners would lose their right to use their own land for their bona fide needs in view of stringent conditions as laid down in various provisions of the FCA, 1980.*
>
> *(iv) This criteria being independent of ownership, will also attract almost all of the government, private office and residential complexes, educational and other institutions since one hectare criteria with 0.1 canopy density will be applicable to the entire state of Goa.*
>
> *(v) The people, who have cleared the forest / trees on their land before 1996, would appear to be in advantageous position in the eyes of private forest owners.*

(vi) It may give a wrong message to private land holders to not only destroy existing forests/ tree vegetation but there would be no incentive for planting trees or helping in their conservation in view of the restrictions being placed on the usage of their own land.

(vii) As per order dated 12.12.1996 passed by this Hon'ble Court in T. N. Godavarman Vs Union of India, W.P No.202/1995, Govt. of Goa initiated the process of identification of private forests in true spirit following the existing criteria. It is being confirmed using satellite imageries and ground verification by a Review Committee at present. These criteria as mentioned in above para number 4 were formulated by State of Goa way back in 1991 based on the High Court of Bombay order in Writ petition No.162/1987, Shivanand Salgaonkar Vs. Tree officer & others. And it has taken almost two decades to identify and demarcate this private forest area on the ground, which is still not complete and is being done presently by the Review Committee. Reducing the criteria to 0.1 Canopy Density and 1 Hectare will again restart the process to bring large number of private lands with few trees under private forests thereby adversely impacting even the small land owners who have protected trees in good spirit.

(viii) It will be a huge burden on small land owners (i) to find alternative land for Compensatory Afforestation and (ii) to pay Net Present Value (NPV) for his own small bonafide needs such as extension/ construction of even one room use of even small part of his land, and for planting of trees by removal of existing trees on his own land under CA.

(ix) It will put serious pressure on available land for development of the State and bonafide aspirations of its people including conservation imperatives.

(x) In the State of Goa, geographically available land of 3702 Sq. Km has been divided into Eco Zone 1, Eco Zone 2 and Developable Zones, under the Regional Plan Goa 2021 under the Town and Country Planning Act, 1974. In so far as Eco Zone- 1 IS concerned, it comprises Forest (Protected/Reserved/National Park/Wildlife Sanctuaries), Mangrove Forest, identified Private Forests till 2008, Water Bodies/nallas/ponds and paddy fields/khazan lands. Eco Zone 1 constitutes 50.94 % of the geographical area of the State and is completely a 'No Development Zone'. In so far as Eco Zone- 2 is concerned, it comprises orchards, natural cover, cultivable land, salt pans and fish farms/mud flats. Eco Zone-2 constitutes 31.42% of the geographical area of the State where development is restricted to the land use which is completely regulated. Together Eco Zone 1 & 2 constitutes 82.37% of the geographical area of the State leaving behind 17.63% of land as Developable Zones in which also development is regulated and restricted. A copy of the forest cover map of state of Goa as per India State of Forest Report,

2017, FSI Dehradun is annexed hereto and marked as Annexure – B.

68. It is necessary to mention at this juncture, the application of criteria cannot be universally standardized across the country, as it is contingent upon the specific geography and geographical conditions prevalent in each State. Each State possesses its distinctive geographical features, and as a result, the criteria may vary from one State to another. In this regard, it would be apt to consider the criteria/parameters formulated by various States to identify the private forest as indicated in the affidavit filed on behalf of the respondent No. 1, 4 to 8 dated 07.05.2019 are as under:

State	Description of the Criteria/parameters
Andhra Pradesh and Telangana	All private lands bearing natural tree growth **more than 0.40 density** and having an extent of **10 hectares**, shall be treated as forest subject to the conditions that it should not adversely affect customary rights of 'Tribal Land owners'.
Arunachal Pradesh	Areas recorded as forest in the government records were only treated as forests for the purpose of the FC Act. Expert committee did not formulate any parameter to classify an area as 'forest' by dictionary meaning.
Assam	Minimum forest area of **Ten hectare** and more under private ownership were treated as 'forest' by dictionary meaning.
Chhattisgarh and Madhya Pradesh	A patch of land irrespective of their ownership will be deemed as 'forest' if (a) Its area is not less than **10 hectares.**

	(b) It is covered with naturally growing timber, fuel wood and yielding trees. (c) Average number of trees standing on it is **200 or more tree per hectare.**
Goa	A patch of land irrespective of their ownership will be deemed as forest if a. 75% of the crop composition of such lands should be of from forest species and b. Area should be either be contiguous to Government Forest land or in isolation the minimum area so identified should be **5 hectares**. In case of mangroves, area less than 5 hectares is also considered a forest whether or not in contiguity to Government Forest land. c. Minimum **0.40** canopy density.
Himachal Pradesh	Compact blocks of wooded land above **5 ha** in extent.
Karnataka	a. Government land parcels with area of **2 hectares** and above, minimum density 50 naturally grown trees per hectares of girth at breast height 30 cm and above b. Block plantations on Government lands with area of 2 hectares and above having minimum density of 100 planted trees per hectares of 30 cm and above girth at breast height and c. Private lands with area of **5 hectares** & above, minimum density of 50 naturally grown trees per hectares of 30 centimetres and above girth at breast height.
Maharashtra	Following parameters were followed a. An area which falls under the definition of word 'forest' and b. All the mangroves shall be treated as 'forest'
Meghalaya	An area would be 'forest' if it is a compact or continuous tract of minimum **4 hectares** land, irrespective of ownership, and where-

67

	a. More than **250** naturally growing trees per hectare of 15 cm and highest diameter at breast height (DBH) over bark are present or b. More than 100 naturally growing bamboos clumps per hectare are present in case of the tracts containing predominantly sympodial bamboo.
Odisha	Those areas which are **5 hectares** or more in extent in one continuous patch of private land covered with plantations and/or natural growth.
Rajasthan	Area not less than **5 hectares** and having not less than **200 plants** per hectare were treated as 'forest' by dictionary meaning.
Sikkim	Contiguous patch of minimum **10 hectares** area having more than **0.40 crown density** were treated as 'Forest' by dictionary meaning.
Uttar Pradesh	Minimum **3 hectares** area with minimum **100 trees** per hectare in Vindhya & Bundelkhand region and minimum **2 hectares** area with minimum 50 trees in Terai & Plain areas were treated as 'Forest' by dictionary meaning, subject to the following conditions; a. Trees means naturally grown perennial trees b. Shrubs will not be counted among trees c. Minimum area of land will be based on gata-wise d. In case of private land, in case a gata is registered in name of several persons in the form of minjumula, then area of each minjumula will be considered for area limit. e. Plantations raised on government and private land will not be considered as forest.
West Bengal	Compact patches of minimum **1 hectare** area having minimum crown density of **0.40** were treated as 'forest' by dictionary meaning.
Dadra & Nagar Haveli	Private/Government areas with minimum **5 hectares** or more having tree vegetation with species variations and required stocking area to be treated as 'forest' by dictionary meaning.

69. In view of the above, we summarise our discussion as under:

i. *Firstly,* the existing criteria for identification of private forests in the State of Goa are adequate and valid, hence, they require no alteration. The Ministry of Environment, Forest & Climate Change guidelines, as well as the Scheduled Tribes & other Traditional Forest Dwellers (Recognition of Forest Rights) Act, 2006, are clear and unambiguous, as they have exempted the application of the Forest Conservation Act, 1980, on areas that are less than 1 hectare and where not more than 75 trees have to be cut. Reference can be made to the communication dated 03.01.2005 of MoEF. Further, it can be noticed if the criteria i.e., the canopy density of 0.4 and minimum area of 5 ha is reduced to 0.1 and 1 ha as contended, respectively, it will result in the plantations of coconut, orchards, bamboo, palm, supari, cashew, etc., grown by farmers on their private lands into the category of 'private forest'. The effect would be that even for a minor development on the concerned land, the permission of the

69

Government under the FCA 1980, for the landholders, would become indispensable. It would be of necessity to note that none of the States have adopted the criteria proposed by the appellant, namely the 0.1 density criteria, as it would result in opening a pandora's box, and it would result in all the States undertaking the task of reassessing the forest area all over again which has since been settled on the basis of existing criteria.

ii. *Secondly*, it has been noticed that appellant is attempting to take a contrary stand on the issue of criteria for the identification of forests, namely, suggesting a change in criteria for the identification of deemed forests under private ownership. On the one hand, the appellant is challenging the criteria adopted by the *Sawant* and *Karapurkar* Committees for the identification of *inter alia* private forests and on the other hand has relied on the same criteria adopted by these two committees for the identification of forests, including private forests, before the Tribunal, as has been observed by the Tribunal in its judgement rendered in O.A. No.22 of 2013 on 22/01/2015

in the matter of ***Goa Foundation v Union of India & Others*** and in O.A. No.479 of 2018 in the matter of ***Goa Foundation v State of Goa & Others***. Thus, appellant cannot be permitted to approbate and reprobate. The appellant has also failed in its endeavour to have the second interim report of the *Sawant* Committee and the criteria laid down thereunder to be revisited in ***Tata Housing*** (***supra***) and before the Tribunal in ***Nisarga*** (***supra***). In fact, appellant and another NGO had argued before the Tribunal in ***Nisarga*** (***supra***) that the criteria ought to be 10% canopy density, which did not find favour with the Tribunal in the teeth of ***Tata Housing (supra)***, and said order passed in ***Nisarga*** (O.A. No.19 of 2013) has attained finality.

iii. *Thirdly,* this Court vide its order dated 12.12.1996 had expressly delegated the task of identifying forest areas to Expert Committees to be constituted by State Governments, thereby recognising that there can be no uniform criteria for such identification across the country.

71

70. In light of the above conclusion, we are of considered view that the present appeals would not merit acceptance and accordingly same stand rejected and the impugned order dated 30.07.2014 is upheld. Consequently, the interim order dated 04.02.2015 passed in I.A. No.3845 of 2015 in WP No.202 of 1995 is vacated. I.A. No.40261 of 2017 filed by Respondent No.1 and I.A. No.116496 of 2022 filed by the impleading party (CREDAI), are allowed. We also place on record the valuable assistance rendered by Mr. K. Parameshwar as *Amicus Curiae.*

PIL WRIT PETITION NO._____ OF 2020

The Goa Foundation .....Petitioners

V/s

State of Goa &ors ..... Respondents

SYNOPSIS AND LIST OF DATES

This Petition is filed in public interest to challenge the development of an electrical substation on Sy.No.21/1 in Sangod village in contravention of the Regional Plan 2021 which has zoned the land as natural cover, No-Development Slope and paddy fields. No conversion can be granted for such land in view of the order of the Supreme Court dated 4.2.2015. The petition therefore also challenges the destruction of a patch of natural forest located on the said plot based on entirely fraudulent permissions, and for its restoration, apart from penalties.

Petitioner shows that not a single one of the actions of the various authorities allowing clear felling of the entire plot of over 10 ha appears to be bona fide if seen from the records produced in the PIL. Hence this PIL.

LIST OF DATES AND EVENTS

Sr. No	Date	Particulars of events or documents if any	Annexure and Page
1.	04.02.2015	The Supreme Court of India: "In the meanwhile, we direct that the respondents herein will not issue any 'No Objection Certificate(s)' for the conversion of any plot that has natural vegetation with tree canopy density in excess of 0.1 and an area above one hectare." *(Civil Appeal Diary No. 37942/2014)*	
2.	15.06.2017	Prior approval of the Govt. of India under section 68(1) of the Electricity Act, 2003 is granted to M/s Goa Tamnar Transmission Project Limited, an SPV for the scheme "Additional 400 kV Feed to Goa and Additional System For Power Evacuation from Generation Projects pooled at Raigarh (Tamnar) Pool."	
3.	13.07.2018	On an application made by M/s GTTPL for the grant of transmission license under Section 14 and 15(1) of the Electricity Act, 20013, the Central Electricity Regulatory Commission, New Delhi orders that transmission license be granted to M/s GTTPL to establish "Additional 400 kV Feed to Goa and Additional System For Power Evacuation from Generation Projects pooled at Raigarh (Tamnar) Pool" on build, own, operate and maintain (BOOM) basis.	
4.	31.07.2018	M/s Goa Tanmar Transmission Project Limited purchases Sy No 21/1 of Sangod Village via	

		sale deed. The plot acquired admeasures 10.35 ha and comprises of 2800 trees, amounting to a canopy density of over 80% (0.8) .	
5.	09.10.2018	M/s GTTPL submits an application in Form B under the Preservation of Trees Act, 1984 to the Tree Officer (Dy. Conservator of Forests) for the clear felling of 2670 trees on Sy No 21/1 of Sangod village. 90 percent of the trees to be felled are forestry species.	
6.	16.10.2018	M/s GTTPL's application is returned by the DCF (North) on the ground that under the PT Act, "no permission can be granted to any person from the same area on more than two occasions during the same year subject to a maximum area of a hectare at a time." M/s GTTPL is requested to restrict the felling upto 1 HA and submit afresh.	
7.	17.10.2018	M/s GTTPL writes to the DCF (North) seeking to justify a minimum area of 130,000 sq mts is required and that they could not reduce the required area which is designated as per IS norms.	
8.	14.11.2018	The North Goa Forest Division initiates a note (and file) for the approval of the Government under Section 31 of the PT Act, to exclude the	

		operation of Section 9 of the PT Act for Sy No. 21/1 of Sangod Village.	
9.	28.11.2018	Under Section 164 of the Electricity Act, 2003, the Central Electricity authority confers to M/s GTTP, "all powers which the telegraph authority possesses under the Indian Telegraph Act, 1885 with respect to placing telegraph lines and post for the purposes of a telegraph established or maintained, by the Government or to be so established or maintained."	
10.	26.12.2018	The Principal Secretary to the Chief Minister, approves the project under Section 31 of the PT Act on behalf of the CM under the words "Chief Minister has approved."	
11.	__.01.2019	The file is resubmitted to the Government for approval by the DCF North, in view of the fact that the decision is granted based on a circular (13/3/90-FOR dated 15.11.1991) which is not applicable when the land in question belongs to a private party.	
12.	04.02.2019	Despite the circular not being applicable, the Principal Secretary to the Chief Minister again approves the project under Section 31 of the PT	

		Act, on behalf of the CM under the words "CM has approved".	
13.	25.04.2019	DCF grants permission to the Tanmar project for the clear felling of 2670 trees in Sy. No. 21/1 situated at Sangod Village despite the action being in utter disregard of the Supreme Court's order dated 4.2.2015.	
14.	18.10.2019	Town and Country Planning Department issues a technical clearance for carrying out the work of "establishment of substation power plant, construction of residential units, pump house, well and Badminton Court.." on land zoned as Natural Cover, No Development Slope, Paddy field as per RGP-2021 in Sy No 21/1 of Sangod Village.	
15.	05.10.2020	A construction License is unilaterally issued by the Sarpanch of the village of Sangod, without a panchayat resolution. The License is not signed by the Secretary.	
16.	October 2020	Writ Petition is filed

QUESTIONS FOR DETERMINATION

&

LIST OF ACTS & AUTHORITIES

1. Whether any development can be carried out when it is not in conformity with the statutory land use zoned under the Regional Plan 2021?

2. Whether the authorities could grant an approval for tree felling under the Goa Preservation of Trees Act, when they ought to have obtained prior approval under the Forest Conservation Act, 1980?

3. Whether the order excluding the entire Survey number from the purview of the Goa Preservation of Trees Act, 1984 would withstand legal scrutiny in the face of it being issued not under the signature of the Forest Minister (also CM) but under the signature of the principal secretary to the Chief Minister.

4. Whether any conversion of such lands can be permitted in view of the SC order dated 4.2.2015?

To,

The Hon'ble Chief Justice

& His Companion Judges,

Bombay High Court at Panaji, Goa

HUMBLE PETITION OF THE PETITIONERS

MOST RESPECTFULLY SHEWETH AS UNDER:

1. The Petitioner is an environment NGO based in Goa who has approached both, this Hon'ble Court and the Hon'ble Supreme Court, time and again over the past three decades, in public interest, for enforcement of the provisions of environment, wildlife, forest, coastal

regulation, land use, pollution and mining laws. It has pursued the matter of identification and demarcation of private forests in Goa for 22 years. All its members are citizens of India. The average annual income of the Petitioner organization is around Rs.9 lakhs. The Petitioner states that there is no civil, criminal or revenue litigation involving the Petitioner organization which has or could have a legal nexus with the issue involved in this PIL. Registration certificate and resolution of the petitioner organization is herein marked and annexed to the petition as **Annexure 1 colly.** Undertaking that the petitioner will disclose the source of information leading to the filing of the PIL is herein marked and annexed at **Annexure 2**.

2. This writ petition is filed in public interest to challenge the construction of an electrical substation and related infrastructure including residences on Sy.No.21/1 in Sangod village in contravention of the Regional Plan 2021 which has zoned the land as natural cover, No-

Development Slope and paddy fields. No conversion can be granted for such lands in view of the norms prevailing under the statutory Regional Plan for Goa 2021. Neither can the land be converted as per order of the Supreme Court dated 4.2.2015. The petition consequently challenges the destruction by clear felling of a patch of rich natural forest located on the said plot based on entirely fraudulent and manipulated permissions, and seeks its restoration, apart from penalties.

3. The petition shows that as per the records not a single one of the actions of the various authorities allowing clear felling of the entire plot of over 10 ha appears to be bona fide, in addition to being violation of law. Hence the challenges raised in this PIL.

4. Petitioner states that on the 18th of October, 2020, some citizens came to know that the Resp No. 9 had commenced some work at the site. They immediately

went to the site and found that several workers were present and they had commenced some development works on the plot, including clearing of vegetation using heavy machinery (2 JCBs and one truck). Photographs of the work being carried out at the site on 18.10.2020, in the absence of Conversion Sanad for the plot, are hereto annexed as **Annexure 3**. That the petition challenges the non-conforming use of land zoned as natural cover, paddy field and No-Development Slope for the erection of an electricity sub-station being constructed by the Goa Tamnar Transmission Project Ltd., Respondent No.9. The proposed development cannot be permitted in view of a blanket ban by the Supreme Court of India on conversion of any plot of land with natural vegetation, which is more than 1 ha in size and which has a canopy density of more than 10%.

SC blanket ban

5. That the entire litigation costs, including the advocate's fee and other charges are being borne by the Petitioner.

6. That a thorough research has been conducted in the matter based on which the grounds are raised in the petition.

7. That, to the best of the knowledge of the Petitioner and research done by it, the issues raised in this petition were not dealt with or decided in any other petition, and that a similar or identical petition was not filed earlier by them. The petitioner has however filed PIL registered as LD-VC-92-2020 challenging the approvals granted for that part of the transmission line which is proposed to pass through the Molem National park and the Bhagwan Mahaveer Wildlife Sanctuary. This Hon'ble Court has issued notice on the said PIL.

8. That the Petitioner has understood that in the course of hearing of this petition the court may require any

security to be furnished towards costs or any charges, and the Petitioner shall comply with such requirements.

9. That, to the petitioner's knowledge, there is no civil or criminal litigation pending with regard to the subject matter of this petition before any other Court.

10. Petitioner states that this Hon'ble Court has jurisdiction to hear and dispose of this matter, as the matter involves violation of the provisions of the TCP Act, the Goa Land Revenue Code, a specific prohibition imposed by the Apex Court, and decisions that are constitutionally unsustainable.

Facts in brief, constituting the cause:

11. A contract to construct an interstate transmission line was issued to the Goa Tamnar Transmission Project Ltd. (hereinafter, "Tamnar Project") by the Central Power Ministry. The fate of the project hangs in balance as erection of part of the line proposed to be

Project

taken through the Mollem National Park and the Bhagwan Mahaveer wildlife sanctuary has been challenged before this High Court and the permissions granted appear irregular and doubtful. In fact, the permission to fell trees within the National Park and Sanctuary is yet to be given even stage one approval under the Forest Conservation Act, 1980, partly due to the challenge pending before this High Court. Almost the whole of Goa is opposed to the destruction of the sanctuary and national park.

12. However, the transmission line falling outside the sanctuary is also disastrous for the environment. It involves the felling of over a lakh trees, for which in fact applications are pending before MOEF&CC. Petitioners have filed detailed objections thereto. The subject matter of this PIL however is restricted to the construction of the electricity substation and attendant structures, which is proposed to be located on Sy No.21/1 in Sangod village, within limits of Mollem

panchayat, Dharbandora Taluka, South Goa, but outside the WLS and NP.

13. From facts gleaned by the petitioner, it appears that more than 80 persons claimed interest in Sy.No.21/1. Sale deeds testify that the transactions to sell the land to Tamnar (a private company) were completed in 2018. Thereafter, Tamnar claimed the land and made an application for clear felling of the trees. Copy of the application dated 09.10.2018 of the Tamnar project to fell trees on 10 ha of land, all comprising forest species, is at **Annexure 4**.

14. Petitioner submits that this application could never have been entertained or granted in view of the order of the Supreme Court dated 4.2.2015 in Civil Appeal No. 37942/2014, copy of which is at **Annexure 5.** Forest department officials are well aware of this order and have been implementing it when confronted with requests for permissions for any development, either

government or private, for the past 5 years. The order relates to an appeal filed by the petitioner herein, which challenged the criteria for identification of private forest adopted by the Goa government. On 4.2.2015, Hon'ble Supreme Court, in granted interim relief in the terms of the following order:

> "In the meanwhile, we direct that the respondents herein will not issue any 'No Objection Certificate(s)' for the conversion of any plot that has natural vegetation with tree canopy density in excess of 0.1 and an area above one hectare."

While the Goa government insisted on only identifying plots with canopy density of 40% (0.4) and an area of 5 ha as "forest" for purposes of the Forest Conservation Act, 1980, the appeal before the apex court pleaded for a forest criteria of 10% (0.1) canopy and 1 ha., area in line with earlier decisions of the apex court dated 28.3.2008 and the affidavit of the Forest

Survey of India which recognized forest on lands with extent in excess of 1 ha.

15. In fact, it is this Hon'ble Court which on 26.03.2012 first recorded an undertaking of the Goa government in Writ Petition No.495/2010 filed by this petitioner that no conversion would be allowed for any plot of land with natural vegetation having canopy density in excess of 10% and area of 1 ha. This order was carried over to the NGT, and then re-confirmed by the apex court on 4.2.2015. It is still in operation as a binding direction as the Supreme Court is yet to decide the appeal. The state of Goa and the Forest Department are the main respondents in the appeal.

16. The Tamnar plot acquired was 10.3.5 ha. (10 lakhs, three thousand and five sq. mts) and comprised 2800 trees, which amounted to a density of over 80% (0.8), almost all of which were forest species, which would immediately place this plot within the restrictions of

2800 trees
80% density

the Supreme Court order. Any forest officer worth his salt would have immediately set up an alarm. However, due to the influence of the Resp.No.9 and pressures it brought to bear on the local administration, and the difficulties (and scandal) of approving the felling of such a large area of naturally vegetation comprising forestry species of trees, the forest department set in motion an unprecedented elaborate approval process to bypass both the FCA, 1980 and the PT Act which had its own restrictions on the permissions that could be granted for large-scale felling of trees. As for the Supreme Court's order dated 4.2.2015, it was simply kept hidden from view. The department moved the file without including a copy of the Supreme Court's order.

17. From the file notings, copy of which was released under RTI on 23.10.2020, the following facts have now emerged, borne by the record:

a) Application in Form B was made under the Preservation of Trees Act, 1984 by Tamnar to the Tree Officer (who is also the Dy. Conservator of Forests) on or around 09.10.2018.

b) Vide letter dated 16.10.2018, the DCF (North) returned the file to the applicant on the ground that under the PTA, "no permission can be granted to any person from the same area on more than two occasions during the same year subject to a maximum area of a hectare at a time." The letter further stated that the respondent company "may like to restrict the felling upto 1 Ha area and submit afresh." For reasons known only to him, he did not direct Tamnar to process the application under the Forest Conservation Act, 1980, nor did he draw the

attention of the applicant to the Supreme Court order dated 4.2.2015 though he was fully aware of it and was implementing it. Copy of the DCF's letter dated 16.10.2018 is at **Annexure 6**.

c) No fresh application was submitted thereafter. Instead, within 24 hours, that is, on 17.10.2018 itself, Tamnar submitted a letter where it attempted to "appraise [the DCF] about the project." On page 2 of the said letter, it submitted the plan map of the proposed substation. The letter further said that from the said plan it was apparent that "we require a minimum area of 1,30,000 sq mts for the above scope to be implemented. In addition, some minor working areas may also be required for protection walls, drainage system, and maintenance of safe gradient to prevent soil collapse." The letter ended by stating that they could not reduce the required area "which is designated as per IS norms." Obviously therefore, land was not suitable since

Tamnar project

Tamnar had purchased merely 1,03,005 sq mts of the property while its own letter indicated a much larger land requirement of 1,30,000 at a minimum. It is to be noted that Sy.No.21/1 is surrounded on three sides by natural forest, both government and private. Copy of the said letter dated 17.10.2018 is at **Annexure 7**.

d) Despite the fact that no fresh application or request was submitted -- it appears that based on the letter dated 17.10.2018, the North Goa Forest Division on 14.11.2018, initiated a file for the approval of the Government under Section 31 of the PTA, to exclude the operation of Section 9 of the PTA for Sy No. 21/1 of Sangod village. The file begins with a Note from the DCF (North Goa Divn.) indicating that the Sy.No.21/1 of Sangod village was "not a Government forest land." Neither did the plot figure in the list of sy.nos identified as "Private Forest" by Sawant/Karapurkar/Sharma state level

expert committees. The Note goes on to list the species of the 2670 trees required to be felled, perusal of which shows that 90% were forest species, whereas only 10% comprised mango, jackfruit, coconut and cashew. The Note did not mention that Sy.No.21 was identified by the North Goa Forest Division Committee (of which the DCF, North was a member). Nor did it mention the Supreme Court's order dated 4.2.2015. However, in the concluding part of the Note, the DCF clearly states that the trees to be felled are "forestry species". Copy of the entire notings pages in the file is hereto annexed to this petition as **Annexure 8**. Copy of the relevant pages of the NGFDC report which lists Sy.No.21 of Sangod village is at **Annexure 9**. (Sy No 21 of Sangod village is at Sr. No 5 in the report).

e) It is more than obvious that this plot, having 2670 trees of largely forestry species and exceeding ten hectares clearly met the criteria of forest as accepted by the Goa Government / Forest department. The order of the Supreme Court dated 12.12.1996 *Godavarman Thirumulkpad v. Union of India & Ors.,(1997) 2 SCC 267* observed: "Forest" must be understood according to its dictionary meaning. This description covers all statutorily recognised forests, whether designated as reserved, protected or otherwise for the purpose of Section 2(i) of the Forest Conservation Act. The term 'forest land', occurring in Section 2, will not only include 'forest' as understood in the dictionary sense, but also any area recorded as forest in the Government record irrespective of the ownership. This is how it has to be understood for the purpose of Section 2 of the Act. The provisions enacted in the Forest Conservation Act, 1980 for

the conservation of forests and the matters connected therewith must apply clearly to all forests so understood irrespective of the ownership or classification thereof."

f) The physical existence of a forest is independent of its recognition as a forest as there may be a time lapse before the plot is identified and demarcated. However, there is a direction of this Court and of the Supreme Court to locate, identify and demarcate forest areas. If a plot of land had 40% canopy density, 75% forestry species, and exceeded 5 ha., it met the objective criteria for recognising the area as forest. Sy No 21 thus fitted into the Goa Government's criteria for identification of private forest. In any event, it certainly met the stricter criteria laid down in the interim order dated 4.2.2015, which tightened the criteria further to include lands with natural

vegetation having minimum 10% canopy density and area of 1 ha.

g) At para 8 of page 2 of the note, the DCF now proceeded to propose that since under Section 9 of the PTA, there was a limit for the granting of a felling permission for any area more than 1 ha at a time, the Government may be approached for seeking exemption of this property from the operation of Section 9 by passing an order under Section 31 of the same Act. Here, the DCF also clearly states that the approval is sought for the felling of 2670 nos of "Forestry tree species for the establishment of 400/220 kV substation in an area of 1,03,050 sq.mts (10 ha approx)."

h) On a clarification sought by one of the forest officials, regarding whether the description of trees in the enumeration list carried out by the forest officer who had visited the site used the term

"width" to refer to diameter or girth, the enumeration list was forthwith manually changed to "girth", as the width provided in the list would mean very large trees were proposed for felling which would have required a relook at the proposal. Copy of the first page of the manually corrected enumeration list is **Annexure 10**. All the pages in the enumeration list have the same correction made manually by hand. Such tampering with data (without even a signature of the official making such changes) is unheard of. The list as it appears in the final approval order itself (which is impugned in this petition), lists the width now as "GBH" (girth upto breast height). However, the two lists are not commensurable.

i) Thereafter, the file was submitted to the Secretariat for approval of the government, in line with a circular issued for disposal of such cases where public projects are concerned on government land

or acquired private land. The proposal had to be approved by the Forest Minister (who was also the Chief Minister). However, as the then Chief Minister of Goa, Mr. Manohar Parrikar was ailing from a terminal illness, the approval was granted on file (p.8/N) by the then Principal Secretary to the Chief Minister, the Respondent No. 10, under the words "**Chief Minister has approved.**"

CM has approved

j) After the file reached the DCF North, he drew the attention of the government to the fact that the circular on which the decision was based was not applicable in the present instance since the land under application was not a government land or acquired private land, but belonged to a private party. For this reason, the file was resubmitted, drawing the attention of the government to the error. Once again, despite the fact that the circular did not apply, the decision was maintained, and the same Principal Secretary/Respondent No. 10

appended his signature to the proposal once again purportedly on behalf of the Chief Minister.

k) Petitioners submit that the circular referred to above is the circular No. 13-3-90-FOR dated 15th November, 1991 issued by the Government of Goa (Dept. of Forests) "to clarify the procedure to be followed whenever tree felling is to be done in the course of executing developmental projects." The circular specifically states that permission can only be granted on Government land or land acquired by the Government. In view of the same, Section 31 cannot apply to private land. Further, the circular also clarifies that in case felling of trees is required to be done in Government Forest area or any other forest area, *even though it may not be recorded as 'forest' in the land records*, a proposal will have to be formulated for obtaining clearance from the Government of India under the Forest

(Conservation) Act, 1980. A copy of the circular dated 15.11.1991 is enclosed as **Annexure 11.**

l) Petitioner submits that unless there was a Standing Order, duly notified, delegating powers to the concerned Secretary of the Department (as is permissible under the Business Rules), the Principal Secretary to the Chief Minister has absolutely no authority nor is he empowered to approve the proposal for exemption of Sy.No.21/1 from the operation of Section 9 of the PTA, calling up the power vested in Section 31. The Principal Secretary to the Chief Minister is not "Government" nor could the Principal Secretary to the Chief Minister exercise jurisdiction to purport to take any decision on the file.

m) Any decision by the "Government" must bear the signature of the concerned Minister or if any officer acts under delegated power, then such

officer authorized. The Principal Secretary to the Chief Minister was at no point of time authorized by any Standing Order, to take decisions on behalf of the Government and in this case, the Chief Minister. Also, making any endorsement or remark to claim "Chief Minister has approved" is a totally fraudulent act on the part of the Principal Secretary to the Chief Minister and in any case, does not constitute any decision by the Government as required by law.

n) There is even doubt if the then Chief Minister, Mr Manohar Parrikar had even perused the file and accorded his approval and/or was medically fit and/or in a condition to have perused the file and given his assent or consent in as much as if he was in a fit condition to peruse and examine the file, he could have affixed his signature thereon.

o) Such an act on the part of the then Principal Secretary to the Chief Minister/Respondent No. 10, to put the remark and purport to clear the file on behalf of the Government in this fashion, is clearly a gross abuse of powers and misuse of authority and an usurpation of power of the Government unto himself.

p) The act of the then Principal Secretary to the Chief Minister/Respondent No. 10, signing on behalf of a constitutional authority is unconstitutional, unwarranted, without jurisdiction, unlawful, and has to be forthwith quashed and set aside. Such illegal approvals were issued by the same person not once but twice, as can be seen from the file notings. It appears that the same officer was also signing for the Chief Minister on other matters as well.

q) The decision of the government under Section 31 must be followed by a notification. Petitioner finds no such notification in the Goa gazette.

r) The order of the Supreme Court of India was thus effectively subverted and sabotaged by an extra-constitutional authority. Thus mala fides are written across the face of the record. Copy of the impugned approval consequently granted by the Tree Officer dated 25.4.2019 issued for clear felling 2670 forest trees on the plot is **Annexure 12** to the petition. The list of trees to be felled runs into several pages. Shortly thereafter the Resp Company commenced felling of the trees. The order dated 25.4.2019 was an attempt to present the authorities with a fait accompli so that Conversion Sanad could be facilitated. The order is clearly in contempt of the Supreme Court of India which directed the respondents (including Forest Dept.) not to issue NOC for conversion of

any plot with naturally grown vegetation with tree canopy density in excess of 0.1 ha. and area in excess of 1 ha. The Tree Officer's approval is bound to be also quashed and set aside.

18. Once one serious illegality is committed, further illegalities are bound to follow. In the statutory land use plan called the Regional Plan for Goa 2021, Sy.No.21/1 and 22 of Sangod Village, within limits of Village Panchayat of Mollem, Dharbandora Taluka, South Goa are zoned as "natural cover, no-development slope and paddy fields." All three are ecozones as per the norms laid down under the Regional Plan 2021 (Release I). This fact/zoning is not disputed. However, once again the Tamnar project was favoured by unprecedented orders passed by government, which directed the Town and Country Planning Department to issue a technical clearance for carrying out the work of "establishment of substation power plant, construction of residential units, pump

house, well and Badminton Court" on land "zoned as Natural Cover, No Development Slope, Paddy field as per RGP-2021." Copy of the impugned technical clearance order dated 18.10.2019 is at **Annexure 13**.

19. Although there is no Conversion Sanad issued till date, the Company apparently approached the village panchayat for construction license. The matter was taken up by the Panchayat at its meeting held on 11.6.2020. After extensive discussion, wherein it was noted that there is no conversion sanad, the panchayat resolved to place the matter before the Gram Sabha for its decision. However, all of a sudden, before the Gram Sabha meeting could be called, the Sarpanch of the village of Sangod unilaterally issued, without a panchayat resolution and under his own signature, a construction license dated 05.10.2020. Copy of the resolution placing the matter before the Gram Sabha is **Annexure 14**. Copy of the impugned panchayat order issued by the Sarpanch is **Annexure 15**.

20. It appears that an application for conversion of the plot is pending before the Addl. Collector, Ponda. In the humble submission of the petitioner, no conversion sanad can be granted for the plot in question, due to the order of the Hon'ble Supreme Court dated 4.2.2015. Hence, the Town Planning technical clearance and the Panchayat's construction license cannot for this reason be sustained. If no conversion has been obtained, any development work at site is clearly in violation of the Goa Land Revenue Code, and hence illegal.

GROUNDS

21. Hence this PIL on the following grounds, among others:

    a) The impugned permissions have been granted in complete violation of the Hon'ble Supreme Court's order dated 04.02.2015. The Hon'ble SC has explicitly prohibited the grant of any NOC for the conversion of land that has natural vegetation

with tree canopy density in excess of 0.1 and area above one hectare. The plot in question here is naturally vegetated and has a canopy density of 0.8 having area of approximately 10 hectare. Forestry species comprised 90% of the plants on the plot. Thus the plot in fact met the criteria for private forest of the Goa government, which is more diluted than the criteria listed in the Supreme Court's order.

b) The Forest Department could not have gone through the farce of processing the approval for clear felling under the PTA, 1984 in view of the order of the Supreme Court dated 4.5.2019. Further, the Forest Department was duty bound to refer the file to the MOEF&CC for clearance under the provisions of the Forest Conservation Act, 1980. This was not done on purpose. Hence, illegal diversion of the plot in question has occurred in violation of the provisions of the FCA, 1980.

c) The forest on Sy.No.21/1 was indisputably forest as it met all the criteria of the Goa government for identification as forest. The three criteria are that the forest must have 40% canopy density, 75% forestry species and should be above 5 ha in extent. From the papers on record in this petition, the forest on sy.No.21/1 was of 80 percent canopy density; it had 90% forestry species, and finally, was more than 10 ha in extent.

d) The permission to fell 2670 trees in Sy No 21/1 of Sangod village in an area admeasuring approximately 10 ha has ostensibly been granted based on an approval granted by the Government dated 04.02.2019 under Section 31 of the PT Act, to exclude the operation of Section 9 for the impugned plot. The same must be notified. Section 31 of the PT Act states:

"31.Power of the Government to exempt.— Subject to such conditions, if any, as may be imposed, the Government may, if it considers it necessary so to do in the public interest, by notification, exempt any area or any species of trees from all or any of the provisions of this Act."

e) The final order for the mass slaughter of forest trees was illegally signed by the Principal Secretary to the Chief Minister (also Forest Minister). The PS is not "Government" and cannot substitute or take the place of a constitutional authority.

f) Further, to the best knowledge of the Petitioner, no notification, as mandated by law, has been issued with regard to the impugned decision of the Government dated 04.02.2019 thus far.

g) An order passed under Section 31 cannot replace or be a substitute for the requirement of prior approval under the Forest Conservation Act, 1980.

h) The TCP clearance dated 18.10.2019 and the construction license dated 05.10.2020 issued by the VP of Sangod village are liable to be quashed as they have been granted in violation of the Goa Town and Country Planning Act. The impugned permissions have been granted for development that is contrary to the permissible uses of the land as per the zoning in the Regional Plan 2021. The plot in question is zoned as Natural Cover (Eco II), No Development Slopes and Paddy Fields (Eco I). Permission for a "substation power plant, construction of residential units, pump house, well and Badminton Court" cannot be granted within these zones. Section 16A of the GTCP Act clearly prohibits any development in contravention of any provision of the regional plan as in force.

i) The Construction License dated 05.10.2020 has been granted without any resolution of the Panchayat or Gram Sabha. It has unilaterally been granted by the Sarpanch of Sangod village without the signature of the Secretary of the panchayat. The Panchayat has already recorded a resolution to refer the matter to the Gram Sabha for decision. In view of the resolution, the construction license could not have been issued by the Sarpanch.

j) The Principal Secretary to the Chief Minister is not "Government" nor could the Principal Secretary to the Chief Minister exercise jurisdiction to purport to take any decision on the file.

k) Any decision by the "Government" must bear the signature of the concerned Minister or if any officer acts under delegated power, then such officer authorized. The Principal Secretary to the Chief Minister was at no point of time authorized

by any Standing Order, to take decisions on behalf of the Government and in this case, the Chief Minister.

l) Also, making any endorsement or remark to claim "Chief Minister has approved" is a total fraudulent act on the part of the Principal Secretary to the Chief Minister and in any case, does not constitute any decision by the Government as required by law.

m) The act of the Principal Secretary to the Chief Minister, signing on behalf of a constitutional authority is unconstitutional, unwarranted, without jurisdiction, unlawful, and has to be forthwith quashed and set aside.

n) No conversion has been granted, nor can be granted for such lands in view of the norms prevailing under the statutory Regional Plan for

Goa 2021. Neither can the land be converted as per order of the Supreme Court dated 4.2.2015.

o) Such other and further grounds that may be urged at the time of hearing.

Source of Information

22. The Petitioner is relying on information received under the RTI Act.

Nature and extent of Injury caused / apprehended

23. The forests of Goa are its principal ecological asset. Petitioner has spent a record 22 years pursuing the protection of government and private forests in the state of Goa. It fought to ensure that, till the Supreme Court decided its challenge to the forest criteria adopted by the State of Goa, no conversion of any area with natural vegetation, in excess of 1 ha area and with canopy density of 10% and above would be permitted in the State of Goa. This is the first time that an area in excess

of 10 ha, with canopy density of 80%, stocked with 90% of forestry species, has been allowed to be clear-felled on the basis of entirely fraudulent permissions. The plot is located in the midst of a major government forest and other private forests. This is not the place to locate any project of this kind for its implications on the surrounding forests as well. The damage done by the clear felling is already significant. Every law in the book and every order of this High Court and Supreme Court have been violated. The area must be rehabilitated.

Delay, if any, in filing the petition

24. There is no delay in filing this petition. The petitioner became aware of the tree felling that took place at the site only after it was executed. Thereafter the petitioner had to locate the relevant documents and make applications under RTI. The file notings and other relevant documents were made available under RTI on 23.10.2020. In any case, no Conversion Sanad has

been issued as yet for the plot. Petitioner has objected to the grant of the conversion sanad in the circumstances.

Representations made

25. Petitioner has drawn the attention of the authorities to the relevant infringements of law and violation and contempt of Supreme Court's order by its communications dated 26.10.2020.

Documents relied upon

26. List of documents to be relied upon is provided in the index.

27. Petitioner is therefore entitled to an appropriate writ, order or direction, quashing and setting aside the various permissions and approvals illegally granted for the project on Sy.No.21/1 + 22/1 of Sangod village.

28. The cause of action has arisen in Goa.

29. Petitioner has not filed any petition in respect of the impugned order either in this Hon. Court or the Hon. Supreme Court or any other Court.

30. Fixed Court Fees as prescribed is paid hereon.

31. Petitioner has not received any notice of any Caveat from any of the Respondents.

32. In view of the averments made in this petition and the fact that there is no Conversion sanad as of date, the petitioner is entitled to ad-interim relief till this Court examines and adjudicates the serious issues raised in this PIL.

PRAYERS

33. Petitioners are therefore approaching this Hon'ble High Court for the following reliefs:

i) For an order or writ in the nature of an order to quash and set aside the approval of the Government under Section 31 of the Goa Preservation of Trees Act, 1984 dated 4.2.2019;

ii) For an order or writ in the nature of an order to quash and set aside the tree felling permission granted to Resp No 9 dated 25.4.2019.

iii) For an order or writ in the nature of an order to quash and set aside the TCP technical clearance dated 18.10.2019 and the Panchayat construction license dated 5.10.2020.

iv) For an order directing restitution of Sy.No.21/1 of Sangod Village, within limits of Village Panchayat Of Molem, Dharbandora Taluka, South Goa to its original forestry status.

v) For costs of this PIL;

vi) Any other reliefs this Hon'ble Court may be pleased to grant in public interest.

Interim reliefs:

vii) Pending hearing and final disposal of this PIL, for an order directing stay of any work or development of the said property under Sy.No.21/1 of Sangod Village, within limits of Village Panchayat Of Molem, Dharbandora Taluka, South Goa and to maintain status quo;

viii) Pending hearing and final disposal of this PIL, for an order restraining the Addl. Collector, Ponda from issuing any conversion sanad for Sy.No.21/1 of Sangod Village, within limits of Village Panchayat of Molem, Dharbandora Taluka, South Goa.

22/1

Ad-Interim relief:

viii) Ad-interim relief in terms of prayer (vii) & (viii).

AFFIDAVIT IN
SUPPORT OF THE PETITION

I, Dr Claude Alvares, Secretary, Petitioner No. 3 organisation herein, do hereby solemnly affirm and declare as under:-

1. I have today filed a writ petition in public interest for the reliefs sought therein.

2. I state that there is no personal gain, private motive or oblique reason in filing the PIL.

3. The petitioners are ready to pay costs as ordered by the Court, if it is ultimately held that the petition is frivolous or has been filed for extraneous considerations or that it lacks bona fides.

4. The petitioners shall disclose the source of their information, leading to the filing of the PIL, if and when called upon by the Court, to do so.

5. I solemnly declare and say that what has been stated in paras 1, 2(p), 3(p), 4-10, 11(p), 12(p), 13, 14(p), 15, 16(p), 17(p), 18(p), 19(p), 20(p), 22, 23(p), 25, 26, 28, and 29-31 of the accompanying petition are in the nature of facts which are true to my own knowledge I believe the same to be true and the contents of paras 2(p), 3(p), 11(p), 12(p), 14(p), 16(p), 17(p), 18(p), 19(p), 20(p), 21, 23(p), 24 , 27, 32 and 33are my submissions, made on legal advice which I believe to be true and correct. No part of it is false and nothing material has been concealed there from.

6. I say that the documents annexed are true copies of their originals.

The Tree Officer,
Dy. Conservator of Forests
North Goa Division
Ponda. Goa

6873
S2
09/10/13

Sir,

I apply for grant of permission for felling trees located in the property situated in the village Sangod of Dharbandora Taluka and District South Goa. I furnish below the following details in support of my application:-

i)	**Applicant's name and address (In block letters)**	:-	Goa Tamnar Transmission Projects Limited A2/2, New Horizons, DB Marg, Miramar Panaji- 403001.
ii)	Name and address of the owner of the property (if different from applicant)	:-	-----
iii)	Title of the applicant i.e. whether owner/occupant of the property, etc.	:-	Owner
iv)	Name and serial number of property	:-	Survey No. 21/1 of Sangod Village.
v)	Total area of the property with description of the boundaries	:-	Survey No. 21/1- 1,03,050 SqM EAST : S.No 21 sub division 2 of Sangod Village WEST: S.No 24 sub division 1A of Sangod Village NORTH: S.No 20/1 of Sangod Village SOUTH: S.No 21 sub division 2 of Sangod Village.
vi)	Total number of trees (species-wise) whose trunk or body is not less than 5 cm. in diameter at a height of 30 cms. from the ground and whose height is not less than one meter from the ground	:-	As per List Enclosed.
vii)	The exact area (in sq. meters) from which felling of trees for which permit is sought (description of the boundaries)	:-	1,03,050 Square Metre.
viii)	Total number of trees to be felled	:-	2670 Trees.

294/c

ix) Trees to be felled are numerically numbered in paint, their girth measured at a height of 1.35 meters from ground level and their details species wise :- Refer Annexure no 1

x) Purpose for which the felling of trees are intended : Eastiblishment of 400/220 kV Substation.

xi) Intended use of felled trees (e.g. for sale, for domestic use, etc.) : For Domestic Use/Sale

xii) Intended use of land after felling of trees : Eastiblishment of 400/220 kV Substation.

xiii) Number and species of trees intended to be planted after felling (give details of arrangement for raising, planting and protecting trees) :- As per instruction by Tree Officer

xiv) Names and addresses of the owners/occupants adjoining properties :-

I am enclosing an affidavit and below mentioned papers in support of my application.

Declaration

I hereby declare that I shall fully satisfy and abide by such terms and conditions of the permit as may be specified therein.

Sub:-Submission of Form "B" in Sy. No. 21/1 of Sangod village of Dharbandora Taluka.

Sir,

With reference to the letter dated Nil on the subject cited above, it is to inform that as per Section No.9 of Goa Daman & Diu Preservation of Tree Act, 1984 (copy enclosed) no permission can be granted to any person from the same area on more than two occasions during the same year subject to a maximum area of a Hectare at a time.

Therefore, you may like to restrict the felling upto 1 ha. area and submit afresh. The file submitted earlier is returned in original.

Yours faithfully,

Kuldeep Sharma, IFS
Dy. Conservator of Forests,
North Goa Division,
Ponda –Goa.

To

The Deputy Conservator of Forests
Ponda, North Goa,
Goa.

Sub: - Submission of Form "B" in Sy. No. 21/1 of Sangod Village of Dharbandora Taluka.

Ref:- Your Office letter no. 1/DCFN/CLM-10/TMB/2018-19/233-1349 dated 16-10-2018.

Dear Sir,

This is with reference to you above mentioned letter, in respect of the provisions under section 9 of Goa Daman & Diu Preservation of trees Act 1984 and seeking our response on the same.

Before we submit our justification on our proposal, we would like to appraise you about the "Project." The project

Goa presently has **only one** connectivity to Western Grid through 400kV Mapusa-Kolhapur line, which is not enough to meet the growing demand and maintaining reliability of Power Supply. And therefore, this project namely "Additional 400kV feed to Goa" has been conceived and approved by Ministry of Power keeping in view of the growing tourism and industry in Goa and growth of associated Power Demand.

Project has been approved by Ministry of Power under Section-68 of Electricity Act 2003 and has also been granted the Transmission license under section 14 of the said Act by Central Electricity Regulatory Commission (CERC). Please find attached the MOP letter no K.V.PRA/26/3/PSPA-I/2017/491-492 dated 15.06.2017 and CERC order dated 13th July 2018 to this effect.

The Project scope consists of Construction of following Transmission System;

Sl.	Name of the Transmission Element
1.	Establishment of New 2x500MVA, 400/220 kV substation in Xeldem / Suitable location in South Goa district
2.	LILO of one ckt. of Narendra (existing) – Narendra (New) 400kV D/C quad line at Goa (New GTTPL Substation)
3.	GTTPL (New) – Mapusa (PGCIL) 400 kV D/C (Quad) line
4.	Inter- connection with Xeldem (GED) substation through 220 kV D/C line with HTLS conductor (ampacity equivalent to twin moose conductor)

////Sterlite Power

The Element-1 above (400/220kV Substation) consists of the following elements;

400kV

- ICTs : 2x500MVA, 400/220kV
- ICT bays: 2 nos.
- Line bays: 4 nos. (2 nos. for Xeldem – Mapusa 400kV D/c (quad) line & 2 nos. for LILO of one ckt of Narendra (existing) – Narendra (New) 400kV D/c quad line at Xeldem)
- Bus Reactor: 1x125MVAR
- Bus Reactor Bay: 1 no
- Space for 2x500MVA, 400/220kV ICTs (future)
- Space for ICT bays (future): 2 nos.
- Space for Line bays along with Line Reactors (future): 4 nos.
- 1x63MVAR switchable line reactor along with 500 Ohms NGR and its auxiliaries (for Narendra (existing) – Xeldem 400kV line formed after LILO of one ckt of Narendra (existing) – Narendra (New) 400kV D/c quad line at Xeldem)
- 1x80MVAR switchable line reactor along with 500 Ohms NGR and its auxiliaries (for Narendra (New) –Xeldem 400kV (quad) line formed after LILO of one ckt of Narendra (existing) – Narendra (New) 400kV D/c quad line at Xeldem)

220kV

- Inter- connection with Xeldem (existing) substation through 220kV D/c line with HTLS conductor (ampacity equivalent to twin moose conductor)
- ICT bays: 2 nos.
- Line bays: 6 nos. (2 nos. for New Xeldem (400 kV) - Xeldem (GED) 220kV D/c line, 2 nos. for New Xeldem (400 kV)-Verna (GED) 220kV D/c line and 2 nos. for LILO of 2nd circuit of Ambewadi-Ponda 220 kV D/C line at New Xeldem (400kV)
- Space for ICT bays (future): 2 nos.
- Space for Line bays (future): 6 nos.

The plan map of the proposed substation, showing the exact boundaries and layout area is submitted for your kind perusal.

As you can see from the plan of the above substation, we require a minimum area of **130,000 Sq M** for the above scope to be implemented. In addition to above some minor working area may be required in order to

1. maintain the safe gradient to present soil collapse
2. Build protection walls to protect soil erosion.
3. Build drainage system to maintain the flow of water

CERTIFIED COPY UNDER RIGHT TO INFORMATION ACT, 2005

ASSTT. CONSERVATOR OF FORESTS
PONDA-GOA

In order to do all this we will require to cut the trees, and do the necessary earth work & protection work before we commence our civil work

50

///SterlitePower

We would like to assure your good self that, that we will cut and remove the minimum possible number of trees falling within our switch yard area, while executing our work.

You will kindly appreciate that it is also very essential and mandate as per electricity act and rules that adequate safety be maintained at substation installations, and therefore we can not reduce the required area which is designed as per IS norms.

We however assure you that we will not cut any excess trees outside the proposed construction area, except for where extremely necessary for the safety of the structure or to maintain required safe electrical clearance, and no tree will be cut beyond numbers permitted by your good office.

Thanking you and looking forward for kind support please.

Sub:- "Establishment of 400/220 kV substation by Goa Tamnar Transmission Project Ltd". Felling of 2670 Nos. of trees regarding.

Vide their letter No.STL/Forest/GTTPL/18-19/28 dated 17/10/2018, Goa Tamnar Transmission Project Limited Miramar, Panaji has applied for felling of 2670 Nos. of trees from Sy. No. 21/1 Village Sangod, Dharbandora taluka in over 10 hac. area in **Form B (295/C)** under Goa, Daman & Diu, Preservation of Trees Act-1984. The permission has been sought to Establish 400/220 kV substation at Sangod.

Following documents are enclosed alongwith the application.

Sr. No.	Particular	Pg. No.
1	Copy of sale deed	1 to 257/C
2	Survey Plan of Land Records	259/C
3	Affidavit	262/C
4	Form No. I & XIV	258/C
5	List of trees	266/C to 293/C
6	Form-B	295/C

Few note worthy points are:

1. The area under Survey No. 21/1 of Sangod village of Dharbandora Taluka is not a Government Forest land. The area does not figure in the list of survey nos. identified as Private Forest by Sawant /Dr. Karapurkar/Sharma State Level Expert Committee.

2. The list of these 2670 trees is places at 266/c to 293/c. The species wise abstract is as follows:-

Sr. No.	Tree Name	Total Number of Quantity
1	Akash	26
2	Akki	4
3	Albera	5
5	Atti	67
6	Banas	13
7	Banni	4
8	Bargad	1
9	Basari	275
10	Chedey	1
11	Coconut	137
12	Gobari	323
13	Kaju	60
14	Kajuri	18
15	Kakki	709
16	Mango	67
18	Matti	777
19	Niral	80
20	Panas Jack.	1
21	Sagon	97
22	Shirsila	1
23	Sursingi	1
24	Supari	2
25	Tengin	1
	Total	**2670**

3. It is mentioned in application by User agency that, Goa presently has only [illegible] connectivity to Western Grid through 400 kV Mapusa-Kolhapur line, which is not enough to meet the growing demand and maintaining reliability of Power Supply. And therefore, this project namely "Additional 400 kV feed to Goa" has been conceived and approved by Ministry of Power, Government of India.

4. The private property where this sub station is proposed is located next to unclassed Government Forest "Sangod II" Sy.No. 21/2 in Collem Range. Also User Agency has sought for diversion of 0.5 ha Forest land through this unclassed Government forest to reach to this substation site, under Forest Conservation of Act, 1980 separately.

5. A query was raised to the user agency to submit the details of other alternatives examined for establishment of this substation before finalizing the present site where 2670 trees are required to be felled, as to know if the finalized site could be changed or not.

6. In response user agency vide their letter placed at **3/8/C** submitted the list of alternative sites examined by them along with reasons, as to why they could not be finalized. Also it has been informed that even local Administrative Authorities expressed their inability to provide any Government land for the substation.

7. Since applicant has not been able to get any other alternate site with less tree cover, present site has been finalized and application for cutting of 2670 nos. of trees have been submitted under, Preservation of Trees Act, 1984.

8. Since as per Section 9 of Preservation of Trees Act, 1984, "No permission shall be granted to any person from the same area on more than two occasions during the same year subject to a maximum area of **one hectare** at a time." It is proposed that the proposal may be submitted to the Government for seeking exemption for this property under Section 31 of Preservation of Trees Act, 1984 from the provision of Section 9 of the act and grant approval for felling of 2670 (Sy. No. 21/1) nos. of Forestry tree species to establishment of 400/220 kV substation in area of 1,03,050 sq.mtrs. (10 ha. approx.).

Submitted for kind perusal and approval please.

DCF(P&S)

27/11/18

On perusal of notings from 1/n x 2/n, it is to submit that

1) The area under Survey No 21/1 of Sangod village of Dharbandora Taluka is not a notified Govt forest land and not a Private forests.

2) The project proponent has submitted that there is no alternate suitable land available in that region.

3) 2670 Nos of identified/marked trees are spread over 10 ha (approx). of area. As per section 9(3) of PTA, 1984 Permission shall not be granted if the area is more than one ha. However under section 31 of the Act, Government has power to exempt any area or any species of trees from all or any of the provisions of this Act, if it considers it necessary so to do in the public interest, by notification.

4) Hence file may be submitted to the government for approval to exempt the survey no 21/1 of Sangod village of Dharbandora Taluka from the provisions of section 9(3) of Preservation of Trees Act, 1984 for felling of 2670 no of trees for establishment of 400/220 kV substation in public interest.

Submitted for kind perusal and directions please.

Forest Department (Sectt.)
Dated:-17/12/2018.

The proposal of forest Department, Panaji is regarding permission for felling of 2670 trees for establishing 400/220 KV substation **by Goa Tamnar transmission project Ltd.**

Principal, Chief Conservator of Forests, Panaji was requested to clarify certain points as can be seen at 6/N. It is stated by the Pr. Chief Conservator of Forests that the proposal is submitted as per the circular 13/3/90-FOR dated 15/11/1991 and guidelines, further it is stated **that the Principal, Chief Conservator of Forests is there to look after such concerns of environment and plants and not the mandarin of the Secretariat.** As such, considering said aspect, it will be appropriate that we may agree for the proposed proposal by Pr. Chief Conservator of Forests.

In view of above submission, we may submit to Government to take appropriate decision on the proposal submitted by Forest Department, Panaji regarding permission for felling of 2670 trees for establishing 400/220 KV substation **by Goa Tamnar transmission project Ltd.**.

Note from **N.P. 1 to N.P. 5** may kindly be perused.

The file was submitted for seeking exemption for cutting of 2670 trees over 10 ha land for establishment of 400/220 kV substation by Goa Tanmar Transmission project Ltd., in private property bearing survey no. 21/1 of Sangod Village, Dharbandora taluka from applicability of Preservation of Trees Act, 1984 as provided under Section 31 of the Act. Copy of Section 31 of PTA, 1984 is enclosed at **321/C** for ready reference.

However while processing of the file in the forest secretariat, it has been inadvertently submitted for approval as per circular no. 13/3/90-FOR dated 15/11/1991 which is applicable for Government lands. The same has also been approved by Hon'ble Chief Minister. However since the proposal involves private property and not a government land, therefore the file is re-submitted to seek the approval of the competent authority for exemption for cutting of 2670 trees over 10 ha land in private property bearing survey no. 21/1 of Sangod Village, Dharbandora taluka from applicability of Preservation of Trees Act, 1984 as provided under Section 31 of the Act as the project is in larger public interest.

23.	Sursingi	1
24.	Supari	2
25.	Tengin	1
	Total	**2670**

3. It is mentioned in application by User agency that, Goa presently has only connectivity to Western Grid through 400 kV Mapusa-Kolhapur line, which is not enough to meet the growing demand and maintaining reliability of Power Supply. And therefore, this project namely "Additional 400 kV feed to Goa " has been conceived and approved by the Ministry of Power, Government of India.

4. The private property where this sub station is proposed is located next to unclassed Government Forest "Sangod II " Sy.No. 21/2 in Collem Range. Also the User Agency has sought for diversion of 0.5 ha Forest land through this unclassed Government forest to reach to this substation site. under Forest Conservation of Act, 1980 separately.

5. A query was raised to the user agency to submit the details of other alternatives examined for establishment of this substation before finalizing present site where 2670 trees are required to be felled, as to know of ____finalized site could be changed or not.

6. In response user agency vide their letter placed at **318/C** submitted the list of alternative sites examined by them along with reasons as to why they could not be finalized. Also it has been informed that even local Administrative Authorities expressed their inability to provide any Government land for this substation.

7. Since applicant has not been able to get any other alternate site with lesser cover, present site has been finalized and application for cutting of 2670 no. of trees have been submitted under, Preservation of Trees Act, 1984.

8. Since as per Section 9 of Preservation of Trees Act, 1984, "No permission be granted to any person from the same area on more than two occasions during the same year subject to a maximum area of **one hectare** at a time," it is proposed that the proposal may be submitted to the Government for seeking exemption for this property under Section 31 of Preservation of Trees Act, 1984 from the provision of Section 9 of the act and grant approval for felling of 2670 (Sy. No. 21/1) nos. of Forestry tree species to establishment of 400/220 kV substation in area of 1,03,050 sq.mtrs. (10 ha. approx.).

Submitted for kind perusal and approval please.

DCF (P & S)

On perusal of notings from 1/n & 2/n, it is to submit that

1) The area under Survey No. 21/1 of Sangod village of Dharbandora Taluka is not a notified Govt. Forest land and not a private forest.

2) The project proponent has submitted that there is no alternate suitable land available in that region.

3) 2670 No.s of identified / marked trees are spread over 10 ha (approx..) of area. As per Section 9(3) of PTA, 1984, permission shall not be granted if the area is more than one ha. However under Section 31 of the Act, Government has power to exempt any area or any species of trees from all or any provisions of this Act, if it considers it necessary so to do in the public interest, by notification.

4) Hence file may be submitted to the government for approval to exempt the survey no. 21/1 of Sangod village of Dharbandora Taluka from the provisions of Section 9(3) of Preservation of Trees Act, 1984 for felling of 2670 no. of trees for establishment of 400/220 kV substation on public interest.

Submitted for kind perusal and directions please.

MOST URGENT

No. DCFN/CLM-10/2018-19/258/1509
Forest Department (Sectt.)
Dated: - 04/12/2018

The proposal of forest Department, Panaji is regarding permission of felling of 2670 trees for establishing 400/220 KV Substation by **Goa Tamnar Transmission Project Ltd.**

Kindly place a copy of Section 31 of the Act, 1984, as the same is not available in the file.

Department may please indicate the present proposal submitted for Government approval is in conforming with circular No. 13/3/90-FOR dated 15/11/1991 at page (320-319/C).

Whether, there are any highly threated species "**Dipcadi Concanense**" in the Sy. No. 21/1?

Submitted please.

P.C.C.F

X. The proposal has been submitted as per the said circular/ guideline only, like one much bigger case that of Mopa Airport.

Y. I don't think such comment/ queries even need a clarification, as the person who is raising it on whatever basis/ instructions does not know anything about plant distribution and therefore

PAGE 7/N

FROM PRE-PAGE

is foolish to raise such irrelevant questions. The person might have conjured up some memories from the Mopa Case file, and trying to show concern for the environment. I think PCCF is there to look after such concerns and not the mandarin of the Secretariat. PP. take a decision of giving approval or disapprove the proposal.

No.DCFN/CLM-10/2018-19/258/1509
Forest Department (Sectt.)
Dated:-17/12/2018.

The proposal of forest Department, Panaji is regarding permission for felling of 2670 trees for establishing 400/220 kV substation by **Goa Tamnar transmission project Ltd.**

Principal, Chief Conservator of Forests, Panaji was requested to clarify certain points as can be seen at 6/N. It is stated by the Pr. Chief Conservator of Forests that the proposal is submitted as per the circular 13/3/90-FOR dated 15/11/1991 and guidelines, further it is stated **that the Principal, Chief Conservator of Forests is there to look after such concerns of environment and plants and not the mandarin of the Secretariat.** As such, considering said aspect, it will be appropriate that we may agree for the proposed proposal by Pr. Chief Conservator of Forests.

In view of above submission, we may submit to Government to take appropriate decision on the proposal submitted by Forest Department, Panaji regarding permission for felling of 2670 trees for establishing 400/220 KV substation **by Goa Tamnar transmission project Ltd.**

Submitted please.

DCF (North)

Note from N.P. 1 to N.P. 5 may kindly be perused.

The file was submitted for seeking exemption for cutting of 2670 trees over 10 ha land for establishment of 400/220 kV substation by Goa Tanmar Transmission project Ltd., in private property bearing survey no. 21/1 of Sangod Village, Dharbandora taluka from applicability of Preservation of Trees Act, 1984 as provided under Section 31 of the Act. Copy of Section 31 of PTA, 1984 is enclosed at **321/C** for ready reference.

However while processing of the file in the forest secretariat, it has been inadvertently submitted for approval as per circular no. 13/3/90-FOR dated 15/11/1991 which is applicable for Government lands. The same has also been approved by Hon'ble Chief Minister. However since the proposal involves private property and not a government land, therefore the file is re-submitted to seek the approval of the competent authority for exemption for cutting of 2670 trees over 10 ha land in private property bearing survey no. 21/1 of Sangod Village, Dharbandora taluka from applicability of Preservation of Trees Act, 1984 as provided under Section 31 of the Act as the project is in larger public interest.

File is re-submitted please.

Exhibit – "A"

REPORT OF THE FOREST DEPARTMENT
GOVERNMENT OF GOA,
PANAJI- GOA

Subject: Third Progress Report on Private Forests to be filed before the Hon. NGT.

Reference: Hon'ble NGT Order dated 30/07/2014, 20/05/2015, 09/07/2015 and 31/01/2016 in the Application No.14(THC)/2013(WZ) & the Application No.16(THC)/2013(WZ).

1. In pursuance of the direction of the Hon'ble National Green Tribunal, Western Zone, Pune, regarding time bound action plan for early completion of identification and demarcation of private forest in the State of Goa, the first report was filed on 01/07/2015 and the second report on 28/12/2015. The third report of progress made from December 2015 to April 2016 is submitted in this report.

2. In addition to the survey numbers identified in the earlier report, 546 survey numbers having an area about 720 hectares have been provisionally identified in 54 villages i.e. Gauncim, Murida, Cujira, Talaulim, Gouli-Maula, Azzosim, Mandur, Salvador-do-Mundo, Soccorro, Penha-de-Franca, Pomburpa, Sodiem, Olavlim, Pilerne, Reis- Magos, Siolim, Uccassiam, Nachinola, Marna, Calangute, Camurlim, Oxel, Sangolda, Assagao, Parra, Arpora, Tiracol, Arambol, Paliem, Tuem, Pernem, Dhargal, Casarvarnem, Bethora, Madkaim, Borim, Quela, Panchawadi, Bandora, Ponda, Curti, Pilliem, Sangod, Dharbandora, Sancordem, Shigao, Mollem, Latambarcem, Keri, Podocem, Ponocem, Vantem, Nagvem, and Rivem of North Goa Forest Division. Similarly, in addition to the survey numbers identified in the earlier report, 70 survey numbers having an area about 55 hectares have been provisionally identified in 4 villages i.e. Cavorim, Sarzora, Mullem and Paroda in South Goa Forest Division. The actual area having forest cover as per the three criteria will be known after the final demarcation and enumerations

work is carried out of the identified survey numbers by the two District Level Committees.

3. The details of survey number provisionally identified by the North Goa Forest Division Committee and South Goa Forest Division Committee since last affidavit dated 28/12/2015, are as given below:-

Sr. No.	Name of the Taluka	Name of the Village	List of the Survey numbers provisionally identified	Approximate Area of the provisionally identified private forest in Hectare	Remarks
A	BY NORTH GOA FOREST DIVISION COMMITTEE				
1	Tiswadi	Gauncim	7, 22, 33, 36, 37 & 38.	25	The total area provisionally identified during the period is 720 Ha.,However the actual area will be known after verification of the canopy density, tree species composition, survey and actual demarcation of the forested areas in these plots/survey numbers which is going on once the area is identified by the committee.
		Murida	26, 34, 39, 40, 41, 42, 43 & 44	5

TYPED COPY – CIRCULAR dated 15.11.1991

FROM: DY CONSERVATOR OF FOREST SOUTH

FAX NO. 91-832 2750245 Dec. 30 2010

No. 13-3-90-FOR

Government of Goa, Department of Forests,

Secretariat, Panaji-Goa.

Dated: - 15th November, 1991.

CIRCULAR

Sub: - Felling of trees by Government Departments and prior permission regarding.

A number of cases have come to the notice of the Government lately where some Government Departments in the course of executing developmental projects relating to roads, irrigation, electricity etc. have resorted to felling of trees in Government land as well as in acquired private land in contravention of the Acts and Rules in force. Therefore, the following instructions are being laid down in order to clarify the procedure to be followed whenever tree felling is to be done in the course of executing developmental projects:

(1) All government departments including Corporations and Government Public Sector Undertakings should obtain prior approval from the Forest Department, Government of Goa, Panaji for felling of any tree or part thereof. The request should be routed through the Deputy Conservator of Forest [Tree Officer] concerned at least 15 days in advance, giving details of project, demarcation of the project boundaries on the ground, and marking of the trees to be cut. Coconut and Arecanut trees and bamboos (outside government forest areas) can be cut without a license /permission. In terms of clause (j) of section 2 of the Goa, Daman & Diu Preservation of Trees Act 1984, a 'tree' means any woody plant whose branches spring from and are supported upon a trunk or body, and whose trunk or body is not less than five centimetres in diameter at the height of thirty centimetres from the ground level, and not less than one metre in height from the ground level.

(2) On receipt of a request for cutting trees, the Tree Officer concerned will cause such inspections to be carried out as may be necessary and issue N.O.C. to the Department concerned, keeping in view the relevant Act in force. Where the cutting of more than 50 trees is involved, a case may be submitted to the Conservator of Forests -- specific recommendations

Contd....

(3) In case felling of trees is required to be done in Government Forest area or any other forest area, even though it may not be recorded as 'forest' in the land records, a proposal will have to be formulated for obtaining clearance from the Government of India under the Forest (Conservation) Act, 1980. The proposal may be formulated in consultation with the Deputy Conservator of Forest concerned. Copies of High Court judgements in two writ petitions are enclosed herewith for ready reference.

(4) The trees or part thereof of should be felled only after obtaining clearance as above, and they should not be removed from the site until a transit pass is obtained from the Range Forest Officer concerned. The Range Forest Officer will arrange to issue necessary transit passes within a period of three days from the date of receipt of a request giving complete information.

(5) The Department concerned which fells the trees should make necessary provisions as far as possible for planting of saplings in the vacant area available in the project site.

Any deviation of the above instructions will be construed as violation of the Forest (Conservation) Act, 1980 and the Head of the Department will be held responsible under section 3-B of the said Act.

This issues in supersession of Circular No. 7 / 2 / 82/FOR dated 16.3.1988.

No. DCFN/COL-10/2019-20/ 102 **Dated:-** 25 /04/2019

05 Vaisakha, Saka, 1941

To,
Shri Nitin Agarwal,
Manager- Forest & Wildlife,
Goa Tamnar Transmission Project Limited,
A2/2, New Horizons, DB Marg, Miramar,
Panaji Goa.

Sub:- Permission to fell 2670 trees from Sy. No.21/1 Sangod reg...

Sir,

With reference to your application **dated 09/10/2018** for grant of permission to fell 2670 trees by **Goa Tamnar Transmission Project Limited, A2/2, New Horizons, DB Marg, Miramar, Panaji Goa,** hereby the approval of the competent authority is communicated for felling of 2670 trees (as indicated below) from the private property known as **"Deu Xet"** in **Sy. No. 21/1 situated at Sangod village Dharbandora taluka** subject to the terms and conditions laid down.

Sr.No	Tree No.	Details of trees Species of trees
1	2670 Nos.	As per list enclosed

1.Paid felling fee of Rs. **2,67,000/- vide receipt No. 32/651 dated 18/02/2019.**
2.Paid Security Deposit of **Rs.5,34,000 /- Vide Deposit Confirmation No. 006940600010250/1 dt.12/02/2019.**

TERMS AND CONDITIONS

1. The felling of trees should be carried out only after the receipt of all statutory permissions from the concerned authority as applicable to this project. A certificate to that effect may be submitted before start of felling.
2. Permission to fell the trees is granted at his/her own risk and without prejudice to claims of the other person/s who may be having any right over the land of trees.
3. In case of any claim/litigation about the ownership of the trees/land in question to the user agency will be solely responsible.
4. The Range Forest Officer, Collem shall mark the trees before cutting.
5. Date of beginning of felling of trees is to be intimated to Range Forest Officer, Collem well in advance.

Contd...2

96

6 After felling, each tree should be converted into logs/firewood as the case may be, LMB prepared, hammered and stacked at designated places within project site.

7 A separate register showing details of felling, needs to be maintained by the user agency. The same shall be produced to the officer inspecting the site.

8 Felling of trees shall be completed within 60 days.

9 Material produced from felled trees shall not be removed or disposed without permission of the Tree Officer.

10 The user agency shall replant 8010 trees as per details given below during the ensuing planting season i.e. commencing from June, 2019 to Sept, 2019 in the property or suitable site.

Sr. No.	Species	No.
	Misc-Species	8010

11 The event of failure on the part of permit holder to replant the trees as indicated the Trees Office shall take necessary action as per the Goa Preservation of Tree 1984.

IN THE HIGH COURT OF BOMBAY AT GOA

PIL WP No. /2020

Temporary No. LD-VC-CW-312-2020

GOA FOUNDATION ...Petitioner

Versus

STATE OF GOA AND ORS. ...Respondents

AFFIDAVIT IN REPLY OF THE RESPONDENT NO. 10

I, P.Krishnamurthy, major of age, Indian National, former Principal Secretary to the Chief Minister of Goa, the Respondent No. 10 herein above, having office at Office of the Advisor to the Administrator, Administration of UT of Lakshadweep, Kavaratti, Lakshadweep , do hereby on solemn affirmation state on oath as under:

1. I state that I have read and understood the contents of the said Petition and I am filing this reply in response thereto. I state that at the moment I am not dealing with each and every averment/contention raised in the petition, but only with the allegations made as against the Affiant and the contentions/averments which have not been traversed and/or denied by me may not be taken to have been admitted by me. I crave leave of this Hon'ble Court to file a detailed Affidavit, if required.

2. At the outset, I deny each and every averment set out by the Petitioner in the said petition, to the extent, the same are inconsistent with the case set out by me herein below.

3. I state that the present Public Interest Litigation has been filed by the Petitioner seeking, amongst others, an order quashing the approval dated 04/02/2019 of the Government of Goa under section 31 of the Goa Preservation of Trees Act, 1984.

4. I say that I was holding the office of the Principal Secretary to the Chief Minister from May 2017 to August 2020.

5. With respect to the contents of paragraph No. 17(1), I say that vide Note bearing No. 1/3/2018/CM/164 dated 28/02/2018 and Note bearing No. 1-2-2018/CM/165 dated 05/03/2018, Late Mr. Manohar Parrikar, the then Chief Minister of the State of Goa had authorized; the Principal Secretary to the Chief Minister i.e. the Affiant herein, and in the absence of the Principal Secretary to the Chief Minister, the Secretary to the Chief Minister; to record the decision/directions of the Chief Minister on the Government correspondence including files/notes and append their signature for disposal of Government business, during the absence of the Chief Minister. I say that the absence of the then Chief Minister at the relevant point of time was on Medical

grounds. Annexed hereto and marked as **Exhibit R-1 colly** are copies of the Notes dated 28/02/2018 and 05/03/2018.

6. I further say that vide Note bearing No. 1/3/2018/CM/183 dated 15/06/2018, Late Mr. Manohar Parrikar, the then Chief Minister of the State of Goa directed that despite his return to India, the same arrangement as directed vide Note bearing No. 1/3/2018/CM/164 dated 28/02/2018 and Note bearing No. 1-2-2018/CM/165 dated 05/03/2018 shall continue until further orders. Annexed hereto and marked as **Exhibit R-2** is a copy of the Note bearing No. 15/06/2018.

7. I further say that Vide Note bearing No. 1-3-2018/CM/ dated 31.12.2018, which was issued in furtherance of the Note bearing No. 1/3/2018/CM/164 dated 28/02/2018 and the Note bearing No. 1-2-2018/CM/165 dated 05/03/2018, photocopies of the noting sheets recording the decisions and directions of the Hon'ble Chief Minister as recorded by the Principal Secretary from 24th December, 2018 to 28th December 2018 were placed for the approval/confirmation of the Hon'ble Chief Minister. I say that the same were approved by the then Hon'ble Chief Minister. Annexed hereto and marked as **Exhibit R-3** is a copy of the Note dated 31/12/2018.

8. Additionally, I say that vide another Note bearing No. 1-3-2019/CM/ dated 13/02/2019, which was also issued in furtherance of the Note bearing No. 1/3/2018/CM/164 dated 28/02/2018, and the Note bearing No. 1-2-2018/CM/165 dated 05/03/2018, photocopies of the noting sheets recording the decisions and directions of the Hon'ble Chief Minister as recorded by the Principal Secretary from 4th February, 2019 to 10th February, 2019 were placed for the approval/confirmation of the Hon'ble Chief Minister. I say that the same were approved by the then Hon'ble Chief Minister. Annexed hereto and marked as Exhibit R-4 is a copy of the Note dated 13/02/2019.

9. With respect to the contents of paragraph No. 17(i) I say that the office of the Principal Secretary to the Chief Minister in light of the afore stated Notes issued was duly authorised by the then Chief Minister to record the decisions/directions of the Chief Minister on the Government correspondence which included files/notes. It is denied that the Affiant herein in his capacity as the Principal Secretary to the Chief Minister has taken a decision on the file. I say that in my capacity as the Principal Secretary to the then Chief Minister I have merely recorded the decision of the Chief Minister on the files/notes on the basis of

instructions to this effect from the then Chief Minister.

10. The contents of paragraph No. 17(m) of the petition are denied. It is denied that I have in my official Capacity as the Principal Secretary taken a decision on behalf of the Government of Goa. It is denied that the making of the endorsement or remark *'Chief Minister has approved'* is a totally fraudulent act on the part of the Affiant. I say that the making of the said endorsement/remark on the file noting is in consonance with the Note dated 28/02/2018 and the Note dated 05/03/2018. I reiterate that the Affiant has merely recorded the decision of the Chief Minister as is evident from the endorsement/remark itself which been made upon the file/note. I say that the said endorsement/remark is made upon the instructions to this effect from the Chief Minister and at no point of time has the Affiant expressed his own decision on the files.

11. The contents of paragraph No. 17(n) are denied. I state that the then Chief Minister had perused the file notings and thereafter communicated his decision to the Affiant. I say that the said Notes dated 28/02/2018 and 05/03/2018 pursuant to which the afore stated course of action was adopted was on account of the then Chief Ministers Medical condition. I say that the then Chief Minister was

advised to avoid physical contact with files/papers. I say that the Petitioners insinuations that the then Chief Minister was not in a medically fit condition to peruse and examine the file is ill founded and baseless.

12. I say that the then Hon'ble Chief Minister, late Mr. Manohar Parrikar, was in all senses and was taking decisions in his capacity as the Chief Minister till his unfortunate demise. I say that the then Hon'ble Chief Minister, Late Mr. Manohar Parrikar, had in fact even attended and given a speech at the inauguration of the Atal Setu on 27/01/2019.

13. I say that the decisions dated 26/12/2018 and 04/02/2019 for permission for felling of 2670 trees and granting exemption under section 31 of the Goa Preservation of Trees Act were taken by the then Hon'ble Chief Minister with full responsibility and all senses. I say that the then Chief Minister directed me to write the approvals on the file as per the authority given to me in the notes as aforesaid.

14. The contents of paragraph No. 17(o) are denied. It is denied that the Affiant, in his capacity as the Principal Secretary to the Chief Minister, has grossly abused powers or misused authority or has usurped the powers of the Government unto himself.

15. The contents of paragraph No. 17(p) are denied. It is denied that the act of the Affiant endorsing the decision of the then Chief Minister on the file pursuant to the Notes dated 28/02/2020 and 05/03/2020 is unconstitutional, unwarranted, without jurisdiction, unlawful or that the same has to be quashed and set aside.

16. It is denied that the Affiant i.e. the then Principal Secretary to the Chief Minister illegally signed and granted approval for exempting the said plot of land under section 31 of the Goa Preservation of Trees Act. I say that the Affiant in his capacity as the principal Secretary to the Chief Minister neither substituted nor took the place of the constitutional authority i.e. the Chief Minister of the State of Goa.

17. I herein reiterate that the Affiant did not exercise the jurisdiction of the Chief Minister to take a decision on the file. I say that the Affiant herein did not take a decision on behalf of the Government or the Chief Minister.

18. It is denied that the endorsement or remark '*Chief Minister has approved*' does not constitute any decision by the Government as required by law.

19. It is denied that the act of the Principal Secretary to the Chief Minister in recording the decision of the Chief Minister and appending his signature to the file/note pursuant to the Notes

dated 28/02/2020 and 05/03/2020 is unconstitutional, unwarranted, without jurisdiction and unlawful.

20. Therefore, in light of the afore stated facts and circumstances, I deny that the Petitioner is entitled to any of the reliefs prayed in the petition.

21. I say that what is stated by me in paragraphs 1 to 12, 13(part), 14(part), 15(part) and 16(part) of the Affidavit in Reply are true to my knowledge and the records maintained by me and the contents of paras 13(part), 14(part), 15(part), 16(part), 17 and 18(part) of the Affidavit in reply are legal submissions based on legal advice, which I believe to be true.

Solemnly affirmed at Kavaratti.

On this 27th day of November, 2020.

STATE OF GOA AND ORS.

...Respondents

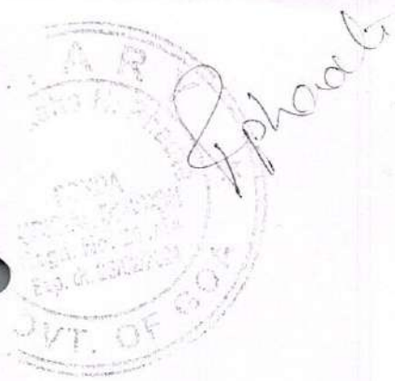
AFFIDAVIT IN REPLY OF THE RESPONDENT NO.2

I, Shri Anisha Kalkoor, M., major of age, Indian National, the Deputy Conservator of Forests, North Goa Forest Division, Government of Goa, the Respondent No. 2herein above, having office at Ponda-Goa, do hereby on solemn affirmation state on oath as under:

1. I say that I am presently working as the Deputy Conservator of Forests, North Goa Forest Division, Government of Goa, the Respondent No. 2, and I am authorized to file the present Affidavit on behalf on

Respondent No 1, 2 and 3. I state that I am filing the present affidavit based on the records available with my office and I am able to depose thereto.

2. I state that I have read and understood the contents of the said Petition and I am filing this reply in response thereto. I say that I am conversant with the facts and circumstances of the issues involved in the present petition. I state that at the moment I am not dealing with each and every averment/contention raised in the petition, but only with the allegations made as against the Affiants office and the contentions/averments which have not been traversed and/or denied by me may not be taken to have been admitted by me. I crave leave of this Hon'ble Court to file a detailed Affidavit, if required.



3. At the outset, I deny each and every averment set out by the Petitioner in the said petition, to the extent, the same are inconsistent with the case set out by me herein below.

4. I state that the present Public Interest Litigation has been filed by the Petitioner seeking, amongst others,

an order quashing the approval of the Government of Goa under section 31 of the Goa Preservation of Trees Act, 1984.

5. It is denied that the action of the Respondent Authorities in allowing the felling of the trees that were standing on the plot bearing survey No. 21/1, of village Sangod is malafide or that the same is in violation of the law in force.

6. The contents of paragraph Nos. 2, 3, 4, 10 and 4, are denied to the extent of the allegations levelled therein.

7. With respect to the contents of paragraph Nos. 13 to 17, I say that the Respondent No 9 vide letter dated 09/10/2018 applied under the Goa Daman and Diu Preservation of Trees Act, 1984 (*hereinafter referred to as the Goa Preservation of Trees Act*) to the Tree Officer, Deputy Conservator of Forests, North Goa Forest Division in the prescribed Form B for permission for felling of trees, spread in approximately 10.0 Ha area, under Sy. No. 21/1, of Sangod village.

8. I say that as per section 9 (3) of the Goa Preservation of Trees Act, '*no permission shall be granted to any person from the same area on more than two occasions during the same year subject to a maximum area of one hectare at a time.*'

9. I say that the Application dated 09/10/2018 of the Respondent No. 9 was returned in light of sub section 3 of section 9 of the Goa Preservation of Trees Act, in furtherance to which the Respondent No.9 vide letter dated 17/10/2018 informed that for the purpose of the project they require a minimum area of 13.00 Ha and are unable to reduce the said area requirement on the ground that the same is mandated by the Electricity Act and Rules for the purpose of maintenance of adequate safety at the sub-station installations.

10. I say that vide letter dated 01/11/2018 the Tree officer also asked the Respondent No. 9 to examine alternative lands in response to which the Respondent No.9 vide letter dated 05.11.2018 expressed its inability for getting an alternative site.

11.I say that the Goa Preservation of Trees Act restricts felling of trees in an area more than one hectare in a year and the area required for the public utility project by the Respondent No.9 was more than one hectare. Therefore, as per provisions of section 9 of the Goa Preservation of Trees Act permission for felling of the trees, spread over an area of 10.30 Ha, could not be granted.

12.I say that Section (31) of the Goa Preservation of Trees Act provides that "*Government may exempt subject to such conditions, if any, as may be imposed, if it considers it necessary so to do in the public interest, by notification, any area or any species of the trees from all or any of the provisions of this Act*". I say that since the project is a Public interest project on non-forest private land the case was processed as per section 31 of the Goa Daman Diu (Tree Preservation) Act, 1984 for exemption of the provisions of the section 9 of the Goa Preservation of Trees Act. It is highlighted that exemption was sought upon considering only one parameter i.e. the area, because as per the provision of the Goa Preservation of Trees Act permission for felling of trees above one hectare cannot be allowed in

This is the crux of the reason for large scale felling

one year and the area required for the proposed public utility project was more than one hectare. I say that all other provisions of the Goa Daman Diu (Tree Preservation) Act, 1984 like planting of adequate number of trees in lieu of trees felled, transit of felled material and others provisions of the Goa Preservation of Trees Act were followed in letter and spirit.

13.I say that at the time of submission of application for felling of trees spread over an area of 10.03 Ha, the Respondent No.9 has not informed about conversion of this area. I say that as on date no NOC has been granted by the Respondent No. 2 for any Conversion of the land bearing survey No. 21/1 of Sangod Village. I say that conversion cases, for NOC, as and when received by the Respondent No.2 are being processed as per the directions of the Hon'ble Apex Court dated 04th February, 2015 and in terms of the law in force.

Seconding appeal

14.I say that the Hon'ble Apex Court vide its Order dated 04th February, 2015 passed in Civil Appeal No. 37942/2014 has directed that "*In the meanwhile, we direct that the respondents herein will not issue any 'No Objection Certificate(s)' for the conversion of any*

plot that has natural vegetation with tree canopy density in excess of 0.1 and an area above one hectare".

15.I most respectfully submit that the Hon'ble Apex Court vide order dated 04/02/2015 has restricted conversion of land alone; it has not restricted felling of trees on private non forest land above one hectare in area. As stated hereinabove the plot bearing survey number 21/1 is neither a Government forest nor has it been identified as a private forest by any of the committees constituted for the purpose of identification of Private Forest. Further, it also does not satisfy the criteria adopted by the Goa Government for identification of private forest.

Third aspect

16.I say that, it is denied that the plot acquired by the Respondent No. 9 has natural vegetation with canopy density of over 80% or that almost all of the tree species found on the plot were forest species. It is unknown as to on what basis the petitioner has arrived at the conclusion that the canopy density of the plot acquired by the Respondent No. 9 is over 80%. In the list of trees provided, it is very much evident that more

Fourth aspect

than 1,200 trees were distributed over an area of about 10 ha and the said trees had a 50 cms or less Girth at Breast Height (GBH).

17. It is denied that the Forest Department set into motion an unprecedented elaborate approval process in order to bypass both the Forest Conservation Act, 1980 as well as the Goa Preservation of Trees Act. I submit that the Provisions of the Goa Preservation of Trees Act, 1984 have been strictly complied with in the present case. I say that no attempt has been made by the Forest Department to circumvent the provisions of the Goa Preservation of Trees Act, 1984.

18. I submit that the Goa Preservation of Trees Act itself empowers the Government to exempt any area or any species of trees from all or any of the provisions of the said Act. I say that the plot bearing survey No. 21/1 of Village Sangod has been exempted from the Application of the provisions of section (9) of the Goa Preservation of Trees Act.

19. With respect to the contents of paragraph Nos. 17(d) & (e), I say that the property bearing survey No. 21/1 of

village Sangod has not been identified as a Private Forest either by the Sawant Committee or the Karapurkar Committee as the said property did not meet the criteria as laid down by the State of Goa for identification of Private Forest.

20. I say that the petitioners have erroneously placed reliance upon the report of the North Goa Forest Division Committee which is at Annexure 9 of the present petition and tried to mislead this Hon'ble Court that survey number 21/1 has been identified as a private forest by the North Goa Forest Division Committee. I say that the property bearing survey No 21/1 of Sangod has not been identified as a private forest by any expert committees, including the North Goa Forest Committee.

21. I submit that the process of identification and demarcation of the private Forest area as identified by the Sawant and Karapurkar Committee was being monitored by the Hon'ble National Green Tribunal, in Original Application No.479/2018 (Earlier O.A. No. 18/2013(THC)(WZ)) wherein the Petitioners herein were the Applicants therein. I say that in pursuance to

the directions of the Hon'ble NGT, the Forest Department submitted periodic progress reports to the Hon'ble NGT. I say that the Report at Annexure 9 of the present petition is one such report. In the said report also there is no specific mention of Survey No 21/1 but it is stated is 'parts of Survey Numbers 21…' and not survey No. 21/1 as is allegedly claimed to be identified as private forest.

22. I say that vide Judgment and Order dated 18/08/2020 passed in the Original Application No.479/2018 (Earlier O.A. No. 18/2013(THC)(WZ)) the report of the Sharma Committee which has finally demarcated the private forests as identified by the Sawant and Karapurkar Committee has been accepted in totality.

23. Further review of private forest areas identified by the Thomas and Auraujo committees is under progress by the committee headed by the Chief Conservator of Forests. I say that the Petitioners herein are the Original Applicants in the said Original Application bearing No.479/2018 (Earlier O.A. No. 18/2013(THC)(WZ)) before the Hon'ble NGT. I therefore respectfully submit that despite being aware

of the Judgment and Order dated 18/08/2020 passed by the Hon'ble NGT in Original Application No.479/2018 (Earlier O.A. No. 18/2013(THC)(WZ)) the Petitioners have sought to mislead this Hon'ble Court by placing reliance upon the interim progress report.

24. With respect to the contents of paragraph No. 17(f), I say that pursuant to the directions of this Hon'ble Court as well as the Hon'ble Supreme Court to locate, identify and demarcate private forest areas, the State of Goa has undertaken the exercise of demarcation of forest area on private land. I say that in January 1997 the First Committee i.e. the Sawant Committee was constituted for the purpose of identification of Private Forests in the State of Goa. I say that thereafter, at different points in time, three other Committees came to be constituted to complete the task of identification of Private Forests in the State of Goa; namely the Karapurkar Committee, Thomas Committee and the Araujo Committee. I say that thereafter 2 review Committees were constituted to review the findings of the Sawant and Karapurkar Committee and a new Committee has been constituted to review the findings of the Thomas and Araujo Committee. I say that the

plot of land in question has not been identified by any of these Committees as a Private Forest. It is most respectfully denied that the Hon'ble Apex Court vide Order dated 04/02/2015 has laid down the criteria for identification of private forest.

25. With respect to the contents of paragraph No. 17(h) I say that in the ordinary course of activities of the Forest Department description of trees is ordinarily done with reference to the girth of the trees. It is denied that the said documents have been tampered with.

26. With respect to the contents of paragraph No.17 (k) it is denied that section 31 of the Goa Preservation of Trees Act cannot apply to Private Land and is only applicable to Government Land. Firstly, I say that section 31 of the Goa Preservation of Trees Act, 1984 in clear and unambiguous terms provides as follows;

'*Section 31.**Power of the Government to exempt.**— Subject to such conditions, if any, as may be imposed, the Government may, if it considers it necessary so to do in the public interest, by notification, exempt any*

area *or any species of trees from all or any of the provisions of this Act.'*

I say that the word 'any area' as found in section 31 makes it abundantly clear that the exemption under section 31 can be claimed qua a private land as well.

27. Secondly, I submit that section 30 of the Goa Preservation of Trees Act reads as follows;

'Section 30- ***Act not to apply to certain areas.***— *Nothing in this Act shall apply to the Government, a Government forest under the control of the Forest Department, a forest or forest land notified under the Indian Forest Act1927.'*

Therefore, is submit that the allegation that section 31 of the Goa Preservation of Trees Act is not applicable to private land but only to Government Land is ill founded, as the provisions of the Preservation of Trees Act in any event do not apply to the Government, a Government Forest or an area notified as a forest under the Indian Forest Act.

28. Thirdly, I submit that even if it is assumed without admitting that the Circular dated 15/11/1991 provides that section 31 of the Goa Preservation of Trees Act is

not applicable to private lands, I submit that a Circular cannot override the statutory provisions. I further reiterate that the land bearing survey No. 21/1 is neither a Government Forest area nor any other forest area, hence neither are the provisions of clause 3 of the said Circular dated 15/11/1991 attracted to the present case.

29. With respect to the contents of paragraph No. 17. (q) I say that the Notification under section 31 of the Goa Preservation of Trees Act has been issued. Annexed hereto and marked as **Exhibit R-1** is a copy of the said Notification.

30. It is denied that the Order of the Hon'ble Supreme Court has been subverted and sabotaged.

31. I say that Section (10) Goa Daman Diu (Preservation of Trees) Act 1984 provides an obligation to plant trees by the person who is granted permission to fell tree under the Act. I say that accordingly, the Respondent No. 2 asked the Respondent No. 9 to plant 8,010 trees of miscellaneous species. I say that accordingly, the Respondent No. 9 has undertaken

plantation of 8,010 saplings in lieu of felling of 2,670 trees. Annexed hereto and marked as **Exhibit R-2** is a copy of the photographs of the said plantation carried out by the Respondent No. 9. I say that the Respondent No. 2 has verified the plantation of the 8,010 saplings undertaken by the Respondent No. 9.

32. It is denied that the Forest Department was duty bound to refer the file to the MoEF&CC for clearance under the provisions of the Forest Conservation Act, 1980. I say that an application was made under the Goa Preservation of Trees Act, 1984 as the land in question was private non forest land and the said plot has not been notified as a private forest area by any committees. Further, it also does not satisfy the criteria adopted by the Goa Government for identification of private forest. Hence, it is denied that illegal diversion of the plot has occurred in violation of the provisions of the Forest Conservation Act, 1980.

33. I say that the plot of land in question bearing Sy No. 21/1 has not been identified by any of the expert Committees as a Private Forest. I submit that the Committees constituted of experts in the said field. I

say that the Judgment and order of the Hon'ble National Green Tribunal has finalized the identification and demarcation of private forest land in Goa as identified by the Sawant and the Karapurkar Committees. Further, review of private forest areas identified by Thomas and Araujo committees is under progress by a committee headed by the Chief Conservator of Forests. However, the plot bearing survey No. 21/1 has neither been identified as a Private forest by the Thomas or the Aurajo committee. I respectfully submit that the Petitioner seeks to indirectly challenge/review/modify the Judgment and Order dated 18/08/2020 of the Hon'ble National Green Tribunal passed in Original Application bearing No.479/2018 (Earlier O.A. No. 18/2013(THC)(WZ))before this Hon'ble Court vide the present petition. I submit that the same is not permissible in law and is a clear abuse of the process of the law. Annexed hereto and marked as **Exhibit R-3** is a copy of the Judgment and Order dated 18/08/2020.

34. Therefore, in light of the above stated facts and circumstances, I deny that the Petitioner is entitled to any of the reliefs prayed in the petition.

35.I say that what is stated by me in paragraphs 1 to 4, 5(part). 6 to 16, 17(part), 18(part), 19 to 25, 29 to 31, 32(part) and 33(part) of the Affidavit in Reply are true to my knowledge and based on the records maintained by my office to which I have access and the contents of paras 5(part), 17(part), 18(part), 26 to 28, 32(part), 33(part) and 34 of the Affidavit in reply are legal submissions based on legal advice, which I believe to be true.

Solemnly affirmed at Ponda Panaji, Goa.

No. DCFN/CLM-10/2020-21/4773 Dated: 06/01/2021

NOTIFICATION

In exercise of the powers conferred by Section 31 of the Goa, Daman and Diu Preservation of Trees Act, 1984 (Act No 6 of 1984) (hereinafter referred to as the "Said Act"), the Government of Goa considering it necessary so to do in the public interest, hereby exempts the area surveyed under Survey. No.21/1 of village Sangod of Dharbandora Taluka, District South Goa, State of Goa, under the management and control of Goa Tamnar Transmission Project Ltd., from provisions of section 9 of the said Act, subject to the following condition, namely:-

(i) That an intimation shall be sent to the concerned Tree Officer at least a fortnight before felling of any tree in the said area along with the details of the species-wise number of trees which are to be felled, their age and size;

(ii) The tree felled shall not be removed from the said area until an inspection is carried out by Tree Officer and permission is granted by him for transportation of felled material;

(iii) The Goa Tamnar Transmission Project Ltd. shall plant trees as directed by the Tree Officer in such vacant spaces allotted by the Tree Officer and under his supervision.

This Notification shall come into force with immediate effect.

By order and in the name of
the Governor of Goa.

1. Whether the judgment is allowed to be published on the net?
2. Whether the judgment is allowed to be published in the NGT Reporter?

SHEO KUMAR SINGH J.

1. This case was originally filed as Writ Petition No. 673/2008 in the High Court of Judicature Bombay Goa Bench at Panaji on 15.10.2008 challenging the consolidated report of the Goa Forest Department regarding demarcated private forests of Goa. The relief sought in the Writ Petition were as follows:

> *"a. For a writ or order setting aside the consolidated demarcation report (Annexure D/Annexure K), wholly or in part.*
>
> *b. For an order or writ directing the Respondents to file a fresh report indicating demarcation of non-forest area from forest area solely in respect of survey numbers partially identified as forest that are listed in the Sawant and Karapurkar Committee Reports*

e. Pending hearing and final disposal of this petition, for an order restraining the Respondent no. 5 from acting on the letter dated 08.07.2008 of the Forest Department.

f. for Costs of this Petition;

g. for any other reliefs this Hon'ble Court may be please to grant."

2. The Hon'ble High Court transferred this matter to the National Green Tribunal vide their order dated 17.10.2013 which reads as under:

"Considering the reliefs sought and the averments in the petitions, we are of the view that the petitions should be transferred to the National Green Tribunal constituted under the National Green Tribunal Act, 2010. The Registrar (Judicial) is requested to take necessary steps to implement this order."

3. Thereafter, the case was listed as O.A No. 18(THC) of 2013 at Western Zonal Bench on 30.10.2013. The applicant in the present application has raised "substantial questions relating to the environment" connected with implementation of the Forest Conservation Act, 1980 in the State of Goa and enforcement of the directives of the Hon'ble Supreme Court in the *Godavarman* matter. This application is being filed to challenge the consolidated report of the Goa Forest Department which purports to show the demarcated private forest of Goa in terms of the directions given in the order of the High Court dated 02.07.2003 in MCA No. 350/2003 in Writ Petition No. 286/2003. The applicant in their application has submitted as follows:

"4. In January 1997, the Government of Goa set up the Sawant Committee comprising forest officials and other experts to implement the directions of the apex court dated 12.12.1996 in Writ Petition No. 202/1995 (Godavarman Thirumulkpad Vs. UOI) in respect of identification of forest areas in the state. The Committee submitted its report on 08.12.1999.

5. The State Government was thereafter prevailed upon by certain

Petition No. 181/2001 is hereto annexed to this petition as Annexure A

6. Pursuant to the said order, the Karapurkar Committee restricted its work to identification of additional areas only. A total of 67 sq km was identified by both these committees and these reports are now in the record of the Supreme Court of India in Writ Petition No. 202/1995. Nothing in these reports can be modified without the express approval of the Supreme Court of India.

7. The Petition filed in the apex court was thereafter disposed of by order dated 10.02.2006 which is hereby annexed to this petition as Annexure B. Pursuant to the said order, writ petition No. 334/2006 has been filed by the applicant and is pending adjudication before the Hon'ble High Court.

8. As the State Government was not accepting any of the two Expert Committee reports, this applicant filed application No. 350/2003 in a pending wrt petition No. 286/2003. WP NO. 286/2003 challenges development on a plot of land identified as forest by the Karapurkar Committee. The application was filed on the grounds that permissions are continuously being given for development of land despite the areas being identified as forest by the Sawant or Karapurkar Committee. In the light of the allegation of the applicants, the Hon'ble High Court directed a freeze on any approval for further development or change of zoning in survey numbers identified as forest by the Karapurkar and Sawant Committees. The order dated 02.07.2003, the Hon'ble Court directed the State of Goa to demarcate the non-forest areas from the forest areas based on the Sawant and Karapurkar Committee reports and submit the same to the court within six months. Eventually, the Department took more than five years. The Consolidated final report was submitted to the Hon'ble High Court annexed to an affidavit dated 30.06.2008 of the Chief Conservator of Forest. Copy of the affidavit and consolidated report (hereinafter referred to as the "impugned report") is annexed to this petition as annexure D. It is this report which is sought to be challenged in this application.

9. The impugned report was taken on record by the Hon'ble Court by its order dated 07.07.2008. On that day itself, the applicant expressed alarm over the gross discrepancy between the forest land demarcated now by the ground survey team and the area identified as forest by the Sawant and Karapurkar Committees (hereinafter, "expert committees".

10. Thereupon, applicant amended its writ petition and also filed a detailed affidavit objecting to parts of the impugned report. By its orders dated 22.09.2008/23.09.2008, the Hon'ble Court permitted this applicant to file a fresh, substantive petition in which the report of demarcation of forests could be taken up independently of the challenges posed to development of a few survey numbers."

c. Issues an order directing the respodnents to file a separate report in respect of additional or new survey numbers identified as forest by the Forest Department while conducting the demarcation exercise. This report to be filed within an urgent time-frame.

d. Any other reliefs this Hon'ble Tribunal may be pleased to grant.

5. The Hon'ble Supreme Court in the Writ Petition (Civil) No. 181/2001 had ordered on 04.05.2001 that no action be taken contrary to the final report of Sawant Committee. Thereafter, the Hon'ble Supreme Court while deciding the Writ Petition (Civil) No. 181/2001 on 10.02.2006 had ordered as below:

"This petition was filed in the year 2001 primarily challenging the appointment of Karapurkar Committee. I.A. No. 3 has been filed, inter alila, contending that despite two Committee Reports (Sawant Committee and Karapurkar Committee), bulk of private forest in the State of Goa still remains to be identified and the same is being sacrificed in collusion with developers and vested interest persons and no action has been taken by the State Government to set up a fresh Committee that will bring a finality to the survey of private forests in the State of Goa in compliance with the order dated 12th December, 1996, passed in Writ Petition (c) No. 202 of 1995. In substance, the prayer in the application is for appointment of another Committee or for consideration of the issue by the Central Empowered Committee to identify the private forests. These issues, we are afraid, do not arise out of the writ petition which has become infructuous on Karapurkar Committee and Sawant Committee having submitted their Reports. In case, the petitioner has any further relief to seek, it may, in accordance with law, file a fresh substantive petition before an appropriate forum which would be considered on its own merits. The writ petition is disposed of, it having become infructuous. I.A No. 3 is also disposed of accordingly. "

6. The process of identification of private forest in the State of Goa was started in the Year 1997, with constitution of S.M. Sawant Committee on 24.01.1997, pursuant to the Hon'ble Supreme Court's order dated 12.12.1996 in Writ Petition (Civil) No. 202/1995, T.N. Godavarman Thirumalpad Vs. Union of India and others. Vide this order Hon'ble Supreme Court had directed that each State Government should constitute within one month an Expert

iii) Identify areas covered by plantation trees belonging to the Government and those belonging to private persons."

7. Since there was no record of private forests in the State of Goa, the Sawant Committee was governed by the criteria adopted by State of Goa in 1991 based on High Court of Bombay judgment in Writ Petition No. 162/1987, Shivanand Salgaonkar Vs. Tree Officer & others. The criteria was as follows:

"i) 75 % of the tree Composition of such lands should be of Forestry species;

ii) The area should be either contiguous to the Government Forest lands or if in insolation, the minimum area identified should be 5 ha; and

iii) Canopy density should not be less than 0.4."

8. The Sawant Committee submitted its final report on 10.12.1999, identifying 46.60 sq km area as private forest. However, the Committee itself clarified in its report that the report is an approximation and that before finalizing, the State Government would have to carry out actual ground verification to determine the extent of Private Forests (Fulfilling the above three criteria) existing. Also it was clarified that the area identified by them is not exhaustive and still more areas might have remained unidentified.

9. Upon examination of the Sawant Committee report, the State Government decided that the work is not complete and many more areas were yet to be identified. The State Government, therefore, decided to constitute another Committee vide order No. 10/40/(PART-I)/FE/96 dated 04.09.2000 under the chairmanship of Dr. Hemant Karapurkar to demarcate and delimit all those private properties having natural forests standing thereon and to

gave assurance to the Apex Court that Karapurkar Committee was working towards identification of the additional areas, so as to complete the task that remained uncompleted by Sawant Committee. Subsequently, the Hon'ble Supreme Court appreciated the additional work done by the Committee and directed to submit report by January, 2003. Since Considerable time was lapsed due to this PIL, the Karapurkar Committee could resume its works only in February, 2002 and the Committee could not go beyond identification of survey numbers. The Karapurkar Committee submitted its report, identifying 20.52 sq km of additional Private Forest areas in the State on 16.12.2002.

10. Thus the total area of Private Forests identified by both the Committees was 67.12 sq km. Both the Committees had identified the Private Forest areas based on approximation and had suggested an exhaustive survey to find out the actual extent. While the State Government was contemplating the required action on above mentioned two reports, the Hon'ble High Court of Bombay at Goa passed an Order dated 02.07.2003 in MCA No. 350/2003 in Writ Petition No. 286/2003 directing the State Government to demarcate the non-Forest areas from Forest areas on the basis of Sawant and Karapurkar Committee reports.

11. It is worthwhile to mention that on 02.07.2003 Hon'ble High Court of Bombay at Goa in Writ Petition No. 286/2003 had, *inter alia*, directed the State Government as under:

> *"3) ....To demarcate the non-forest areas from the forest areas based on either Sawant Committee or Karapurkar Committee reports and submit the same to this Court within six months from today."*

12. Pursuant to the 07.07.2003 order of Hon'ble High Court of Bombay at

demarcation report was challenged before the Hon'ble High Court in Writ Petition No. 673/2008 by the present applicant, namely, Goa Foundation stating that there is a reduction in the private forest area from area identified and demarcated by both Sawant Committee and Karapurkar Committee.

13. When this matter came up before the National Green Tribunal at Western Zonal Bench on 07.01.2016 following directions were passed:

> *''We are constrained, therefore, to direct that the above Government authorities and the higher authorities in the State Department such as Secretary of the Forest Department, Secretary of the Revenue Department and DLSR would constitute a committee within four (04) weeks and evolve internal mechanism to demarcate it private forest areas in each of the land which is recognised as full and private forest by Karapurkar Sawant Committee. The aforesaid committees need not wait for any further directions, in this context, of the Apex Court in as much as even if the issue is decided by the Apex Court, in any manner, the final outcome of demarcation may not impact rights of the parties because the private owners may seek remeasurement to the extent of the private lands for delineation of the private forests, seeking exclusion of the excessive lands for which the liberty is granted. In the above circumstances, Stand Over to 11th March, 2016"*

14. In pursuance of this order of National Green Tribunal dated 07.01.2016, the Government of Goa constituted a new Committee (Sharma Committee) to review the private forest area identified by the earlier Sawant and Karapurkar Committee and the final results of the review Committee are as follows:

> *"5.1 The Sawant Committee identified 46.60 sq km area as private forest. The Karapurkar Committee identified 20.52 sq km of additional Private Forest area in the State. Thus the Total area of Private Forests identified by both the Committees was 67.12 sq km. Both the Committees had identified the Private Forest areas based on approximation and had suggested an exhaustive survey tofind out the actual extent. As per the demarcation report of earlier demarcation team of Forest Department the actually surveyed and demarcated*

Map/Classified image of year 2003, an area of 9.72 sq km out total 34.28 sq km area, was found to be qualifying the canopy density criteria, however on ground verification for 75 % species composition criteria, out of this 9.72 sq km area, an area of 4.91 sq. km was found to be qualifying all the three criteria of Private Forest. The Taluka wise detail of this 4.91 sq km area is as follows:

Sr No	Taluka	Total Private forest area on review (ha)
1	Pernem	9.31
2	Bardez	40.53
3	Tiswadi	144.80
4	Bicholim	1.90
5	Sattari	41.55
6	Ponda	37.31
7	Dharbandora	46.38
8	Sanguem	93.21
9	Marmugao	29.05
10	Salcete	9.61
11	Quepem	9.36
12	Cancona	28.06
	Total	491.09 ha Or 4.91 sq km

5.3 After field verification and analysis of field data with respect to Forest Cover Map/Classified image of Year 2003, out of total 92 villages of 12 talukas under review, in 52 villages, an additional area of 4.91 sq km has been found to be qualifying all three private forest criteria by the Review Committee. Therefore out of total 67.12 sq km referred area by Sawant and Karapurkar Committee, the Review Committee has identified an area of 46.11 sq km as Private Forest of Goa."

15. The Principal Chief Conservator of Forest, State of Goa- Respondent no. 1 and 2 in compliance of our order dated 04.03.2020 filed a status report. It has been submitted in the status report that considering the principles of natural justices, the State of Goa vide notification dated 23.08.2019 constituted another Committee under the Chairmanship of Joint Secretary, (Revenue) to finalise a report on private forest submitted by the Private Forest

Committee) submitted its complete final report on 13.03.2020. As per the report of JS (Revenue) Committee, the abstract of review of private forest areas identified by earlier Sawant and Karapurkar Committees is as below:

A-	Private forest area identified by Sawant and Karapurkar Committees by ocular survey.	67.12 sq kms
B-	Private forest area demarcated by forest department from 67.12 sq kms from 2003-2008	41.20 sq kms
C-	Differences in areas identified by both Committees and demarcated by Forest Department	25.92 sq kms
D-	Area identified by Review Committee out of 25.92 sq kms	4.91 sq kms

Work carried by the JS (Revenue) Committee is as under:

SL no.	I	II	Remarks
I)	Area in which none filed objections before the JS (Revenue) Committee	2.90 sq kms	Taken as Private Forests.
II)	Area in which objections received by JS (Revenue) Committee out of 4.91 sq kms	2.01 sq kms	
III)	Area found qualifying the criteria for private forests by JS (Revenue) Committee	0.97 sq kms	Taken as Private forest.
IV)	Area found not qualifying the criteria for private forests by JS (Revenue) Committee	1.04 sq kms	
V)	Total Area found qualifying the criteria of private forests in respect of Sawant and Karapurkar Committees	41.20 + 2.90 + 0.97 =45.07 sq. kms	

16. It has been stated in the JS (Revenue) Committee (D'Souza Committee) report that no objections were received for an area of 2.90 sq km out of 4.91 sq

17. It has been stated in the JS (Revenue) Committee's Report that the issue of identification of land as private forest can be done only if the entire survey holding of the affected party is demarcated and taken up for tree count. Doing the work in patches as done by the Review Committee may be suitable to complete the work, however, it is not fair to the land owner who may be affected due to identification of his or her land as private forest. The Committee was of the opinion that private forest had to be identified rationally keeping in mind the directives of the Hon'ble Apex Court. However, while implementing the directives of the Hon'ble Apex Court designating any person's land having a dwelling house/structure used for residential or commercial purpose or land falling under settlement zone with land conversion certificate as Private Forest land is not desirable. There should be no scope for any ocular identification of Private Forest or identification by patch sample method in residential, settlement areas, etc. Each and every property identified as Private Forest in such areas due to which development activity may have been barred might eventually have to be taken up for payment of compensation either monetary or by providing alternate land to the affected land owners.

18. On perusal of a report of the various Committees i.e, Sawant Committee, Karapurkar Committee, Private Forest Review Committee and Joint Secretary (Revenue) Committee and after the submissions made by the parties at both sides we are of the considered opinion that total of 46.11 sq kms i.e., (41.20 sq km of the forest area demarcated by the Forest Department out of 67.12 sq km identified by Sawant Committee and Karapurkar Committee + 4.91 sq km private forest area identified by the Review Committee) is the private forest area in the State of Goa.

respondent to challenge the report to the extent that it concerns its property in appropriate legal proceedings. The applicant has annexed a copy of the letter dated 07.12.2005 and dated 23.06.2014, copy of the order dated 07.01.2016 passed by this Tribunal, copy of the letter dated 06.06.2019 from the answering respondent to the Review Committee, copy of the GIS Map superimposed on the State survey report letter of objection dated 10.09.2019, letter dated 30.09.2019, Written Submission dated 09.10.2019 placed by the answering respondent before the Committee constituted to finalized the private forest, additional written submission dated 11.10.2019 placed by the answering respondent before the Committee, copy of the letter dated 12.02.2020 from the answering respondent before the Committee, copy of the letter dated 13.06.2001 and 19.06.2008 from the answering respondent to the State of Goa. The perusal of all records reveals that the applicant is agitating the matter from 2008 till yet and was part of the proceedings and has moved an application, objection, reply, written submission and was given opportunity of hearing at every stage either before the State Government or before the Committees. His applications/ objections and documents placed before the Committee or State was duly considered and was heard and decided thus he cannot say that he was not given opportunity of hearing. As narrated in the paragraph 5 of the application, the detail discussion with regard to the property of the respondent has been discussed by the Committee. It is further narrated that in 2005, a representative of the State Government visited the Respondent's property and intimated them that the State Government would be surveying the property for designation either private forest and consequently the answering respondent on 07.12.2005 addressed a letter to the Deputy

reveals that every stage of proceedings, the applicant participated in the matter and filed objection and his objection and reply was duly considered by the Committee thus application for further hearing when this Tribunal is at the stage of finalizing the matter which is pending from the decades is not maintainable. Thus the application is disposed of accordingly.

20. Another application I.A No. 254/2020 was filed by Lucindo D.A. De Faria on 05.08.2020 with the prayer that the Respondent no. 1 and 2 be directed to further inspect and demarcate its land individually with regard to the plot mentioned in the application. The perusal of record reveals that the matter has contested in separate application and also the SLP has been filed before the Hon'ble Supreme Court. Learned Counsel for the State had submitted that the matter is pending from the decades and for 4 times the Committees was constituted i) Karapurkar Committee, ii) Sawant Committee, iii) Sharma Committee and iv) D'Souza Committee and now matter should be taken at rest and be finalized and any person aggrieved after the notification of the State may approach the Competent Authority for redressal of his grievances. From the perusal of report of the Review Committee headed by Ms. Deepshikha Sharma (herein after called 'Sharma Committee') which was submitted to the Government of Goa on 21.06.2019 and D'Souza Committee headed by Shri Anthony D'Souza (herein after called D'Souza Committee) it appears that there is only an area of 1.04 sq kms from Sawant and Karapurkar Committee which is a matter of discrepancy between the Sharma and D'Souza Committee. The Sharma Committee recorded it as Private Forest, the D'Souza Committee concludes it is not forest. This is only one of the issues which are dealt here.

21. It is necessary and to decide the matter finally which has been pending

which took more than two years from 2005 to 2008 to complete the task. It was found that the demarcation exercise dramatically reduce the original forest area identified by Sawant and Karapurkar Committee, it immediately was challenged by filing the writ petition in 2008. The perusal of the report reveals that none of the three demarcation Committee first Forest Department second Sharma Committee and third D'Souza Committee have found the total original area of 67.12 sq km identified by Sawant and Karapurkar Committee to qualify as forest based on the three criteria adopted by the Forest Department for the purpose, namely, the plot should be minimum 5 ha area, have minimum 75 % forest species and minimum 0.4/40 % canopy density. Hence, the 67.12 sq km that was identified as a private forest between the Year 1997 to 2002 have been reduced by all the demarcation Committee by around 20 sq km. It is further that the matter has been raised before the Hon'ble Apex Court and Hon'ble Supreme Court has, however, passed an interim order restraining grant of any conversion permission for any wooded line with canopy density above 0.1 (10%) and having area above 1 ha. It is agreed between the parties that the matter which is pending before the Hon'ble Supreme Court, will be governed by the decision passed by the Hon'ble Supreme Court. It is further submitted that D'Souza Committee has accepted 2.90 sq km identified by the Sharma Committee as forest and since as per report submitted by the Principal Chief Conservator of Forest notice has been issued and no objection has been submitted thus this is also finalized and to be added as a private forest. It is to be noted that Sharma Committee was constituted in accordance with the direction issued by this Tribunal and was constituted by the State Government which comprised Senior Forest Officials chaired by Deputy Conservator of

disclosed its methodology to this Tribunal and interim report filed by the Committee was submitted to the Government which was neither denied nor rejected and pending for final disposal. For finalization of this matter the State Government, infact deployed a total of 100 Executive Staff comprising 12 Range Forest Officials, 12 Round Foresters, 71 Forest Guards, 4 Surveyors from DSLR with 22 Vehicle for movement and this Team was visited 113 Villages in 12 Talukas of Goa across an affected area of 32.85 sq km. It is further argued that this ground verification came after the Sharma Committee on the basis of digitization of the private forest area identified and superimposition of the digitised data on satellite imaginaries obtained from Forest Survey of India, Dehradun, an interpretation of the Forest Cover Data based on canopy, density classification. A copy of the Civil Appeal No. 37942/2014 in the matter of Goa Foundation Vs. State of Goa and others order dated 04.02.2015 whereby there was a direction *"in the meanwhile, we direct that the respondents herein will not issue any no objection certificate for the conversion of any plot that the natural vegetation with tree canopy density in excess of 0.1 and an area above 1 ha"* have been passed.

22. With reference to the application I.A 254/2020 filed by the applicant, the forestry status of the plot as submitted has been decided and conform and after detail hearing given to the parties it has been finally heard and decided. The Judgment resolved and determined all the issues now sought to be re-agitated by Lucindo D.A. De Faria in the matter, this Tribunal determined that 12.61 ha of the applicant property is forest and demarcated by the Forest Department. The Applicant has not disclosed these facts in his application. The copy of the order passed by this Tribunal in application no. 22(THC)/2013

survey numbers of Mapusa town which is claimed to be forest in nature, without any order for diversion of forest under the provisions of Forest Conservation Act, 1980.

2. Brief facts of stated in the Application are as follows: The land in question, (hereinafter called "the plot"), comprising of S.Nos. Chalta No.20 of PT Sheet No.47, Chalta No.38 of PT Sheet No.47, Chalta No.49 of PT Sheet No.48, Chalta No.29 of PT Sheet No.47, Chalta No.8 of PT Sheet No.47, Chalta No.6 of PT Sheet No.47, Chalta No.10 of PT Sheet No.47 and Chalta of PT Sheet No.47 is located at Xelpem and is within the jurisdiction of Mapusa Municipal Council. The Applicants submit that the Sawant and Karapurkar Committees which were formed to identify the private forest areas of State of Goa, have already submitted their Reports and these reports are before the Hon'ble Apex Court. The Applicants claim that the Karapurkar Committee Report identifies the above survey numbers as Forests and therefore, no further development activities can be permitted in the said plot without prior approval under the Forest Conservation Act. The Applicants allege that during the year 2000, the Respondent Nos.9 to 11 were able to secure several permissions to fell trees on the plot and the trees were felled under cause of "re-plantation". The Applicants, therefore, requested the Chief Conservator of Forest Goa, to enforce the provisions of Forest Conservator Act, 1980 on the said survey numbers as they had been identified as "forest" by Karapurkar Committee. Considering the above facts, the Applicants have prayed for:

> " an order or order in the nature of a writ directing the Respondent Nos.2,3,5,7,8,9 to 11 jointly and severally to restore survey Chalta No.20 of PT sheet No.47, Chalta No.38 of PT Sheet No.47, Chalta No.49 of PT Sheet No.48, Chalta No.29 of PT sheet No.47, Chalta No.8 of PT Sheet No.47, Chalta No.6 of PT Sheet No.47, Chalta No.10 of PT Sheet No.47, and Chalta No.11 of PT Sheet No.47 of Xelpem, Mapusa to its original state by removing development works including roads and electricity poles, compound walls and buildings and to replace and replant the area with appropriate indigenous forestry species."

3. This Application was dealt by Hon'ble High Court of Bombay through its several interim orders and on 2nd July 2003, the Hon'ble High Court noted that two (2) survey numbers identified under PT Sheet Nos.47 and 48 are prima facie covered by the Report of Karapurkar Committee showing some part of land as forest land and some part of land is non forest land. The Hon'ble High Court further directed the Respondents not to proceed to develop the property based on development permissions granted on the plot in question till further orders. The Hon'ble High Court on the same day further issued directions in M.A. No.350/2003 in W.P. No.286/2003 which are reproduced

Conservation Act, it will be open to such party to develop the land, provided it has other necessary permissions to carry out the development.

(3) The First Respondent if it has not already done, to demarcate the non-forest areas from the forest areas based on either Sawant Committee or Karapurkar Committee reports and submit the same to this Court within six months from today.

4. *The Revenue Department-Government of Goa- Respondent No.1 filed an Affidavit on 24-2-2004 and informed that the State Government has presently taking a decision that Reports of Sawant and Karapurkar Committees would be placed with the Deputy Collector, so that the forest areas mentioned therein are known to authorities, based on which the appropriate decision could be taken in any matter relating to conversion of such land.*

5. *It is observed from the records that Forest Department filed Regular Affidavit along with the progress report mentioning the names of the villages and survey numbers which were surveyed for identification and demarcation of forest in compliance with the directions of the Hon'ble High Court. Such nine (9) Reports were filed up to 30-06-2008. The Affidavit of Mr. J.L. Singh, Chief Conservator of Forest, Department of Forest, Government of Goa dated 26-6-2006 (page 162) indicates that in Xelpem village of Mapusa city, total 12.61 Hectare of forest land has been identified and demarcated in P.T. Sheet Nos. 47(P), 48(P), 65(P), 66(P), 70(P) and 71(P). The Progress Reports of 30-6-2008 mentions that though State Level Expert Committee (SLEC) tentatively identified 28 ha of private forest area in S. Nos. i.e. 44, 45, 47(P), 48(P), 49, 64, 65(P) and 66(P), however, during the survey, the private forest is only 2.84 ha. comprising plot No.1 of 1.27 ha. and plot 2 of 1.57 ha. was identified and demarcated.*

6. *Subsequently, Dr. Shashi Kumar, Chief Conservator of Forest filed another Affidavit on 11-12-2009 wherein he submitted that there were certain errors while transferring the data and submitted that in Xelpem village the land in question i.e. P.T. Sheet Nos. 44, 45, 47(P), 48(P), 49, 64, 65(P), 66(P), 70(P) and 71(P) where the SLEC had tentatively identified 28 Hectares of forest, however, on actual identification demarcation exercise, total 12.61 hectare of private forest is identified and demarcated. It is also mentioned that this block comprises of P.T.S. Nos. 47, 48, 65 and 66 of Xelpem village.*

7. *Respondent Nos.9, 10 and 11 submitted their counter Affidavit in the Tribunal on 24-4-2014, though the original Writ Petition is of 2003. They had not submitted reply in the High Court. The Respondents submit that they are the co-owners of the said property since long from about 1905. The description certificate of the property clearly establish that the said property was having number of houses, thus giving the land in question a character of a Residential property to the said property. There are 117 houses*

were identified as private forest area by Karapurkar Committee. The Respondents claim that they engaged service of M/s. Alpha Agritech Consultants Pvt. Ltd. headed by Forest Experts and Consultants have carried out full exhaustive studies through field visits to study the plot area, in view of three (3) criteria of Forest Identification adopted by Karapurkar Committee. The Consultants submitted their Report in Oct, 2005 concluding that the entire area of 28 Hectare of said property does not qualify as Forest. The Respondents also challenged the Karapurkar Committee Report on the ground that no field visits were done by the Committee. They also claim that the finding of the Karapurkar Committee are not final and subject to detailed ground survey. It is the claim of the Respondents that though the Hon'ble High Court had stayed said development on the identified property, the Hon'ble High Court permitted the development in non-forest area as identified by the Forest Department. The Respondents claim that the Forest Department in its Affidavit dated 30-6- 2008 categorically mentions identification and demarcation of only 2.84 hectares as part of forest area from PT Sheet No.47 and 48. The Respondents, therefore, relied on the Report of the Expert Consultants and further submit that they have made an enquiry under R.T.I. Act regarding an inspection report or the map of identified in the subject property prepared by the Forest Department while arriving at a conclusion that 12.61 hectare is a Forest land. This R.T.I. inquiry was dated 15th January, 2014 and the reply was given on 30th January 2014.

8. The Respondents relied on the plan provided with R.T.I. inquiry which indicates only two patches i.e. plot Nos.1 and 2 admeasuring 1.27 hectare and 1.57 hectare respectively, as identified forest from the PT sheet Nos. 47, 48, 65 and 67. Considering these documents along with the Expert Consultant Report, the Respondents claim that both these documents are matching in terms of the area, location and the extent of forest patches and further state that they are willing to maintain the said area in its natural status as recommended by the Expert Consultants. The Respondents further submit that they are qualified in agricultural activities and have successfully carried out the agricultural plantation business. Respondents also submit that some trees were ought to be felled for various reasons and the same were felled after taking necessary permission from Authorities and also conducting re-plantation. The Respondents claim that the Karapurkar Committee Report is so far not accepted by the State Government or Hon'ble Supreme Court and further identified patches of 2.94 hectares also, do not meet the three (3) criteria for forest identification adopted by Karapurkar Committee. The Respondents, therefore, resisted the Application.

9. Considering submissions of the parties and the documents on record, the only limited question which has to be answered is :

"Whether the land in question or any part thereof is a

adopted three (3) criteria for identification of forest which are as under:

(a) 75% of tree composition should be the forestry species,

(b) The area should be contiguous to the Govt. forest and if in isolation, the minimum area should be 5 Ha,

(c) Canopy density should not be less than 0.4.

11. *It is an admitted fact that Karapurkar Committee has identified some PTS Nos. in Xelpem village in their Report and PTS Nos. 44, 45, 47, 48, 49, 64, 65 and 66 were listed in the Report with the total 28 hectares of identified private forest area. The Committee has also recorded the observation that part of the forest area has been cleared for construction of roads for the purpose of developing the same into residential colonies. The same is required to be stopped forthwith. Lower slopes and the plain land down below are having plantation crop and paddy fields and few munkarial houses. Upper slopes of the dongar consist of natural vegetation while the lower parts are already developed. Developed area can be separated from the natural forest by carrying out detailed ground survey.*

12. *The Forest Department carried out the ground survey for actual identification and demarcation of private forest area as per the orders of the Hon'ble High Court of Bombay, at Goa. The Forest Department filed an Affidavit on 26-6-2006 mentioning that the Xelpem area has been investigated and 12.61 Ha of private forest has been identified and demarcated. It is a matter of record that the Forest Department submitted progress report of the work of identification and demarcation of private forest before the Hon'ble High Court and in Affidavit dated 30-6-2008 recorded that the said identified private forest land by SLEC about 28 Ha has actually 2.84 Ha of private forest. Subsequently, the Forest Department filed another Affidavit on 11-12-2009 mentioning that there was an error which was committed in the transfer of data and accordingly it is submitted that Xelpem area has 12.61 Ha of private forest and this block comprise of PTS Nos. 47, 48, 65 and 66 of Xelpem village.*

13. *Looking into this controversy and also the fact that there is clear mention of term "demarcation", this Tribunal asked the Forest Department about availability of such map of demarcation which was responded in affirmative and therefore, on 14-8-2014 the Forest Department was directed to submit the authentic copy of such map prepared by Forest Department, identifying and demarcating 12.61 Ha area as private forest out of the land in question. The Forest Department submitted this map on record through affidavit dated 27th September 2014. The Affidavit states that the land in question under PTS Nos. 47, 48, 65, 66 and 70 of Mapusa city was visited by survey team of the Forest Department*

Shetgaonkar, S.D.F.O. and Dy. Conservator of Forest, North Goa Division. The map also indicates the boundary of private forest identified, extent of private forest and also the Chalta Nos. involved in the petition. The map also indicates that the identified forest area is in "C" shape and also indicates habitation surrounding this identified forest area. The Affidavit also refers to the survey report prepared by the Team of "Eight Officers" dated 12-5-2005 which also indicates that the identified area is demarcated by pegs from Nos.1 to 27.

15. *In the above context, Mr. Rafique Dada, Learned Senior Advocate for Respondent Nos.9 to 11, submits that there is total confusion and lack of clarity in the submissions made by the Forest Department. The Forest Department has listed different PTS Nos. in different progress reports and therefore, the submissions made by the Forest Department cannot be relied upon. It is his contention that 12.61 Ha land is shown to be the forest area in PTS Nos. 47, 48, 65 and 66 and not only in 47 and 48. He also refers to the Affidavit of the Forest Department dated 30-6-2008 where only 2.84 Ha land is shown as the forest area which is more or less matching with the Expert Consultants engaged by the Respondents. He also claims that Karapurkar Committee has never visited the area and the findings are solely based on the information collected from secondary data. He also relied on the reports of Expert Consultants which factually refutes the allegations that the said area is forest by substantiating the findings in terms of the three (3) criterias of forest identification adopted by Karapurkar Committee. He also relied on the map produced by the Forest Department in the Criminal Case filed against the Respondents for felling of the trees where only two (2) plots of total 2.84 ha area, are shown as forest area. It is his submission that when enquired under R.T.I. Act, the Forest Department has submitted that there are no survey reports or maps for the said identification and demarcation of 12.61 Ha of private forest area.*

16 *Countering this, learned Advocate for the Applicants, Mrs. Norma Alvares submits that though she has prayed for declaring entire area of 28 Hectares as forest, she is willing to accept the findings of the Forest Department, identifying and demarcating 12.61ha private forest, as an exceptional case without prejudice to other cases. She contends that the Writ Petition was filed in the year 2003. Subsequently, there was interim stay granted by the Hon'ble High Court. The Forest Department has filed progress reports from time to time, particularly, in 2006 and 2009 where it is clearly recorded that total 12.61 ha of land in question has been identified and demarcated as private forest. She submits that in spite of being a party to this Writ Petition, the Respondents have neither filed any Affidavit nor any say before the Hon'ble High Court. They have now come with a report allegedly prepared by Expert Consultants in October. November 2005. This fact was never*

was also then prepared. The statement of Shankarrao Fadtare dated 4-5-2012 also record that the illegal cutting of 467 number of trees and damages caused to standing 217 number of trees due to fire in identified and demarcated private forest area under PTS sheet Nos. 47, 48, 65 and 71. Further the statement of Mr. Lucindo Faria i.e. Respondent No.9 dated 4-5-2012 also records the identified and demarcated private forest area. It is her contention that the Respondents were fully aware that the area has been identified and demarcated as private forest and therefore, in order to exclude this area from covering under the 3 criteria adopted for private forest identification, such illegal tree cutting was practiced. It is her contention that the map which is relied upon by the Respondents is a matter of record in the criminal case only, which clearly shows that the two (2) plots have been the present forest patches as were found present in 2012. She also draws attention to the boundary of such plot which exactly resembles the original map of demarcation prepared by Forest Department in the year 2005. She also contends that this map do not have the signatures of SLEC or team of forest officials and is only support document in criminal case. As far as R.T.I. inquiry is concerned, she pleads that in case the Respondents are aggrieved by non supply of the material and documents by the Forest Department, they can take suitable action under R.T.I. Act against the officials. She pleads that, however, non providing information and documents by the government department cannot negate the existence of the official documents.

17. *In view of the above contentions, we have perused both the maps, one submitted by Forest Department in its Affidavit dated 27-4-2014 and also by the Respondents which was received through Respondent No.1 (page 209). It is clearly evident from the survey report dated 12-5-2005 that the area of 12.61 Ha was identified and demarcated by placing pegs on ground in PTS Nos. 66, 70, 47, 48 and 65. The map also clearly shows the boundary of the private forest and the extent of the private forest. The various Google images produced by the Applicants as well as Respondents clearly indicate that the terrain and its description match with the observations of Karapurkar Committee. It is a matter of record that the Petitioner originally moved to the Hon'ble High Court for restoration of certain plots to its original state by removing the development work, claiming that the said land is a private forest. The Hon'ble High Court has expanded the scope of petition and subsequently transferred the matter to this Tribunal. The reports of the Sawant and Karapurkar Committees are before the Apex Court and this Tribunal has also dealt on this issue in Application No.14 and 16 of 2013 which was decided on 30-07-2014.*

18. *Considering above discussion, we are of the considered opinion that there is no substantial reason for interfering in the findings of the Forest Department regarding identification and demarcation of 12.61 Ha of private forest land in village Xelpem. The forest*

repeated directions and orders of the Hon'ble High Court, as well as this Tribunal, is resulting into massive tree cutting and destruction. This is happening only due to lack of serious lack of proper approach and apathy of the Forest Department. Such activities may lead to drastic reduction of forest areas, particularly in the areas where such demarcation work is still not completed. Any further delay will cause further loss of forest areas, as is evident from the present case, where SLEC identified 28 Ha of private forest in year 2000, and the Forest department could demarcate only 12.61 Ha of forest in year 2005. We also share the concern raised by Mrs. Norma Alvares, learned counsel that even in the identified and demarcated private forest, the offence of tree cuttings are dealt under Prevention of Trees Act and not, under the stringent Forest Conservator Act. We, therefore, direct Chief Secretary to issue necessary instructions to the Forest Department.

20. *The Application is, therefore, partly allowed declaring 12.61 ha. of the land in question, as identified and demarcated by the Forest Department, as a private forest. The Forest department is directed to take all necessary steps immediately to preserve and protect this forest land as per the Law. Any construction on said land if so done be demolished within eight (8) weeks by the Collector, North Goa.*

21. *We also make it clear that the directions issued by Hon'ble High Court of Bombay at Goa in M.A. No.350/2003 in W.P. No.286/2003 on 2/7/2003 as referred in Para 3 above will continue to remain in force till entire demarcation work of private forest is completed in the State.*

The Application is disposed of. No costs."

23. Above facts narrated in the judgment and the facts as narrated in the application reveals that the applicant was given opportunity of hearing at every stage and the applicant has contested the matter at every forum on this ground the application is not maintainable.

24. The evidence on record, copy of the judgment and the narration in the application reveals that the applicants regularly contested the matter before every platform and they were heard and matter has been finally decided, and they cannot be given an opportunity of hearing for indefinite period or till the matter is decided in their favour. It needs no restatement

and not of the person who is delaying the proceedings. Public interest is an undoubtly is a paramount consideration in exercising the course discretion wherever conferred upon it by the relevant statutes. Pursuing stale claims and multiplicity proceedings in a no manner sub-serves public interest. Public interest demands that the state or the persons involve in it as the case may be should not be allowed to indulged in any act to unsettle the settled legal rights accrued in law by resorting to avoidable litigation unless the claimants are guilty of deriving benefit to rich they are otherwise not entitled, in any fraudulent manner or pending the litigation for time immemorial. Dragging the matter to courts of law years after years, would not serve any public interest. Settled matters cannot be lightly interfered by the unending litigations.

25. Accordingly, since the matter is pending since long and the matter has been surveyed identified and demarcated by more than 4 times by the Forest Department by the Committee as mentioned above and there was litigation pending before the Hon'ble Apex Court and Hon'ble High Court and issue was heard and decided by National Green Tribunal Bench at Pune, we are of the view that matter should come to end and the report submitted by the Sharma Committee be accepted intoto. Accordingly, both the I.A No. 240/2020 and I.A No. 254/2020 are rejected.

26. After considering the above, we direct as follows:

i) 41.20 sq km area demarcated by Forest Department and 4.91 sq km identified by the Sharma Committee totaling 46.11 sq km is confirmed and accepted as private forest.

iii) We appreciate the efforts by Goa Foundation through its Secretary Dr. Claude Alvares and Ms. Norma Alvares, Learned Sr. Counsel for agitating the matter and finalizing it which was to be done by the State of Goa and by means of filing the application and contesting it at this stage has taken efforts to finalizing it which is a matter to be taken on record. In light of above facts the Goa Foundation should be paid the amount of fees paid while filing this application and also cost of litigation to be decided by the State of Goa and to be reasonably compensated. We leave it on the State of Goa to decide the amount of cost of litigation which should be accepted by the applicant without any contest.

27. Accordingly the Original application is finally decided.

28. A copy of the order be sent to the Chief Secretary of the State of Goa, Chief Conservator of Forest, Goa and Secretary to Goa Foundation for information and compliance.

29. In view of the above, Original Application No. 479 of 2018 and I.A. No. 531/2019, I.A. No. 155/2019, I.A. No. 156/2019, I.A. No. 157/2019, I.A. No. 240/2020& I.A. No. 254/2020 stand disposed of with no orders as to cost.

Sheo Kumar Singh, JM
